Vandeleur and the near-by Beaver Valley may soon become a great winter payground, if the plans and ambitions of certain interests come to maturity. Ski trails have been surveyed by Mr. T. S. Cooper and we understand the plans, when developed, will call for two lines and all other accessories. The site is said to be one of the best in the province. The progress of the venture will be watched with interest.

ICE AND SNOW

Canada may be the land of ice and snow to some visitors from south of the border, but several of those same visitors might be surprised to know that the ice they have been using here this summer has come from their own land. In several of the holiday resorts around Georgian Bay ice was in short supply. Because the dealers have not been able to get enough ice in Canada they have had it shipped in from Buffalo. Our land of ice and snow has apparently been too warm this year.

EXCERPTS FROM A NEWS LETTER
Issued by The
Ontario Cream Producers' Marketing Board

We quote:- "Creameries that continue to accept second grade, or even "Liner" first grade, cream and pay for it as first grade, are maintaining an almost insurmountable obstacle in the way of quality improvement. It may well seem hard-boiled and undesirable to the producer to have Cream that is even questionable put down in a lower grade and paid for as such, or else refused, but in the long range, Cream Shippers who persistently produce a poor quality are doing themselves little good and are a tremendous detriment to the industry. The challenge faces everyone in all branches — each must decide whether we will be known as one who helped improve the quality of our butter or just a stumbling block."
