Aladdin was a Lucky Fellow!

● Aladdin and the genie of his magic lamp could produce anything desired . . . no scarcities . . . no delays. But when it comes to building new Hydro generating plants to supply Ontario's ever-growing demand, lack of building materials is proving a problem for which Hydro has no magic cure.

Demand for electricity is growing faster than new power plants can be built. It takes a staggering amount of concrete, steel, lumber and electrical equipment to build a new power development. It all has to be shopped for, delivered to the job and assembled. A difficult task in these days of short supply.

To provide everyone with all the electricity they might like to use during fall and winter months would require new generating stations equal to about one-fifth of our present total supply of over 2,600,000 horsepower. Construction on these and other Hydro projects has been under way for a long time. Your Hydro is pushing them just as fast as materials can be obtained . . . aiming to do in 5 years what would normally take 7 years. One will start delivering 70,000 horsepower this fall. Another 81,000 horsepower in 1948. By 1950 the huge Ottawa River development will start to pour its 360,000 horsepower into the Ontario Hydro system.

Few places in the world have as much electricity available per person as Ontario. However, we must conserve our electricity so that new homes, farms and industries will all receive their share; so that the wheels of our factories will be kept turning and maximum employment and production maintained . . . USE HYDRO WISELY and there will be enough for all.

VICTORIA CORNERS

Haying, though backward this year has brought forth tragedy and accident. Most of us not being acquainted with the Frizzell family at Hopeville, sorrow greatly with them, in their untimely loss of their dear little girl, Muriel, and their other little daughter's severe injuries, by being struck by a pulley during haying operations on a near-by farm.

Haying has brought its accidents in our own neighborhood, too. On Thursday evening, while taking off a load of hay in his barn, the trip rope broke releasing Elwin Moore to the floor, injuring his right shoulder. Mr. Wm. Duncan, while going down the ladder of his wagon, after entering the barn with a load, slipped and he fell at the horses' feet, and was kicked by them. Results were a severe shaking up and a dislocated shoulder. We trust that Elwin and Willie will soon shed their injuries and be able to assist at haying operations in some manner, as help in almost impossible to secure.

Miss Lulu Cook, Toronto, is spending her two weeks' vacation with her sister, Mr. Walter Acheson, and Mr. Acheson.

Guests Wednesday and Thursday with their cousin, Mrs. Wm. Ludlow, and Mr. and Mrs. E. A. Stinson were: Misses Vida and Florence Dawson and sister, Mrs. Burgess of Tilbury. Mrs. Ludlow returned to Tilbury with them for some holidays.

Miss Joice Copeland, Salem, visited her grandparents Mr. and Mrs. Jos. Copeland, a few days last week.

Mr. 'Jerry" Nicholls and sister, Janet, of Detroit, Mich., are holidaying with their grandparents, Mr. and Mrs. George Ludlow, Mr. and Mrs. Merritt Nicholls.

Visitors with the Lintons and Mac Millans are Miss Elda Reid, Brampton, little Miss Donna Hall of Owen Sound and Archie MacMullen's brother of Shallow Lake, who will be assisting him throughout haying.

While erecing a bridge on the Proton sideroad, the construction men are boarding at the home of Mr. Neil Winters.

The ladies of Proton W.A. held their July meeting in the home of Mrs. Clayton Betts on Thursday.

The friends and neighbors of Mr. and Mrs. Leroy Waters, the former Jacqueline Sims, met in the Proton hall Friday evening to honor them on their recent marriage. The young couple were presented with an envelope of money.

(Intended for Last Week)

The ladies of Inistioge W.A. met in the home of Misses Muriel and Laurene Talbot, Dundalk, for their July meeting. An invitation to join the newly-formed Proton Station W.A. in their church on August 12th, was accepted. Plans were made for the Inistioge bazaar to be held at the home of Mrs. Ernie Stewart.

Mr. and Mrs. George Moore and Garry had as their guests Tuesday and Wednesday, July 15-16, Rev. W. W. and Mrs. Patterson, Barbara, John and baby David, of Newcastle and Mrs. Chas. E. Moore of Toronto. Rev. Patterson was a former minister on the Inistioge charge, leaving here seven years ago. While here the Pattersons renewed acquaintances here and at Proton Station.

