
Erecting another 70,000 horsepower generator at new DeCew Falls plant near St. Catharines.

HYDRO SPEEDS NEW POWER PLANTS

Hydro is pushing construction to meet the pressing demand for more electricity. The above huge generator will soon pour an additional 70,000 horsepower into the Hydro system from the DeCew Falls plant near St. Catharines.

Two other larger plants in eastern Ontario, now under construction, will deliver 81,000 horsepower next year and 360,000 horsepower by 1951. These two major developments, with the DeCew Falls addition, will provide Ontario with a further badly needed half-million horsepower.

The growing output of Ontario's industries and farms benefits everyone but calls for more and more electricity. Even now that the war is over, the demand has not slackened but continues to mount. Hydro's peak load increased by more than 500,000 horsepower over the highest wartime demand, an increase of 25%. Generating plants take a long time to build and could not be started during the war.

Few places in the world have as much electricity available per person as Ontario. However, we must use our electricity sparingly so that all homes, all farm services and all industries will receive their share.

Save ELECTRICITY

in the KITCHEN

Will you do your part? . . . USE HYDRO WISELY and there will be enough for all.

Mullen of Feversham, Mr. and Mrs. Bruce Mullen of Collingwood, Mrs. Will Osborne and daughters, Mrs. Maggie Clark, Mrs. Irene Snider, all of Wider, Idaho, Mrs. Ray Wood of Oakville and Mrs. David March of Toronto.

MR. AND MRS. M. BUCHANAN RECEIVE GIFTS FROM FRIENDS

(By Vandeleur Reporter)

Vandeleur Community Hall was the scene of a happy gathering of friends and neighbors of Mr. and Mrs. Mel Buchanan Tuesday evening, August 29th, to extend best wishes and welcome the bride, formerly Mary Louise Riddell of Annan. The guests of honor were presented with an occasional chair and a table, the presentation address being read by Howard Graham, and appreciation was expressed by both recipients. The address was signed on behalf of the community by Ralph Fitzsimmons, Ken Teeter, Vernon Fawcett, Earl Morrison, George Armstorng and Fred Bannon.

STEPHEN'S CORNERS

Mr. and Mrs. John Lougheed, Mae and Elaine, of Barrie spent a week at their farm here and visited friends.

We are sorry to report Mr. Ernie Hayes a patient in Markdale hospital. We hope there is soon some improvement in his condition.

A number from here attended the reunion in Flesherton last week and report an enjoyable time.

Recent visitors with Mr. and Mrs. Clarence Winters were: Mr. and Mrs. Russell Stewart of Toronto, Mr. Art Barclay of Limerick, Sask., Mr. and Mrs. Alf. Fevez of Toronto and Mr. and Mrs. Ike Lougheed of Brownlee, Sask.

HANDS AT WORK . . .

LEARNING REFRIGERATION

ONTARIO'S **productive capacity is the measure of her future prosperity. To assure this province a prominent place in domestic and foreign trade markets, skilled hands are needed. Increased production of refrigeration units will mean a greater need for skilled servicing. Veterans, basically trained in schools and ON THE JOB, will fill this need as they are absorbed into industry. For those who have mastered skilled occupations, higher wages, job security and better working conditions are within easier reach.**

Through plans sponsored by the Department of Veterans Affairs and other agencies, hundreds of young workers are being trained for refrigeration servicing. Graduates of training schools are ready now to take their places in industry. Craftsmen of the future, they will have a share in Ontario's progress—an important part to play in her industrial development.

THE BREWING INDUSTRY (ONTARIO)

REFRIGERATION

D. C. Guiry, 23, of Toronto, a veteran of 15½ months' service in the Royal Canadian Air Force, is shown checking the operating pressures on a domestic training unit.

The Refrigeration Course gives the student a theoretical and practical knowledge of domestic, commercial and air conditioning units.
