Cream

We are predicting higher prices for cream during the winter months, extra care should be given your milch cows. They will earn you more money. You can be assured that our cream-paying prices are always the highest, and we also pay 1 cent per pound butterfat over truck prices for cream delivered to the creamery. We test your cream and make payment within 20 minutes.

Eggs

The egg market is still firm. We try hrrd to give the producer the very best grade to comply with government regulations. Market your eggs often, as eggs held too long become stale and must be placed in lower grades. We have a very good market for eggs, and our prices are always up to the market.

Poultry

We are continually striving to secure the best possible markets for poultry, so that we, in turn, can pay the producers the highest possible prices. If your poultry is ready for market deliver them to the creamery, or have our truck pick them up. We have raised prices 2 cents per pound for dressed chickens over 5 lbs. in weight.

DUCKS AND GEESE

Wit hthe present high feed prices, we think it dvisable to market your ducks and geese now, instead of waiting for the Christmas market. Our prices are good.
