## Finland Recovers National Wealth By Self-Help Effort

Great plans are now being formulated to aid the economic recovery of Europe. During discussion of these plans it might be well if mention were made of the tremendous effort in self-help put forth by little Finland, says The Woodstock Sentiner-Review.

The end of the war saw Finland shattered, her cities wrecked, her population reduced, productive areas expropriated by Russia, and faced with a reparations bill of $300,000,000.

But: Finish industrial production figures were back in 1946 to 86 percent of prewar; in two years the Finns have lopped $100,000,000, or a third of the total, from the reparations bill, and hope to have the full amount paid off by the end of 1952.

## Arestu

In faraway Tehran the Ritz Hotel featured Arestu on its menu. A Time correspondent ordered it, found it to be the local way of writing Irish stew.

Youth Delegates Leave For Prague—Photographed in Halifax as they embarked, these Labor Youth Federation delegates are on their way to the World Youth Festival in Prague. Picture shows (left to right) Marie Horodezna, Michael Lukac and Mary Vasil, all of Toronto.

## Civilian Casualties

France lost 620,000 of her citizens in the late war against Germany, according to the latest figures issued. The largest number of these, 150,000, were deportees who died in Hitler's labor and concentration camps, while another 218,000 were other civilians who died violently due to his machinations. Less than half the total death roll, therefore, belongs to the armed forces—Ottawa Citizen.

## Sports – And One Thing or Another

By FRANK MANN HARRIS
("A Sixbit Critic")

Ontario racing circles have been mildly stirred by the first "ringing" case in many years; or perhaps it would be more nearly correct to phrase it, the first case to come to light in years. WILLEGIVIT and FIFTY SEVEN, the two equine ladies involved, are full sisters, and look enough alike to deceive the ordinary eye. But we are somewhat surprised that some of the expert rail-birds and work watchers, who claim that they can identify any horse they ever saw at twenty paces, did not recognize the switch when WILLEGIVIT raced and won under the name of her younger relative.

* * *

As a matter of fact, we understand that some of these "experts" are now trying to claim that they did suspect it was WILLEGIVIT who was running at Woodbine; but when asked how much they won, somewhat coyly confess that they refrained from betting because of the circumstances. If so, they showed a self-restraint and adherence to moral principles we have never run across before; for it has been our experience that the surest way to make anybody wager—from Cabinet Minister down to bum—is to convince him that a race is "in the bag" and that he is betting on a sure thing. In other words, there's a slight touch of larceny concealed in the very best of us.

* * *

*STRAY THOUGHT ON A DELICATE TOPIC. In one of his prefaces Bernard Shaw advocated that medical men be rewarded on the Chinese system—keep your Doctor on salary as long as you're well, cut off his pay as soon as you're sick. No doubt it's a screwball idea — but sometimes we've wondered how something similar would work out with some professional labor leaders. If their incomes ceased the minute a strike was called—would there be just as many?*

* * *

One of our favorite sports columnists, Jim Coleman, reminisced in print recently about the runner, entered in a race around Toronto's old Belt Line, who sneaked aboard a trolley car and rode the loop, getting off at his starting-point in time to make a dash home in front of all competitors. Too far in front, for that matter, as his skulduggery was detected.

* * *

This recalls other incidents of a similar nature; like the horse race on a foggy afternoon out San Francisco way when a jockey, left at the post, pulled up at the head of the stretch and waited unseen in the mist till the rest of the field had almost made the circuit of the track, then started going again and coasted home a handy winner. Or the occasion at the Olympic games when certain French Marathoners almost certainly covered a large part of the gruelling journey concealed in a truck.

* * *

Our favorite of all, perhaps, was what once happened in a softball game just as the dusk was falling and it was expected that the umpire would call it off on account of darkness at any moment. With the home team a run ahead, two were out in the last half of the ninth. The pitcher, a real speedball artist, was working fast in order to beat the call of Time. One strike—two strikes—shot across the platter. Again the pitcher took the ball, toed the mound, and swung his trusty right arm forward with terrific force. "Strike three—game's over" shouted the Umps. All his teammates crowded around the pitcher to congratulate him on his win; and very few there were who noticed him unobtrusively hand something to his catcher. It was the ball. Aided by the dusk, he had merely made his motion—and hung on to the horsehide!
