A Message of Importance

to Cream Producers

Since Ceram is an exceptionally good price, it is worth-while to maintain the maximum production of your dairy herd. Nothing will cut produrtion more sharply than the producing cows being left out during the unexpected cold nights. It is, therefore, advisable to stable the milch cows at night from now.. on.

Poultry

We are in the market for large quantities of poultry. We buy them alive or dressed, or do custom killing.

On Neighborliness

When the news generally is of robberies, murders and other acts of violence we try from time to time to note some of the acts of kindness of self-sacrifices that are so numerous in our Province but are given little publicity. This week we wish to tell of the generous, helpful spirt of the people in the community of Weston. At two o'clock in the morning March 21st a strong wind wrapped itself around the twelve-roomed home of Alvin Topper, on the Weston Road, while ten occupants slept soundly within, unaware that a fire had started in the basement. As they finally smelt the smoke the ten people hastily grabbed articles of clothing and went out into the frosty night. Nothing of the home and its contents was left but the foundation. The people of the neighborhood were early on the scene with clothing and food. A small cabin was donated and brought by tractor to the property where the family lived for three months. In the meantime a friend with a tractor shovel cleaned out the foundations for construction of a new home, with neighbors vieing in efforts to help. Today a beautiful seven-room house is nearing completion. The kitchen cupboards were donated and built-in bedroom furniture was furnished by friends and much of the decorating done gratuitously and the family can now carry on as before. This is another example of that good-will which is to be found everywhere in our country, but is so often unnoticed.—Muskoka Herald.

Coming into effect this week end, the Canadian Pacific Railway has announced a change in time table. The Sunday evening train arrives from Toronto at Flesherton station at 9:13 p.m., and the train for Toronto leaves at 6:08 p.m.

Each day except Sunday the trains to Toronto leave Flesherton at 8:49 a.m. and 5:46 p.m., while those going to Owen Sound leave at 11:35 a.m. and 9:25 p.m. Due to eliminating several stops along the line, the trip to Toronto has been cut by half an hour.

WOMEN'S MISSIONARY SOCIETY

The regular monthly meeting of the Women's Missionary Society was held Friday afternoon in the basement of the church. Mrs. W. Henry and Miss Beatrice Thistlewaite sang a lovely duet, "If Jesus Goes, I'll go Anywhere."

Mrs. Macpherson gave a splendid review of Mrs. Agnew's address that was given at the Presbytery in Chatsworth last Spring. She said that Canada, Argentine, Australia and United States were the only countries with enough to eat. In European countries they save the stronger children and have to let the weak and sick ones die. Money doesn't mean much in China for it takes two thousand dollars to send a letter from China to Canada. When people from other countries see us destroying food in order to keep prices up, what must they think of our American ways. When we sing the Hymn, "In Christ there is no East or West" let us remember that this should apply to each one of us, too

The ladies of the congregation are invited to the Thanksgiving meeting on Friday, October 17th at eight o'clock.

THE CHURCH

A Moral and Spiritual Power in the Community

(By Rev. W. A. White, E.D.)

We meet from time to time men who call themselves infidels. They think they must say and do much against the Church and the Christ. But there is one thing that they forget, that is the fact that the Church of Christ has been here over 1900 years, and that it has produced the noblest characters the world has known. The Church of Christ has given us a system of high morals. Christianity has no rival in our world of today.

Christianity is more than a system of morals. That would be putting it on its lowest level. But when we put on its highest level, It is Good News about the Christ. It is "The power of God unto salvation" to every one who will accept the Good News o the Gospel.

The Church of Christ has no apology to make for the Gospel she preaches. The Apostles Paul says, "We are proud of the Gospel of Christ because it is the power of God unto Salvation."

One value of the Christian Church to the community it its moral powe and influence for good clean living. It produces strong characters. It builds up the type of manhood and womanhood which can be depended upon in times of crisis.

Not many of us would want to live very long in this community if the Churchs were both closed. No one would want to bring up a family in a Churchless Community. Even the so-called infidel to whom the Church is such great annoyance, would be careful not to live in a place where there is no church. We all seem to sence the great need of the influence of the Church of Jesus Christ. There are two very good reasons why we should support the Christian Church. The first of these is the personal benefit that we derive from it. The second is the inspiration that we receive that sends us out to help others.

Therefore I would ask all non-church-goers to think on these few thoughts, and "Come thou with us and we will do thee Good". Have you not a need of a deeper and more active spiritual life? The great need of the greater knowledge of Jesus itself anew to Christ, and His service

No doubt British action on cutting down importation of food-stuffs goes against the grain.

When you rise in the morning form a resolution to make the day a happy one to a fellow-creature.—Sydney Smith.
