A PIGGISH ILLUSTRATION.—A country girl, seven of whose sisters had married badly, was herself about to take the noose.

"How dare you get married," asked a cousin of hers, "after having before you the unfortunate example of your sisters?"

"A fudge for the example of my sisters," exclaimed the girl with spirit, "I choose to make trial myself. Did you ever see a parcel of pigs running to a trough of hot swill? The first sticks in his nose, gets it scalded, and then draws back and squeals. The second burns its nose and stands squealing in the same manner. The third follows suit, and he squeals too. But still it makes no difference with those before; but in turn thrust in their noses just as if the first hadn't got burned or squealed at all. So it is with girls in regard to matrimony—and now with this I hope you are satisfied.

AN UNTIRING HELPMATE.—Among the "Births' in the Edinburgh Weekly Herald of Feb. 23, we find: At Thurso, 11th inst., the wife of George Gunn, pensioner, of a daughter. The little stranger is the twenty-second specimen of the *genus homo* which Mrs George Gunn has ushered into the world! She is now the happy mother of fourteen sons and eight daughters! Really the pensioner ought to receive an increase to his pension, and so aid the commissariat of this young battalion of Gunns over whom Providence has appointed him commander in chief.

TWINS AND TRIPLETS.—A week since the wife of the Rev. Horace James, of Worcester, Mass., gave birth to two children at one time, and since then the wife of Rev. George Bushnell, also of Worcester, has given birth to three children, all at one time. Five added to our population in consequence of their two reverences having chosen a marrying religion! Hear ye!

He who is not handsome at twenty, nor strong at thirty, nor rich at forty, nor wise at fifty, will never be handsome, strong, rich, or wise.

Neither men nor women can become what they were intended to be by carpeting their progress with velvet; real strength is tested by difficulties.

Fortune may favor, but do not rely upon her—do not fear her. Act upon the doctrine of the Grecian poet:

"I seek what's to be sought,
I learn what's to be taught—
I ask the rest of Heaven.

PARLIAMENTARY.

Toronto, April 5.

Last night a number of petitions were received; among them eight in favor of a prohibitory liquor law; one from Boucherville praying for an elective Legislative Council, an elective Governor, and the recall of Sir E. Head; and one from the widow of Corrigan, complaining of Judge Duval.

On the motion of Hon. Mr Cartier to go into committee of the whole on his resolution to make provision for superior education in Lower Canada, Mr Papin moved in amendment that it be an instruction to the committee that this House regards as one of its most important privileges the having the control of all the moneys of the province, and would consider itself as failing in its duty were it to divest itself of that privilege, with respect to the moneys to be expended for education, and levee the distribution thereof to the arbitrary will of the government or of the officers. Yeas 35, nays 63.

The question being again proposed that the speaker do leave the chair, Mr A. A. Dorion moved in amendment, that it be an instruction to the committee to resolve that all the estate and property of the late order of Jesuits be appropriated to the Common School Fund of Lower Canada, and that all moneys arising as capital for the sale or commutation of any part of the said property be invested as part of the said fund, and that the revenue or interest of the said fund be appropriated to the support of education in Lower Canada by annual vote of the Legislature.—Yeas 32, Nays 63.

The house then resolved itself into committee, and afterwards rose, reported, and the House adjourned.

Special Notice.

The Stockholders in the Provident Life Assurance and Investment Company, are hereby cautioned that Mr James Burleigh is no longer Agent for the Company. All sums due the Company are to be paid to Mr Thomas Wilson, who is alone authorized to receive the same, and to grant receipts therefor.

April 1st, 1856.

Preventative is better than a cure.—Extraordinary case. Dropsical swellings—Turn of life. Mrs Morgan, of Windsor, Nova Scotia, aged 45, was suddenly thrown on a bed of sickness, her feet, legs, and ankles, began to swell, strongly indicating Dropsy; weeks passed away and she became worse instead of better, medical aid was called in and her life was endangered owing to a wrong treatment being adopted. Mr. Morgan, therefore, dismissed his medical attendant, and resolved to commence the Hollowayian system of medicine; this quickly produced a beneficial effect, and by a continuance with this infallible remedy, the husband had the satisfaction of again seeing his wife restored to the blessings of health.

LYON'S KATHAIRON.—The Ladies have proclaimed this article to be, by far, the cleanest and most delightful preparation ever used; and from their verdict, in such matters, there is no appeal. Their decision is certainly well grounded for its wonderful efficacy in restoring, preserving and beautifying the Hair: cleansing it from dandruff and all other impurities: curing nervous Headache, &c: together with its delightful perfume, and its perfect cleanness and delicacy, (the result of the great care taken in its preparation,) have made it the most universally popular article of the kind, in the world.

TO ARCHITECTS.

PLANS ARE REQUIRED FOR A JAIL proposed to be erected outside the walls of the city of Quebec, upon a suitable site.

The Plans are to comprise a general Plan, showing the insulating walls, position and extent of the Prison Building, with all the indispensable day-rooms, work-shops, and other outbuildings, hospitals and airing yards, sewerage, &c., &c. Also, a Basement Plan, exhibiting the principles of Heating and Ventilating, and a plan of each on the floors; likewise such sections as may be necessary to convey fully the intentions of the Architect. Such Plans are to be accompanied by a detailed Specification, Measurement, and Estimate of the works of the several classes required for the full completion of the buildings &c., and also by a Schedule of Rates, by which any extra work will be governed.

For the set of Plans, &c., which may be deemed by the Commissioners of Public Works most deserving and applicable, and in the designing of which due consideration will appear to have been given, so that they shall combine all the requirements which such an institution should afford, as to the safe keeping and health of the prisoners, their classification, employment, and reclamation, &c., &c., the sum of Two hundred and Fifty Pounds will be paid—these plans becoming thereby the property of the Commissioners, who will make such arrangements for the superintendence of the erection of the Building as they they think fit.

A Premium of £100 will be awarded to the design considered second in merit, all the Plans will be returned but those connected with the design adopted.

The Estimates are to show, separately, the cost of supplying the premises with Water and Gas

For information as to the number of prisoners for which the building should be suited, taking into consideration the rapidly increasing population of the country, reference is to be made to W. S. SEWELL, Esq., Sheriff, Quebec.

In coming to a decision on the designs, that one will be selected in which economy will appear to have been considered as far as was practicable with the obtaining all the necessary requirements, and with the substantial construction of the entire, as much as possible, on fire-proof principles, and in a suitable style of architecture.

The Plans &c., are to be sealed, and addressed to the Chief Commissioner of Public Works, Toronto, Canada; and are to be delivered in, on, or before the 15th March next.
