A Message of Importance

to Cream Producers

Since Ceram is an exceptionally good price, it is worth-while to maintain the maximum production of your dairy herd. Nothing will cut produrtion more sharply than the producing cows being left out during the unexpected cold nights. It is, therefore, advisable to stable the milch cows at night from now on.

Poultry

We are in the market for large quantities of poultry. We buy them alive or dressed, or do custom killing.

DUCKS AND GEESE

With the present high feed prices, we think is advisable to market your Ducks and Geese now, instead of waiting for the Christmas market. Our prices are good.

CANADA

Did You Pay Income Tax For 1942?

If so, read this carefully!

The Government of Canada will repay the REFUNDABLE SAVINGS PORTION of 1942 Income Tax by March 31st, 1948. If you are one of those who have refundable savings a cheque will be mailed to you BUT—

Your correct present address is essential!

Correct addresses are available for most of those entitled to repayment, but a large number of taxpayers are constantly moving and others marry and their names change.

Cards on which to report changes of address or name are being sent to all householders in Canada. These are being distributed at the present time. Additional cards are available either at your district Income Tax office or your local Post Office. Do nothing if you live at the same address and have the same name as in 1942.

If you are entitled to Refundable Savings on 1942 Income Tax and you have changed your address or name

COMPLETE AND MAIL YOUR CARD AT ONCE!

HANDS AT WORK . . .

LEARNING REFRIGERATION

ONTARIO'S productive capacity is the measure of her future prosperity. To assure this province a prominent place in domestic and foreign trade markets, skilled hands are needed. Increased production of refrigeration units will mean a greater need for skilled servicing. Veterans, basically trained in schools and ON THE JOB, will fill this need as they are absorbed into industry. For those who have mastered skilled occupations, higher wages, job security and better working conditions are within easier reach.

Through plans sponsored by the Department of Veterans Affairs and other agencies, hundreds of young workers are being trained for refrigeration servicing. Graduates of training schools are ready now to take their places in industry. Craftsmen of the future, they will have a share in Ontario's progress—an important part to play in her industrial development.

REFRIGERATION

D. C. Guiry, 23, of Toronto, a veteran of 15½ months' service in the Royal Canadian Air Force, is shown checking the operating pressures on a domestic training unit.

The Refrigeration Course gives the student a theoretical and practical knowledge of domestic, commercial and air conditioning units.
