LYON'S KATHAIRON.—The present immense sale of this article, is almost fabulous in amount which shows the public appreciation of a preparation which rests its claims entirely upon its own merits. The astonishing results produced by the Kathairon in preserving the Hair from baldness, and restoring it when it has fallen out—cleansing from dandruff and all other impurities, and imparting to it a beautiful gloss and silken texture; together with its delightful perfume and perfect cleanness, have made it the most universaly popular toilet article ever used. To guard against valueless imitations and counterfeits, always ask for Lyon's Kathairon. Sold every where in large bottles, for only 25 cents.

CUTANEOUS DISEASES.—And a certain remedy for them.—How many thousands of human beings are rendered the most unsightly, nay, almost hideous to behold, from the effects of some very disagreeable and sickly looking eruptions on the face or hands; they are shunned by friends, and avoided by acquaintances; for this reason, may have suffered much and expended a large sum in endeavouring to obtain a cure of this malignant form of disease, but without success. Holloway's Ointment, however, if used with Holloway's Pills, will cure every description of sores and ulcers even of twenty years standing, and will restore the patient to health after relief has been despaired of, leaving the sufferer without a blemish.

TO ARCHITECTS.

PLANS ARE REQUIRED FOR A JAIL proposed to be erected outside the walls of the city of Quebec, upon a suitable site.

The Plans are to comprise a general Plan, showing the insulating walls, position and extent of the Prison Building, with all the indispensable day-rooms, work-shops, and other outbuildings, hospitals and airing yards, sewerage, &c., &c. Also, a Basement Plan, exhibiting the principles of Heating and Ventilating, and a plan of each on the floors; likewise such sections as may be necessary to convey fully the intentions of the Architect. Such Plans are to be accompanied by a detailed Specification, Measurement, and Estimate of the works of the several classes required for the full completion of the buildings &c, and also by a Schedule of Rates, by which any extra work will be governed.

For the set of Plans, &c., which may be deemed by the Commissioners of Public Works most deserving and applicable, and in the designing of which due consideration will appear to have been given, so that they shall combine all the requirements which such an institution should afford, as to the safe keeping and health of the prisoners, their classification, employment, and reclamation, &c., &c., the sum of Two hundred and Fifty Pounds will be paid—these plans becoming thereby the property of the Commissioners, who will make such arrangements for the superintendence of the erection of the Building as they they think fit.

A Premium of £100 will be awarded to the design considered second in merit, all the Plans will be returned but those connected with the design adopted.

The Estimates are to show, separately, the cost of supplying the premises with Water and Gas.

For information as to the number of prisoners for which the building should be suited, taking into consideration the rapidly increasing population of the country, reference is to be made to W. S. SEWELL, Esq., Sheriff, Quebec.

In coming to a decision on the designs, that one will be selected in which economy will appear to have been considered as far as was practicable with the obtaining all the necessary requirements, and with the substantial construction of the entire, as much as possible, on fire-proof principles, and in a suitable style of architecture.

The Plans &c., are to be sealed, and addressed to the Chief Commissioner of Public Works, Toronto, Canada; and are to be delivered in, on, or before the 15th March next.

TO ARCHITECTS.

PUBLIC WORKS,
Toronto, 29th Dec. 1855.

PLANS ARE REQUIRED FOR A CUSTOM HOUSE, proposed to be Erected in the City of Quebec.

From the nature of the site on which it is decided the Building shall stand, as well as to be enabled to form a judgment upon the character of the materials to be used, and on the facility, or otherwise of procuring them, it will be necessary that the gentleman who may see fit to engage in the preparing of Plans and Estimates, should visit the locality; and it is wished, that the Estimates should show separately the additional cost, if any, should Granite, such as is to be had on the Montreal and Portland Road, be adopted for the principal fronts.

For full information, as to the amount nature and extent of the accommodation which the Building must afford, reference is to be made to the Collector of the Port of Quebec, J. W. DUNSCOMBE, Esquire.

The Plans are to comprise one of the Basements, showing the sewerage, principle of heating, &c., and one of each of the floors, with such sections also as may be necessary to convey fully the intentions of the Architect.

The plans are to be accompanied by a detailed Specification, measurement, and Estimate of the Works of the several classes required to complete the Building ready for business, and also by a Schedule of Rates by which any extra Work will be governed.

For the set of Plans, &c., which may be considered by the Commissioners of Public Works, most deserving and applicable, the sum of Two Hundred and Fifty Pounds will be paid, these Plans becoming thereby the Property of the Commissioners, who will make such arrangements for the Superintendance of the erection of the Building as they think fit.

A premium of £100 will be awarded to the design considered second in merit. All the Plans will be returned but those connected with the design adopted.

The Estimates are to show the cost of the necessary filling and forming and protecting the approaches distinct from the cost of the Building.

It is desired that the Building should present a respectable Architectural Facade to the River and also one to the Street. The Plank elevations to be plain but in character.

The entire, in appearance and construction, to be commensurate with the importance of the Port.

In coming to a decision on the designs, that one will be selected in which economy will appear to have been considered as far as was practicable with the obtaining the above requirements, and the necessary accommodation.

The Plans, &c., are to be Sealed and Addressed to the Chief Commissioner of Public Works, Toronto, Canada, and are to be delivered in, on, or before the 15th March next.
