YOUR KIND
Co-operation, Please

It is essential that more care be given cream during the hot weather.
Here are several hints which will help you and help us to maintain our high standard of quality butter:

1. Cool cream as rapidly as possible after separating. This can be done by placing the cream container in a vessel of cold water in the basement.
2. Send cream in by trurk or deliver at least twice a week.
3. Keep all dairy utensils in best possible sanitary condition.

VALLEY ROAD SOUTH

The weather has been very warm, making the harvest come in very quickly.

Mr. and Mrs. Delbert Wickens of Meaford visited on Sunday with his parents., Mr. and Mrs. J. Wickens.

Mr. John Wickens suffered blood poisoning in his right hand during the past week.

Born — In Collingwood Hospital to Mr. and Mrs. Merle Weber, a son Both doing well.

Joe Gibson and Gladwyn Wiley of Priceville and Arthur Idle of Durham have been assisting their father-in-law, Mr. John Wickens, with the harvest. It pays to have sons-in-law.

Mr. Gordon Wood has been assisting Clifford Ward with his harvest.

Mrs. Will Weber, who has been on the sick list, is feeling much better.

Miss Irene Wickens of Thornbury, who has been visiting her sister, Mrs. Clifford Ward due to poor health, has returned home feeling somewhat better.

In 1914 a dollar was a dollar; today it is worth about thirty cents; maybe our dollar has been travelling around too much and is getting worn thin.
