A Message of Importance

to Cream Producers

Since Ceram is an exceptionally good price, it is worth-while to maintain the maximum production of your dairy herd. Nothing will cut produrtion more sharply than the producing cows being left out during the unexpected cold nights. It is, therefore, advisable to stable the milch cows at night from now on.

Poultry

We are in the market for large quantities of poultry. We buy them alive or dressed, or do custom killing.

DUCKS AND GEESE

With the present high feed prices, we think is advisable to market your Ducks and Geese now, instead of waiting for the Christmas market. Our prices are good.

"SHE'S STILL TALKING!"

KEEPING CONVERSATIONS BRIEF is just one of the ways of practicing the master rule for the best telephone service..."Do unto others as you would like them to do to you—and do it first".

• • •

THIS YEAR ALONE we are spending $3,500,000 so that more farms may have telephones with fewer people on each line.

FOR BEST RESULTS FROM YOUR TELEPHONE:

1. Keep calls brief.
2. Space your calls.
3. Avoid "listening in".
4. Give right-of-way to emergency calls.
