BELONGING TO

MESSRS. JACKSON, PETO, BRASSEY & BETTS,

THESE magnificent and select horses are disposed of only on account of the Grand Trunk Railway approximating its completion.

The most Important Discovery of the Age.

THE Subscriber has the honor of introducing to the attention of the public the invaluable discovery in the art of cutting, of the celebrated Professor Headt, of Paris, which has received the universal sanction and adoption of the first houses in Europe, England and America, and is admitted by the trade to excel any improvement or invention that has yet appeared, not excepting Oliver's recent patent.

The chief excellence of this philosophical system, which is based upon strictly Geometrical principles, consists in its combining unerring exactness and precision, with reference to fit, with the greatest possible ease and freedom, and the utmost conceivable gracefulness in style; possessing the invaluable merit that pertains to the triumphs of genius in whatever department; that of great simplicity in detail and application; only requiring the use of the tape measure, and consequently dispensing with the formal, tedious and incorrect adjuncts of Instrument strap, &c., thus producing, by actual measurement, a exact counterpart or model of the human figure, whether deformed or symmetrical, without even the semblance of a wrinkle on the garment, whether Coat, Vest or Pants.

The subscriber having secured the exclusive use of this noted system for Kingston, is prepared to give practical instructions, accompanied with draftts, &c.

As an ordered work on his newly organized establishment will, for the future, be measured and cut according to this principle, he would beg to invite the sceptical, and all who can appreciate a model fitting garment to attend at a personal test by favoring him with a call.

—NOW ON HAND—

A large stock of seasonable cloths and cassimeres, of choice value and style, carefully and personally selected from the best Houses in Montreal.—Among the many improvements the subscriber has recently effected in his Tailoring Establishment is, the important advantage of having a superior cutter of his own employ, under personal inspection, thereby securing the best possible workmanship at charges fully $50 per cent below the old standards still so generally adhered to by the trade.

Important to Every-Body.

FOR the last 18 or 20 years I have been engaged in a business known only to myself, and companies every now and then have offered me the sum of $200 each, which has overcharged me at the rate of $2,000 to $3000 per annum; and having made arrangements to go to Europe next Spring, to engage in the same business I am willing to give full instructions in the art to any person in the United States or Canada who will remit me the sum of $1. I am induced, from the success I have been favored with, and the many thankful acknowledgments I have received from those whom I have instructed, and who are making from $5 to $15 per day at it, to give any person an opportunity to engage in this business, which is easy, pleasant, and very profitable, at a small cost. There is positively no Humbug in the matter. References of the best class can be given as regard its character, and I can refer to persons whom I have instructed, who will testify that they make from $5 to $15 per day at the same. It is a business in which either ladies or gentlemen can engage, and with perfect ease make a very handsome income. Several ladies in various parts of New York State, Pennsylvania, and Maryland, whom I have instructed are now making from $3 to $6 per day at it. It is a genteel business, and but a few shillings is required to start it. Upon receipt of $1, will immediately send to the applicant a printed circular containing full instructions in the art, which can be perfectly understood at once.

All letters must be addressed to A. T. PARSONS, 335 Broadway, New York.
