Goose Egg? or Goose Nest?

For some reason the goose egg stand for zero . . . nothing.

The nest egg, however, stands for a tidy sum of money, set aside.

it is hardly necessary to ask you which you'd prefer.

But it is necessary to ask yourself what you are doing to make sure you don't end up with a goose egg, instead of a goose nest.

All dairy products require special care for top market prices. For example, eggs should be gathered twice a day, packed in the crate with the small end down and stored in a cool dry place until delivered bi-weekly.

Always remember that many years of business with our patrons has proved that you are guaranteed top value for your produce at the Flesherton Creamery.

Be wise and get the goose nest. Deal at the Flesherton Creamery, the home of service and satisfaction.