Mrs. Milton Bannon is conducting a sewing class in the interests of the Proton W.I. Quite a worth-while attendance has been present at each class, which has been held every Thursday afternoon during the summer vacation.

ROCK MILLS

The showery weather is making it hard for the farmers to finish haying.

Mr. Mannie Dobson, Redge and Lawrence, Margaret Park, and Mr. and Mrs. Dick Clark, spent the week-end near Bracebridge in search of Blueberries, returning home Sunday evening.

Mrs. R. McMillan of Chicago, Ill., is visiting her niece, Mrs. Wm. Russell, and family.

Mr. and Mrs. Ray Robins of Toronto visited over the week end with Mr. and Mrs. Geo. Boyce.

Mr. Wm. Osborne of Wilder, Idaho, who has been visiting relatives here for a few weeks, motored to Noranda, accompanied by his brothers, who reside around here, to visit their brother, Mr. Fred Osborne, and family, who reside at Noranda.

Mr. and Mrs. Elmer Warling of Hamilton called on the Croft families here and in Flesherton on Monday.

Mr. and Mrs. Ross Glassford of Bowmanville and Mrs. B. Fields of Flesherton, were callers at the mill on Monday.

Mr. and Mrs. Chas Newell visited recently with Markdale friends.

Mr. and Mrs. Ernest Acheson of Bethel, Mr. and Mrs. Herb Grummett and family of Wareham, Mr. and Mrs. Wm. Cameron and family of Singhampton and Mrs. Welly Fawcett of Kimberley were recent visitors with Mr. and Mrs. Wm. Russell.

Passerby (having asked his way): "Er—don't shout, please. I'm not deaf."

Native: "but Oi be deaf, an' Oi loikes to 'ear what Oi be saying'."

FOR YOUNG TRAVELLERS

A wait betwen trains in a strange city with a couple of children in tow, is a prospect grim enough to appal the most competent young mother, but from now on the new three-room nursery in the Canadian Pacific Railway's Windsor Station in Montreal will give both parents and youngster a chance to rest, relax and freshen up before continuing their journey. The nursery is in charge of a trained matron, and its playroom (top) is equipped with an indoor slide, blocks and toys with which the kiddies can be turned loose. The "quiet" room (lower left) has cots the children to sleep in and chairs for their mothers to relax. Two diminutive tubs are provided in the bathroom (lower right) where a young lady, from Northern Ontario en route to Nova Scotia, is seen bathing her 14-month-old boy. A hot plate, bottle warmer and sterilizer are available for preparing milk and formulas, and the rooms are all decorated with pictures and "transfers" of animals and children. Miss Ethel Alexander, R.N., the matron-in-charge, who can be seen in the upper picture, keeps an eye on the children while mothers go about errands in the station—seeing about tickets or having a meal.

Collingwood Memorial Kiltie Band.

Look over the program. Pick the events that appeal to you, and come early and stay as late as you like.

What a lot of men want to know is how one gets to be a judge at these beauty contests.

The best acting in the movies is done by the man who smiles when you sit on his straw hat.

The lowly cub reporter, who was assibgned to cover the class play of the high school, came in for his share of literary fame when the following appeared in his write-up: "The auditorium was filled with expectant mothers, eagerly awaiting the appearance of their offspring."

Live Poultry Wanted

THINGS often overlooked in Poultry Marketing

WEIGHT
Selling your poultry at your farm, you avoid heavy weight shrinkage. Shipping to an outside market, you are certain to have a large weight shrinkage.

DON'TS
Do not sell your poultry at a quotation for the flock. Do not sell at so much per bird. That buyer is always playing safe — you are the loser.

BUYING
WE weigh and pay cash at your farm.

RESULTS
This is your vital interest. Our method assures you TOP CASH RETURNS.

SERVICE
Write or phone. Our trucks are in your district weekly.
The District's Largest Live Poultry Processing Plant.
