Ensure Needed Support For Rink

All indications now point to Flesherton and community once again enjoying both skating and hockey right at home. The Rink Committee appointed by the Flesherton Service Club, assures us that they can have the old rink straightened, strengthened and properly lighted in time for Old Man Winter.

Thanks to the splendid efforts of both local and Toronto Old Home Week Committees, community spirit is at an all-time high in Flesherton, and is being crystalized in serving the immediate needs of the young people. The old rink has been bought back into public hands once more, and all those who have backed the venture deserve a good hand from everyone interested in the welfare of the community.

The Rink Committe is confident that the present structure will serve for several years when repaired, until a new, more adequate one can be erected on the same land. Success will continue to depend upon the willingness of all public-spirited citizens to give their time, labor and means. The newly-formed Service Club will provide a well-organized effort on the part of the men-folk, and the Women's Institute will be, at it always has been, a splendid expression of the interest and support from the women.

Let's all get behind this worthy enterprise, and push it over to a huge success. It depends on You, and You, and You! The Service Club will be glad to receive all constructive suggestions from near or far.

Remembrance Day Closing

For some years there has been a certain amount of controversy, not only here but in many other municipailties, about the observance of November 11th. Remembrance Day is a legal holiday and a municipal paper states: "Remembrance Day is a legal holiday (see Interpretation Act, R.S.O., 1937, Chap. 1, sect. 32K) Whether it is observed as a general holiday depends largely on the local civic spirit. There is nothing to compel the closing of business places on such holidays. What seems to occur in a large number of municipalities is that the merchants get together and decide whether they are going to close all day or just in the morning, or maybe only for an hour. In the case of other legal holidays, such for example as Dominion Day there is sufficient public opinion to compel closing."

Card of Thanks

I wish to express my thanks for the treats and cards I received while in Markdale Hospital and for the kind enquiries since my return home.

Money For Libraries Is Money Well Spent

Dr. J. G. Althouse, chief director of education, in addressing the Simcoe County Library Association at Barrie, stated that this year the provincial treasury is spending more than five times as much on libraries as it did in 1944.

This is one instance in which increased expenditure should not annoy taxpayers. Money spent on libraries is money well spent.

Such expenditures can be particularly valuable when it serves to increase library facilities in the rural communities. In the larger centres there already exist well-stocked public libraries. Then, too, most of these cities and towns have privately-operated lending libraries. Even if no such libraries existed, it would still be much easier for urban residents to borrow books from friends and acquaintances, than is the case in the country. Slipping around the block to a friend's home for a book on an evening is an easy walk in town, but if you have to walk a country block to get a book the chance is you will stay at home.

One of the most encouraging features of the increased expenditure for libraries is the fact that the need of the rural communities for libraries is being recognized and met. As yet, however, only a start has been made in providing the services required. Much work remains to be done. All should encourage the Government to continue with its program.—Sun-Times.

Card of Thanks

We wish to extend our heartfelt thanks to the many friends and neighbors who so readily offered their assistance in the search for our father, David Winters. This will not soon be forgotten.

—The Winters Family.

Aged Osprey Man Was Lost In Marsh

(By Stephens Corners Reporter)

Once again on Friday night the friends and neighbors of this community were called upon to take part in a search for a missing person, this time for an 84-year-old man, Mr. David Winters, who had disappeared from his home. This marked the second time in less than a week that this community was summmoned to hunt a missing party—last Sunday night and Monday morning for little two and a ha'f year old Herbie McMaster.

Mr. Winters, who is in good health but suffers from lapse of memory, is in the habit of going for a walk every day and usually returns home by supper time. When he had not returned his son, Clarence, with whom he resides, became alarmed and started out to look for him. On learning that he had been seen on the Third Line at four o'clock, supposed to be making his way to the home of his daughter at Wareham, it was feared that he had become confused and had made the wrong turn. Before long a large number of men were out on the search. After combing the roads and fields, the searchers decided to turn their hunt to the huchleberry marsh and it was here that the aged man was found after he had answered the calls of his son, Clarence. Mr. Winters was on his hands and knees, still holding his cane, but other than being tired seemed to be as good as usual.

It was in thic same marsh that Mr. Winters' mother was lost some thirty-two years ago and was never found.
