Winter Came Friday

The dying throes of the winter season came in with a bang on Good Friday and Saturday morning the ground was well covered with a couple inches of snow. Sunday was bright and sunshine greeted the Easter festivities, and most of the snow disappeared. Another heavy snow storm came Monday afternoon, we hope the last of the season. The fine warm weather of the past couple of weeks had lulled us into a position where we thought all bad weather was finished for the year, but we have been set back on our heels. No doubt we will survive the present winter weather.

We've done a lot of growing—
especially in the last four years

WE'VE PASSED another milestone in telephone history — in Ontario and Quebec we now have 1½ *million* telephones. Of these, 500,000 were added in the last four years. That's more telephones than we installed in our first 40 years!

And as we have grown, service has grown better. Your calls go through quickly, clearly. You can always count on your telephone. Yet up to now, despite rising costs on all sides, there has been no increase in the basic telephone rates established 22 years ago. Few things give you so much real value at such low cost as your telephone.

We've broken all records — but there are still orders we haven't been able to fill. We will keep right on working and building to make your telephone service a bigger bargain than ever — to continue to provide more and better service at the lowest possible cost.
