Walter E. Harris

Has supported this program of

Liberal Achievement

The Liberal Government has

Walter E. Harris

- led us out of tre depression of the 30's.
- carried on a war effort unexcelled by any other country.
- has accorded its veterans better treatment than any other nation.
- has assisted in their re-establishment by extending industry and thus providing more jobs per capita than any other country.
- has kept exports at the righest level in history.
- has brought about worthwhile social legislation such as old age pensions, family allowances, unemployment insurance, and health measures.

It has done this while reducing the National Debt by billions and providing citizens with a lower tax rate than the United Kingdom or the United States.

PARDON our pointing . . . with pride.

But it's an event when the number of bank workers passes the 40,000 mark — as it did last year. That's 65% more than before the war.

It's an event, first, because it shows the increased use of Canadian bank services . . .

More deposit accounts: now over seven million. *More funds:* customers' deposits now reach nearly seven billion dollars. *More services:* to farmers; to personal and small-business borrowers; to war pensioners; to people receiving Family Allowances.

It's an event, too, because of the kind of men and women who have joined our ranks. Eager to get ahead, they are finding in banking an interesting job, a challenging career. *They* can tell you how important privacy in banking is to the Canadian way of doing things.

Going to your bank is not like having to deal with a state bureau—but that's how it would be under state monopoly.
