VICTORIA CORNERS

(Intended for Last Week)

The school bell tolls again this morning to begin the final term of the current school year. With this, two little girls and a little boy, Euphemia Forbes, Shirley Linton and Edgar Duncan begin their trek down the educational highway. Best of luck, little folk.

Misses Wilma and Donelda Stevens spent part of their Easter vacation with their grandmother, Mrs. Albert Stevens and uncle, Mr. Fred Broster, Menancthon township. On their return they were accompanied by their grandmother, who will spend a few days with her son, Elwood, and family and renew acquaintances here. On Sunday Mrs. Stevens visited with Mr. and Mrs. Walter Acheson.

Visitors on Monday with the Acheson's were: Mr. and Mrs. Nelson Lindsay, Woodbridge, Mr. and Mrs. Robt. Cole, Dundalk. The Lindsays visied on Easter Sunday with Mr. and Mrs. Milton Bannon.

Thursday night the young people held an unique box social in the home of John Duncan — unique because of the boys taking the boxes and the girls being the buyers.

Mrs. Elvin Moore has resumed her duties as organist of Dundalk United Church, after a six months leave of absence, during which Mrs. A. D. McAlister of Dundalk supplied.

Mrs. Wm. Smith, Huntsville, is visiting this week in the home of Mr. Wilfred Gallaugher.

Another land deal of interest to our neighborhood took place last week, whereby Leslie Batchelor purchased from Mr. Ed. Patton of Dundalk, the 100-acre farm on the west backline, adjoining the farm of the former's brother, Gordon.

Miss Viola Cornett, Dundalk, was an Easter vacation guest of her sister, Mrs. Gordon Batchelor.

Mrs. John Duncan, Irene and Edgar went to Toronto Thursday to visit the former's sister and husband, Mr. and Mrs. Acombe, and returned on Sunday when Mr. Duncan, Leslie and Christina and Mrs. Wm. Duncan went to Toronto. Mrs. Wm. Duncan met with a painful accident one day last week when carrying a pail of boiling water to the barn. Her hand, encased in a woollen mitt, became severely scalded when the pail of water spilled.

KIMBERLEY

Visitors with Mr. and Mrs. Chas. Graham were: Mr. and Mrs. Neff and family of Singhampton and Mr. and Mrs. Bob Phillips, Flesherton.

The W.A. held their April meeting at the home of Mrs. G. Jenkins on Tuesday, with 15 members present. The ladies decided on a quilting on Wednesday and Thursday afternoons. Lunch was served by the hostess and lunch committee.

Mrs. Gibson of Midland visited her father, Mr. W. E. Harris, one day last week.

Mrs. J. Stuart of Burks Falls visited with relatives here and attended the Hindle-McMullen wedding on Saturday.

Mr. and Mrs. H. E. Fawcett spent Sunday with Mr. and Mrs. Percy Semple, 12th line, Artemesia.

Mr. Stan Hutchinson of Camp Borden spent the week end at his parental home here.

(Intended for Last Week)

Herman Brush and friend of Kearney spent a few days with Mr. and Mrs. Wayne Weber.

Mrs. Ross Ellis of Rocklyn visited with her parents, Mr. and Mrs. F J. Weber.

Mr. and Mrs. Ted McCracken and little son of Flesherton spent Sunday with Mr. and Mrs. R. Hutchinson.

Russell Ward of Toronto visited over the week end with his brother, Mr. C. Ward.

Mr. and Mrs. Fred Jolley visited friends at Mitchell and London during the Easter holidays.

Mrs. Otto Butson of Meaford spent a week with Mr. and Mrs. B. McConnell.

Mr. and Mrs. F. Marshall and Mrs. G. Patterson of Toronto spent a day with Mr. and Mrs. F. J. Weber.

Mrs. Percy Semple of the 12th line Artemesia, spent a day last week with her sister, Mrs. H. Fawcett.

Mrs. Roy McMillan of Eugenia visited one day last week with her brother, J. A. Wilson.

HANDS AT WORK...

LEARNING AERO ENGINE AND AIRFRAME MECHANICS

ONTARIO'S products are desired and purchased by people all over the world and the capacity to produce such goods largely determines the economic welfare of every man, woman and child within her borders. Because the sale of every article produced in Ontario brings valuable dollars into this Province, we all are more assured of job security . . . and we and our children can have more of the better things in life. To produce such goods in sufficient quantities, skilled labour is vital. That is why every single one of us should be glad that war veterans are constantly being trained to provide the skilled hands so needed by industry. Veterans receive ON THE JOB training under expert instructors in our Ontario factories.

This training, provided through the co-operation of the Department of Veterans' Affairs, the Federal Department of Labour and the Ontario Department of Education, starts veterans off on the road to skilled craftsmanship. Taught to use their hands in general aero engine and airframe work, both on military and civilian aircraft, these veterans may qualify for a Department of Transport license, authorizing them to declare aircraft airworthy. In aircraft manufacturing plants and on flying fields throughout Ontario, these newly-skilled veterans will have the opportunity to apply their talents and training. Their efforts will help to make Ontario a finer place in which to live and will contribute to the welfare and happiness of all her citizens.

THE BREWING INDUSTRY (ONTARIO)

AERO ENGINE MECHANICS

H. Parry, 25, of Oshawa, Ontario, a Canadian Army veteran, is shown making an adjustment to the engine of a Cub Trainer. Students work on various types of aircraft ranging from the Cub Trainer to multiple engine military aircraft. Many veterans, trained as ground crew specialists during the war, have chosen to take post-war training in this occupation for which they are particularly suited. For them the transition to peace-time employment has been easier.

THE NEW

'Ferguson System' Grain Drill

LARGE CAPACITY SEED BOX
DRILLS THREE TO 13 ROWS
CONCAVE DISC OPENERS
RIGID, ONE PIECE FRAME
PIVOTING ACTION OF AXLE AIDS PENETRATION
POSITIVE CHAIN DRIVE
GRASS SEED ATTACHMENT
FERTILIZER ATTACHMENT
MOUNTED ON RUBBER TIRES

For the first time in many years, a basic improvement for more accurate seed drilling has been developed. It is the adjustable internal run feed of the new Dempster 13x7 in. Single Disc Grain Drill for the Ferguson System.

The new feed eliminates changing of sprockets or shifting of gear ratios when you want to change seeding rate. With it, you can adjust seeding rate to meter any size of seed, from clover or alfalfa to soybeans, with amazing accuracy and convenience. The new adjustable internal run feed provides easier change of seeding rate than with a fluted feed. It provides even greater greater accuracy than the double internal run feed.

"FERGUSON SYSTEM" Grain Drills can be delivered to you immediately, from stock — NO WAITING.
