CREAM

The tremendous demand for butter which was created during the war is still with us. As it now looks, there will be no interference with its market, as far as substitutes are concerned, Would it not, therefore, be wise on the part of the producer, to step up the production by adding to the dairy herd, and a little extra feeding and care. Good business on the part of the producer, and appreciated by the Canadian consumer.

Let us again stress the fact, that by stepping up the production, you are helping to keep the market for butter only — not for substitutes.

As usual — Highest Possible Price and Best Possible Service — continues to be our motto,

Extra Creamery Service
