Lavater's Warning.

Trust him little who doth raise
To the same height both great and small,
And sets the sacred crown of praise,
Smiling, on the head of all.

Trust him less who looks around
To censure all with scornful eyes,
And in everything has found
Something that he dare despise.

But, for one who stands apart,
Sure'd by nought that can befall,
With a cold, indifferent heart,
Trust him least and last of all.

NEW ORDER OF MERIT.—The London Globe announces that a royal warrant, founding a new order of merit, has been already signed by her Majesty, and that a copy will be presented to Parliament in a few days. It is believed that the order will consist only of one grade, and for this distinction every individual, from the private soldier, or able bodied seaman, up to the Admiral or Commander-in-Chief, will be eligible. Along with the decoration the recipient will be entitled to a small annual pension. The order is not intended as a reward for continuous good service, as that is already recognized in different ways. It will be confined to the naval and military forces of her Majesty. The first batch of creations will probably comprise most of those who have evinced conspicuous gallantry in the Russian war.—The Gazette contains the orders and regulations respecting the new naval and military decoration for valour, called the 'Victoria Cross.'

An inveterate case of Scurvy cured by Holloway's Ointment and Pills.—Miss Mary Martin, of Kemtvill, Nova Scotia, was afflicted for 14 years (commencing when only 8 years old) with scurvy; the face hands, arms, and body, were alike constantly visited with this disagreeable and painful eruption; many remedies were tried in the anticipation of benefiting the sufferer; but in vain. About eighteen months ago, the parents determined to see what effect Holloway's Ointment and Pills would have upon her; these two remedies quickly performed their part, cleansed the blood, reinstated the fluids, and generally strengthened the constitution; the Ointment healed the cutaneous eruptions, and happily completed thoroughly restored her to health after fourteen years almost incessant suffering.

TO ARCHITECTS.

PUBLIC WORKS,
Toronto, 29th Dec. 1855.

PLANS ARE REQUIRED FOR A CUSTOM HOUSE, proposed to be Erected in the City of Quebec.

From the nature of the site on which it is decided the Building shall stand, as well as to be enabled to form a judgment upon the character of the materials to be used, and on the facility, or otherwise of procuring them, it will be necessary that the gentleman who may see fit to engage in the preparing of Plans and Estimates, should visit the locality; and it is wished, that the Estimates should show separately the additional cost, if any, should Granite, such as is to be had on the Montreal and Portland Road, be adopted for the principal fronts.

For full information, as to the amount nature and extent of the accommodation which the Building must afford, reference is to be made to the Collector of the Port of Quebec, J. W. DUNSCOMBE, Esquire.

The Plans are to comprise one of the Basements, showing the sewerage, principle of heating, &c., and one of each of the floors, with such sections also as may be necessary to convey fully the intentions of the Architect.

The plans are to be accompanied by a detailed Specification, measurement, and Estimate of the Works of the several classes required to complete the Building ready for business, and also by a Schedule of Rates by which any extra Work will be governed.

For the set of Plans, &c., which may be considered by the Commissioners of Public Works, most deserving and applicable, the sum of Two Hundred and Fifty Pounds will be paid, these Plans becoming thereby the Property of the Commissioners, who will make such arrangements for the Superintendance of the erection of the Building as they think fit.

A premium of £100 will be awarded to the design considered second in merit. All the Plans will be returned but those connected with the design adopted.

The Estimates are to show the cost of the necessary filling and forming and protecting the approaches distinct from the cost of the Building.

It is desired that the Building should present a respectable Architectural Facade to the River and also one to the Street. The Plank elevations to be plain but in character.

The entire, in appearance and construction, to be commensurate with the importance of the Port

In coming to a decision on the designs, that one will be selected in which economy will appear to have been considered as far as was practicable with the obtaining the above requirements, and the necessary accommodation.

The Plans, &c., are to be Sealed and Addressed to the Chief Commissioner of Public Works, Toronto, Canada, and are to be delivered in, on, or before the 15th MARCH next.

Also, a Basement Plan, exhibiting the principles of Heating and Ventilating, and a plan of each on the floors; likewise such sections as may be necessary to convey fully the intentions of the Architect. Such Plans are to be accompanied by a detailed Specification, Measurement, and Estimate of the works of the several classes required for the full completion of the buildings &c, and also by a Schedule of Rates, by which any extra work will be governed.

For the set of Plans, &c, which may be deemed by the Commissioners of Public Works most deserving and applicable, and in the designing of which due consideration will appear to have been given, so that they shall combine all the requirements which such an institution should afford, as to the safe keeping and health of the prisoners, their classification, employment, and reformation, &c., &c., the sum of Two hundred and Fifty Pounds will be paid—these plans becoming thereby the property of the Commissioners, who will make such arrangements for the superintendence of the erection of the Building as they they think fit.
