ROCK MILLS Baptist Church Services next Lord's Day — Worship at 3 p.m. and Church School at 2 p.m. The mid-week Prayer and Praise Service on Thursday evening at 8:30 o'clock.

Car Kills Flock Of Birds

(Paisley Advocate)

We witnessed a rather curious incident last Friday evening as we drove to Southampton just before dark. A car swung past us, going probably 50 miles an hour, and just as it swung back into the centre of the road ahead a large flight of small brown birds swept down and across in front of the speeding machine. There were probably about two hundred birds in the flock, and the majority of the feathered creatures appeared to fly blindly into the path of the car. Many were hit, and little bodies flew all over the place. As we were close behind the preceding machine, our car was struck by a number of the birds — some of which had been hit by the first car. Curiosity prompted us to stop and back up to the point of original contact, and we counted thirteen of the birds dead on the pavement, which does not take into account some of the dead and injured which fell in the grass of the adjoining fields. Whether the birds misjudged their line of flight, or flew blindly into the path of the car we shall never know, but to us it was a surprising incident.

Believe all you hear when an engineer whistles for a crossing.

One debt some folk are not anxious to collect is from relatives who say, "We owe you a vsit."

Somebody should tell Mr. Taxpayer that the only money the government has to give him is what it takes out of his pocket.

Honey Special
No. 1 Grade AMBER Honey
19c per lb.
IN YOUR OWN CONTAINERS
OUR FLESHERTON PLANT will be open to serve you September 15th to Sept. 18th, each day and each evening, until Saturday, Sept. 18, at 6 p.m.
WHITE HONEY, 8 LB. PAIL $2.25
PARKVIEW APIARY
PHONE 94J FLESHERTON, ONT.

Next door reminds us that one of our crying needs is more spankings.

The average modern apartment is no place like home.

A wisp of hair will oft recall
Sweet memories like a flash,
But it calls up lots of other things
When you find it in the hash.

YOUR HYDRO CHAIRMAN REPORTS
on the Power Shortage

THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO
620 UNIVERSITY AVENUE
TORONTO 2

ROBERT H. SAUNDERS, C.B.E., K.C.
CHAIRMAN

September 11, 1948.

Dear Fellow Citizens:

The demand for electricity from all classes of the community - homes, farms and industries - all over Ontario, is still mounting. Homes are being built, the demand for increased production from farms is steadily increasing and industry is pressing forward with plans for expansion, plans that mean greater production and more jobs to keep Ontario prosperous.

It is anticipated that the increase in demand over the available supply will amount to in excess of four million kilowatt hours per day, and conservation measures have been put into effect as of Tuesday, September 14th. These will include reductions in the supply for show windows, office lighting and certain industries, banning outdoor electrical signs and in other ways. Even with all these reductions we will still be short 1,200,000 kilowatt hours per day but to insist on more would have a hampering effect on industry and seriously reduce employment.

Where then can we get the vitally needed power? From you and every individual Hydro user in Ontario. How much should you save? Take a 60-watt electric lamp as an example. For every 24 hours it burns, it requires almost one and a half kilowatt hours of current. If every one of the 900,000 Hydro users in Ontario will save the equivalent of that much electricity every day there will be no need for cut offs.

Everyone must do his or her part. It should be a 24 hour effort. Turn off every light, switch off every motor or appliance the moment it is not needed. Particularly, watch the switches on your electric range.

The situation is critical. Full employment must be maintained and the support of every householder, every commercial user and every industrial consumer is essential in avoiding the waste of electricity.

Robert H. Saunders

Chairman,
The Hydro-Electric Power Commission of Ontario.
