KIMBERLEY

Ms. Russell Chard left for his summer work at Bradford.

We are glad to know that Mrs. Stan Haines is improving after her recent operation.

Week end visitors were: Mr. and Mrs. Jack Taylor, Mr. and Mrs. Bill Sproule of Oshawa, Mr. and Mrs. R. Brady, Gerald Kirkpatrick and Dalton Ferguson.

A group of brethren from the Veteran Fellowship took the services with Mr. Cairns at Providence and Kimberley Baptist Churches Sunday. Six in all, they gave freely in singing, violin music and personal messages. We appreciate their help.

Our sympathy is extended to the families of Miss F. Soul, who passed away suddenly at the home of her sister, Mrs. McIntosh at St. Marys, on April 2 th. She leaves to mourn her passing Mr. T. Soul and Mrs. B. A. Carruthers of Kimberley, Mrs. McIntosh and Nellie of St. Vincent.

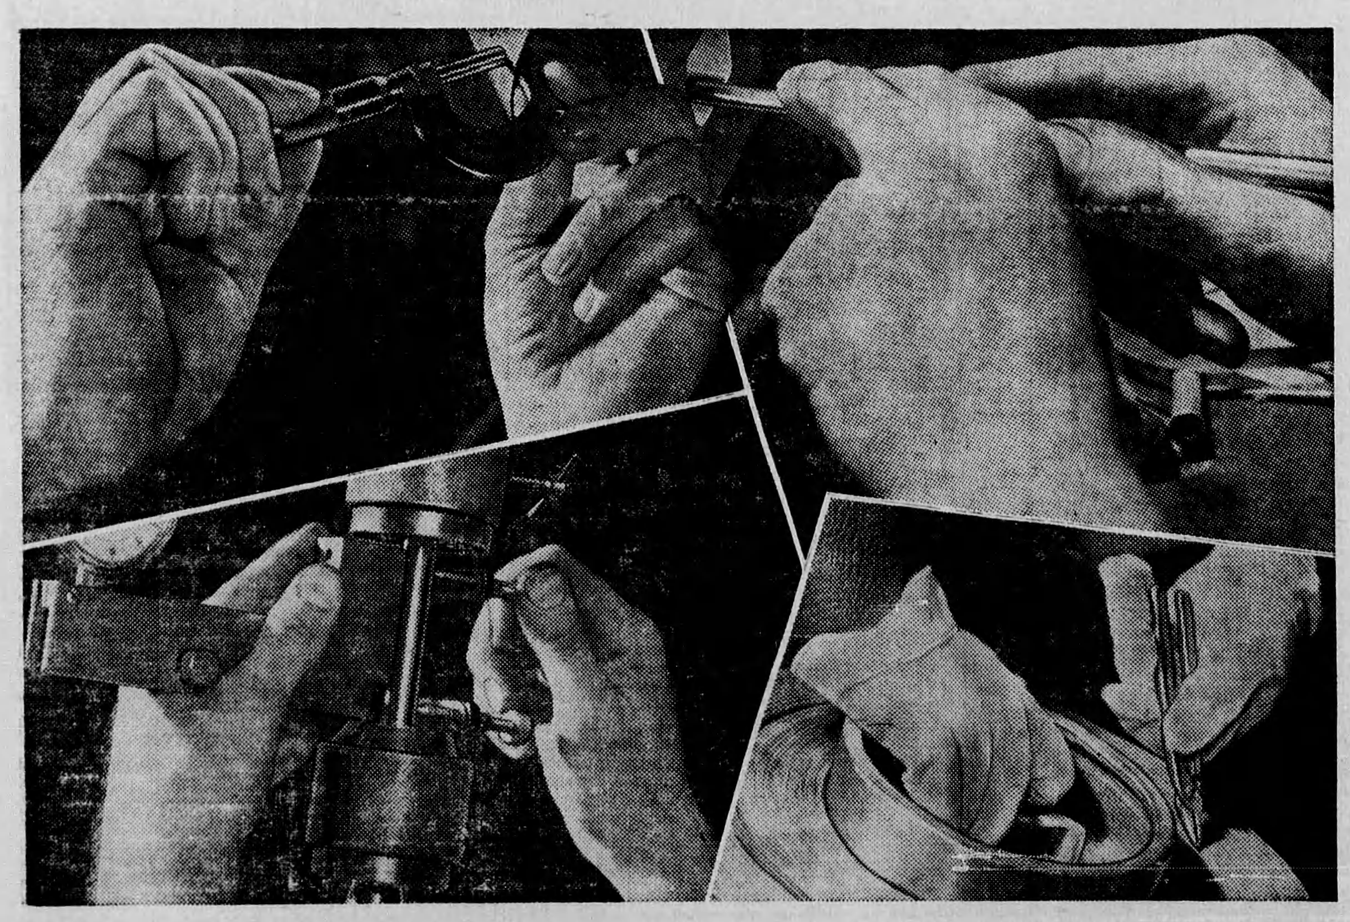
HANDS IN TRAINING...FOR ONTARIO



Learning to Work With Copper and Brass

IN Ontario the wheels of industry turn for the benefit of every single one of us. Our lathes, dynamos, drill presses, farm combines, tractors, business machines, etc. are producing goods and services which earn dollars. These dollars provide food, clothing, medical care and other necessities which contribute to our security and high standard of living. Every single one of us, therefore, has a very personal interest in the flow of a steady supply of trained workers to industrial plants. These workers will operate machines which are important to our way of life.

We should appreciate, then, the co-operative efforts of government, industry and labour in the field of employee training. In schools and in factories our workers, young and old, are given the opportunity to develop new and specific skills in every field of business and industrial activity. For instance, every effort on the part of workers to become proficient in the art of shaping and moulding copper and brass, will mean greater industrial progress—will help to make Ontario a finer place in which to live and work.

Our Way of Life Rewards Trained Hands

Ontario workers know they can earn more, have executive responsibility and enjoy a higher standard of living in direct ratio to the skills they acquire and the way they make use of them. That's always true in a free economy —that's why our competitive system will continue to make Canada great and a great place in which to live.
