FEMALE COMPLAINTS.—Miss Edwards, of Yarmouth, Nova Scotia, aged 18, was for a long time in a very delicate states, the mother anxiously watched her daughter, and consulted many physicians in the hope of her being benefited, but she gradually grew worse, and was finally thrown on a bed of sicknes. At this time, finding medical assistance unavailing, the mother boldly determined to have recourse to Holloway's Pills, which she commenced using,—after the first week, the improvement was so decided, that she determined to continue them, and by persevering for two months with the treatment laid down by Professor Holloway, the mother had the satisfaction of once more seeing her daughter restored to health, although her life had been previously despaired of. These celebrated Pills are a certain cure for dropsy, as well as stomach and liver complaints.

LYON'S KATHAIRON.—The Ladies have proclaimed this article to be, by far, the cleanest and most delightful preparation ever used; and from their verdict, in such matters, there is no appeal. Their decision is certainly well grounded for its wonderful efficacy in restoring, preserving and beautifying the Hair: cleansing it from dandruff and all other impurities; curing neuralgia Headache, &c: together with its delightful perfume, and its perfect cleanness and delicacy, (the result of the great care taken in its preparation,) have made it the most universally popular article of the kind, in the world.

Sold every where in large bottles, for only 25 cents.

Among the scientific productions of Dr. Jas McClintock are his Dyspeptic Elixir, for curing Dyspepsia, Loss of Appetite, and Indigestion, and his Alterative Syrup, for purifying the blood, system and building up the constitution. The immense experience of their author as Professor, Lecturer, Physician to the city hospital and prisons, and late Founder of Philadelphia College of Medicine, entitle them to the full confidence of the public at large.

If Dr. Jas. McClintock had given but two of his Medicines to the world, viz: his Pectoral Syrup and his Cold and Cough Mixture, he would have earned immortality. Those preparations, which were first advertised through the press soon after their distinguished inventor resigned the Deanship of the Philadelphia College of Medicine, are exciting the astonishment of the ablest practitioners by their efficacy in the worst cases of Bronchitis Consumption, and all diseases of the Throat and Lungs.

Tens of thousands of our industrious population are incapacitated for labor, every spring and Fall, by Fever and Ague. Therefore it should be universally known that Dr. Jas. McClintock's Fever and Ague Specific, in every case however violent, not only breaks the chill, but thoroughly eradicates the disease. The Anti Bilious Pills are no less efficacious in Bilious Remittants, and all classes of Fever Complaints. Sold by E. W. Palmer and E. H. Parker.

TO ARCHITECTS.

PLANS ARE REQUIRED FOR A JAIL proposed to be erected outside the walls of the city of Quebec, upon a suitable site.

The Plans are to comprise a general Plan, showing the insulating walls, position and extent of the Prison Building, with all the indispensable day-rooms, work-shops, and other outbuildings, hospitals and airing yards, sewerage, &c., &c. Also, a Basement Plan, exhibiting the principles of Heating and Ventilating, and a plan of each on the floors; likewise such sections as may be necessary to convey fully the intentions of the Architect. Such Plans are to be accompanied by a detailed Specification, Measurement, and Estimate of the works of the several classes required for the full completion of the buildings &c, and also by a Schedule of Rates, by which any extra work will be governed.

For the set of Plans, &c., which may be deemed by the Commissioners of Public Works most deserving and applicable, and in the designing of which due consideration will appear to have been given, so that they shall combine all the requirements which such an institution should afford, as to the safe keeping and health of the prisoners, their classification, employment, and reclamation, &c., &c., the sum of Two hundred and Fifty Pounds will be paid—these plans becoming thereby the property of the Commissioners, who will make such arrangements for the superintendence of the erection of the Building as they they think fit.

A Premium of £100 will be awarded to the design considered second in merit. all the Plans will be returned but those connected with the design adopted.

The Estimates are to show, separately, the cost of supplying the premises with Water and Gas

For information as to the number of prisoners for which the building should be suited, taking into consideration the rapidly increasing population of the country, reference is to be made to W. S. SEWELL, Esq., Sheriff, Quebec.

In coming to a decision on the designs, that one will be selected in which economy will appear to have been considered as far as was practicable with the obtaining all the necessary requirements, and with the substantial construction of the entire, as much as possible, on fire-proof principles, and in a suitable style of architecture.

The Plans &c., are to be sealed, and addressed to the Chief Commissioner of Public Works, Toronto, Canada; and are to be delivered in, on, or before the 15th March next.
