RUMOURED RECALL OF THE VOLUNTEERS.

The London Evening Advertiser says, it is stated on pretty good grounds that the Volunteers now on the 'Frost' will be recalled on the 1st of March. The ice-bridges made during the winter by the river freezing over have disappeared, so there can be no danger of the Finnegans crossing in large numbers without alarming the authorities. The Volunteers generally who have gone through the winter campaign will not be sorry to hear the news. The same paper says that the ice in the St. Clair is broken up. The river is now entirely free. In consequence of this, the midnight patrol along the river bank has been discontinued, to the great satisfaction of the Volunteers.

LIBERAL DEFEAT NEAR TAMPICO.

New Orleans, Feb. 16.

The Brownsville Courier of the 7th inst., reports that General Medese, with 2,000 men, had taken possession of the roads leading from Tampico. The French garrison, one hundred strong, reinforced by a few hundred men, was ordered to attack the Liberals. The latter formed an ambuscade, and cut off and massacred sixty of the French advance-guard. The remainder of the French troops, five hundred strong, renewed the attack, using their bayonets vigorously, and forced the Liberals to retreat, closely pursued for several hours. Medese, and almost all his staff officers, are reported to have been killed. The Liberal loss is reported at 850, and the French loss at 100.

MONTREAL MARKETS.

Montreal, Feb. 19, 1866.

(Special Telegram to the British Whig.)

William Nivin & Co., Commission Merchants, Corner of St. Nicholas and St. Sacrament Streets, Montreal, report:—

Flour—Superfine Extra, 8,00 a 8,25; Extra, 7,50 a 7,75; Fancy, 6,50 a 6,60; Welland Canal Superfine, 5,50 a 5,52; Superfine No. 1 Canada Wheat, 5,50 a 5,80; Superfine No. 1 Western Wheat, 5,50 a 5,53; Superfine No. 2 Western Wheat, 4,90 a 5,15; Bag Flour, 3,00 a 3,15. Wheat—Canada, 1,16 a 1,20; Western, 1,14 a 1,20.—Oats—per 32 lbs, 30 cents a 35 cents. Barley, 48 lbs, 60 a 65c. Butter—Dairy, 19 a 21c; Store Packed, 17 a 18c. Ashes—Pots, 5,90 a 5,95; Pearls, 7,75 a 8,00. Gold in New York at 12 o'clock, 137. Flour market—white wheat flour in moderate demand; receipts limited; shipments difficult, which tends to check speculation; bag flour very scarce, and with strong demand for choice prices; less disposition to speculate for time delivery. In Oats and Peas—hard to say if Peas would bring 82½ cents per 66 lbs.—Oats also difficult to sell over 35 cents per 32 lbs. Nothing doing in other grades, and prices nominal. Butter very scarce.

AMERICAN INVOICES.—The Official Gazette of Saturday last announces that the authorized discount on American Invoices is declared to be 27 per cent. which percentage of deduction is to be continued until next weekly notice, and applies to all purchases made in the United States during this week.

POLICE COURT, Monday.—(Before Mr. Creighton.)—There were only one or two cases before the Court this morning. Jackson Weir, who was charged with stealing the coat from Mr. McRossie, mentioned in Saturday's report, was committed for trial at the Recorder's Court. John Crysley, charged with being drunk and disorderly, was fined $4, or in default, ten days in gaol.

Port Colborne, Feb. 16.

A company was formed here last evening to bore for petroleum, with a capital of six thousand dollars. Operations to be commenced as soon as possible.

THE FUR TRADE.—The Red River Nor'-Wester of January 13, says:—The late falling of the snow had a bad effect upon the usually brisk fur trade of the early winter. Hunters were unable to set their traps and the minks and martins were having a good time of it. What was good for them however was bad for the rats, for the light frost and no snow allowed the unfortunate musquashes to be easily seen and as easily speared through the thin clear ice. The open fall has allowed the foxes and wolves to find their natural food instead of being reduced to the necessity of eating those tempting pieces of meat which the older foxes know to cost the taker his life first and his skin afterwards. Up to this time owing to the comparative failure of the fall hunt, there have been few robes in the market, and in fact, on the whole the catch of all kinds of fur except robes is less than that of last year.'

NEW YORK MARKETS—Feb. 19.

DISTILLING APPARATUS,

TO BE USED ON BOARD

PASSENGER SHIPS.

DOWNING-STREET,
18th December, 1865.

SIR,—

I have the honor to transmit, for your information, and for insertion in the public papers, the accompanying Copy of an Order of Her Majesty in Council, dated the 5th instant, allowing the Distilling Apparatus of Messrs. Chaplin and Company, as well as those of Dr. Normanby and Messrs. Winchester and Gravely, to be used on board Passenger Ships.

I have the honor to be,
Sir,
Your most obedient
Humble servant,
EDWARD CARDWELL.

[Signed,]
The Officer Administering the Government of Canada.

[L. S.]

AT THE COURT OF WINDSOR,
The 5th day of December, 1865.
PRESENT:
THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS, by "The Passengers' Act, 1855," it is amongst other things enacted, that before any Passenger Ship shall be cleared out, the Emigration Officer at the port of clearance shall satisfy himself that there is on board a sufficient quantity of pure water, carried in tanks or casks, to secure throughout the intended voyage the issue of three quarts daily to each statute adult, for the use of passengers, exclusive of the quantity required for cooking:

And whereas, it is also enacted, that it shall be lawful for Her Majesty, by any Order in Council, to precribe such rules and regulations as to Her Majesty may seem fit, for permitting the use on board passenger ships of an apparatus for distilling water, and for defining in such case the quantity of fresh water to be carried in tanks or casks for the passengers, and such order in council from time to time to alter, amend and revoke, as occasion may require:

And whereas, Her Majesty, by an order in council, dated the ninth day of January, one thousand eight hundred and sixty-three, prescribed certain rules for permitting the use on board passenger ships, propelled by steam engines of less than a certain power, and on board passenger ships propelled by sails, of a certain apparatus for distilling fresh water from salt water;

And whereas, it is expedient to repeal the said order in council, and to issue in lieu thereof the order hereinafter contained:

Now, therefore, Her Majesty doth, by and with the advice of Her Privy Council, and in pursuance and in exercise of the authority vested in Her by the said "Passengers' Act, 1855," hereby repeal the said order in council of the ninth day of January, one thousand eight hundred and sixty-three, except in so far as the same repeals a certain order in council of the thirteenth day of May, one thousand eight hundred and fifty-nine, and doth hereby order as follows:

Any passenger ship propelled by sails only, or by steam engines of less power than is sufficient, without the aid of sails to propel the ship at the rate of five statute miles an hour, may be cleared out and proceed on her voyage, having on board, in tanks or casks, only half of the quantity of pure water required by the said Act to be carried for the use of the passengers, provided the following conditions be observed, that is to say:

1. That there be on board such ship an efficient apparatus for distilling fresh water from salt water, of the description commonly known either as Normandy's patent, as Winchester and Graveley's patent, or as Chaplin and company's patent.

2. That the owners, charterers, or master of such ship, before clearance, lodge with such Emigration Officer a certificate from some engineer or surveyor of the board of Trade, or from some other competent person to be named by such Emigration Officer declaring that within seven days immediately preceeding the date of such certificate, the apparatus has been examined by him, and is then in good working condition, and stating the number of imperial gallons of pure fresh water which it is capable of producing in everytwenty-four hours, and further declaring that the apparatus on board is either Normandy's, Winchester and Graveley's, or Chaplin and company's patent as the case may be.

3. That in every case such Emigration Officer, shall be satisfied that the number of gallons of pure water which the apparatus is so certified to be capable of producing is not less than the whole number of persons about to proceed on the intended voyage of such ship, that is to say, the whole number of cabin passengers, passengers and crew.

4. That there is rated on the ship's articles, and that there is on board the ship, some person or persons who to the satisfaction of the said Emigration Officer, shall be competent for the proper management and repair of such distilling apparatus:

And to prevent all doubts on the construction of this order in council, it is hereby further ordered, that the terms "Passenger Ship,' 'Emigration Officer,' 'Statute Adult,' and 'Master,' shall therein have the same significations as are assigned to them respectively in the said 'Passengers' Act, 1855:'

And the Right Honorable Edward Cardwell, one of her Majesty's principal Secretaries of State, is to give the necessary directions herein accordingly.

[Signed.]
ARTHUR HELPS.

Steinway & Sons'
PIANOS
ARE NOW ACKNOWLEDGED TO BE THE
BEST INSTRUMENTS
IN AMERICA,
AS WELL AS IN EUROPE.
THEY WERE
AWARDED A FIRST PRIZE MEDAL
At the Great International Exhibition of 1862 for
Powerful, Clear, Brilliant and Sympathetic Tone,
As shown in Grand and Square Pianos.

TESTIMONIALS
FROM THE MOST DISTINGUISHED ARTISTS TO MESSRS. STEINWAY AND SONS.

New York, December, 1864.

THE Piano-Fortes, Grand, Square and Upright, manufactured by Messrs. Steinway & Sons, have established for themselves so world-wide a reputation, that it is hardly possible for us to add anything to their just fame.

Having thoroughly tested and tried these instruments personally for years, both in public and private, it becomes our pleasant duty to express our candid opinion regarding their unquestoned superiority over any other Piano known to us.

Among the chief points of their uniform excellence, are:—Greatest possible depth, richness and volume of tone, combined with a rare brilliancy, clearness and perfect evenness throughout the entire scale, and above all, a surprising duration of sound, the pure and sympathetic quality of which never changes under the most delicate or powerful touch.

This peculiarity is found exclusively in the 'Steinway,' Piano, and together with the matchless precision, elasticity and promptness of action always characterizing these instruments, as well as their unequalled durability under the severest trials, is truly surprising, and claims at once the admiration of every artist; we therefore consider

The "Steinway" Pianos in all respects the best instruments made in this country or Europe—we them solely and exclusively ourselves in public or private, and recommend them invariably to our friends and the public.

We have different times expressed our opinion regarding the Pianos of various makers, but freely and unhesitatingly pronounce Messrs. "Steinway's & Sons" Pianos far Superior to them all.

Important to all Purchasers of Pianos.

EXTRACT of a letter from an Officer of the Royal Artillery in India to his father, and kindly communicated by Thos. A. Corbett, Esq., Sheriff of Frontenac.

Kussoudie, near Delhi,
22nd Dec., 1865.

"I wish you would tell John C. Fox, the maker of my Wife's Piano, how well it stands the climate of India. It is at once acknowledged to be the best toned as well as the handsomest Piano that has been seen in India. It had a severe trial on its way up from Calcutta to Delhi in the month of June, which is about the hottest part of the year, and yet on its arrival after being packed up eight or nine months, and coming all the way from Kingston, Canada West, to Liverpool, and via the Cape to Calcutta, only six or seven notes were out of tune, I had it tuned once and it has kept in perfect order ever since.

The Bandmaster who tuned it has taken out a patent for some new improvement which evidently he cribbed from yours. The only fault is its weight; in moving it took thirty-two of these wretched country laborers to carry it up the hill a distance of about seven miles, having a tolerably good road and gradual ascent.

I am certain that an instrument that will stand the extremes of temperature of Canada, and India, will answer here capitally.

I should think it would be worth his while to send a few of them to Calcutta."
