The most Important Discovery of the Age.

THE Subscriber has the honor of introducing to the attention of the public the invaluable discovery in the art of cutting, of the celebrated Professor Pitt, of Paris, which has received the universal sanction and adoption of the first houses in Europe, England and America, and is admitted by the trade to excel any improvement or invention that has yet appeared, not excepting Oliver's recent patent.

The chief excellence of this philosophical system, which is based upon strictly Geometrical principles, consists in its combining unerring exactness and precision, with reference to fit, with the greatest possible ease and freedom, and the utmost do ceivable gracefulness in style; possessing the invaluable merit that pertains to the triumphs of genius in whatever department; that of great simplicity in detail and application; only requiring the use of the tape measure, and consequently dispensing with the formal, tedious and incorrect adjuncts of Instrument stamp, &c., thus producing, by actual measurement, an exact counterpart or model of the human figure, whether deformed or symmetrical, without even the semblance of a wrinkle on the garment, whether Coat, Vest or Pants.

The Subscriber having secured the exclusive use of this noted system for Kingston, is prepared to give practical instructions, accompanied with drafts, &c.

As all ordered work in his newly organized establishment will, for the future, be measured and cut according to this principle, he would suggest to the sceptical, and all who can appreciate a model fitting garment, to afford it a personal test by favoring him with a call.

NOW ON HAND

A large stock of seasonable cloths and clothing, of choice value and style, carefully and personally selected from the best Houses in the trade.—Among the many improvements the subscriber has recently effected in his Tailoring Establishment is the important advantage of having a superior selection of mechanics at work on the premises, constantly under personal inspection, thereby securing the best possible workmanship.—Charges fully 850 per cent below the old standards still so generally adhered to by the Trade.

REAPING & MOWING MACHINES,

R. & R. S. PATTERSON,

Manufacturers, Belleville.

THE Subscribers would respectfully inform the public, that they are engaged largely in the manufacture of Agricultural Implements, at the head of Main Street, Belleville, C. W., near the Railroad depot.

We would call particular attention to our Combined Reaping and Mowing Machines, which we confidently recommend to the public as possessing greater advantages to Farmers than any other machine yet introduced. Among which we would enumerate, its perfect adaptation to uneven surfaces; its means of adjusting to various heights of cutting; its freedom from side draft; the ease and facility of removing it from one field to another upon its own wheels, and changing it from a reaper to a mower. It is simple in construction, and not liable to get out of repair; is capable of cutting from 12 to 15 acres per day, and the grain is discharged in good shape for binding, entirely out of the way of the machinery—which admits of a whole field being cut without interruption. We use the very best of material—employ none but experienced workmen; and any person disposed to give them a trial, can depend upon having a durable machine, and one that will work to their entire satisfaction.

We are also manufacturing Thrashing Machines from one to eight horse power, with or without cleaners, either under or over shot, of the best description; and a general assortment of Agricultural Implements;—together with a complete assortment of, and most other articles pertaining to a general Foundry business.

We keep a large stock constantly on hand, and intending purchasers will find it to their advantage to call and examine our implements and prices.

☞ All orders promptly attended to

We need hardly tell you yours came out of the fiery ordeal triumphant over all others. Immediately under Anderson's office was 50 or 60 tons of rubbish, and of course made the hottest kind of fire; and in another Safe of yours, in the same building was $20,000 in Bank bills, checks, &c., all which came out in perfect order, after lying in the ruins ten hours. All that have seen the effects of the fire on the different kinds of Safes, are satisfied of the superiority of your "Rich's improvement on Wilder's Patent Safe." Yours respectfully,

YOU DESERVE CREDIT FOR YOUR DISCOVERY!

PROFESSOR WOOD'S HAIR RESTORATIVE is, no doubt, the most wonderful discovery of this age of progress, for it will restore, permanently, gray hair to its original color, cover the head of the bald with a most luxuriant growth, removes it once all dandruff and itching, cures all scrofula and humors on, and eruptions, such as scald-head, &c. It will cure, as by magic, nervous or periodical headache, make the hair soft, glossy and wavy, and preserve the color perfectly, and the hair from falling to extreme old age.

The following is from a distinguished member of the medical profession:

St. Paul, January 1, 1855.

PROFESSOR O. J. WOOD—

DEAR SIR: Unsolicited, I send you this certificate. After being bald for a long time, and having tried all the hair restorative extant, and having no faith in any, I was induced to give your trial. I placed myself in the hands of a barber, and had my head rubbed with a good stiff brush, and the Restorative then applied and well rubbed in till the scalp was a glow. This I repeated every morning, and in three weeks the young hair appeared, and grew rapidly from August last till the present time, and is now thick, black and strong—soft and pleasant to the touch, whereas, before it was harsh and wiry, what little there was of it, and that little was disappearing very rapidly. I still use your Restorative but twice a week, and shall soon have a good and perfect crop of hair. Now I had read of these things—and who has not?—but have never seen hitherto any case where any person's hair was really benefited by any of the hair tonics, &c., of the day, and it really gives me pleasure to record the result of my experience. I have recommended your preparation to many, and it already has a large and general sale throughout the Territory. The people here know its effects and have confidence in it. The supply you sent us, as wholesale agents for the Territory, is nearly exhausted, and daily inquiries are made for it. You deserve credit for your discovery; and I for one return you my thanks for the benefit it has done me, for I seriously had despaired long ago of ever seeing any such result.

Yours, hastily,

J. W. BOND.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and Pastor of the Orthodox Church, at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

WM. DYER.

Brookfield, January 12, 1856.

PROFESSOR WOOD—

DEAR SIR: Having made trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation and dandruff and a constant tendency to itching, with which I have been troubled from my childhood, and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly,

J. K. BRAGG.

114 Market St., St. Louis, March 5, 1855.

DEAR SIR: I am doing an extensive travel in the West and South-western States, as general agent for Adams' American Liniment, and would be glad if you would favor me with a consignment of Professor Wood's Restorative, as I feel assured that I can introduce it in many places where it is not known, as my head is a living testimony of its valuable properties, restoring the hair to its natural color, I am forty years old, and my hair was a mass of white. Six after using three half-pint bottles, my hair is as beautiful auburn as it was at sixteen, and much improved in appearance, and I would not be without a bottle on hand for the price of ten. I should be very glad to hear from you soon.

Very respectfully,

WM. B. BROOME.

3.

4.
THE WESTMINSTER REVIEW, (Liberal.)

5.
BLACKWOOD'S EDINBURGH MAGAZINE, (Tory.)

The great and important events—Religious, Political, and Military—now agitating the nations of the Old World, give to these Publications an interest and value they never before possessed. They occupy a middle ground between the hastily written news items, crude speculations and flying rumors of the newspaper, and the ponderous tome of the historians written long after the living interest in the facts, he records shall have passed away. The progress of the War in the East, occupies a large space in their pages. Every movement is closely criticised whether of friend or foe, and all shortcomings fearlessly pointed out. The interesting articles from the Germes and from the Edinburgh, Blackwood's Magazine, from two of its most popular contributors, give a more intelligible and complete account of the movements of the great belligerents than can elsewhere be found. These Periodicals ably represent the three political parties of Great Britain—Whig, Tory, and Radical—but politics form only one feature of their character. As Organs of the most profound Writers on Science, Literature, Morality and Religion, they stand as they have ever stood, unrivalled in the world of Letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more perfect and satisfactory record of the current literature of the day, throughout the world, that can be possibly obtained from any other source.

MARVELLOUS REMEDY.

For a Marvellous Age.

HOLLOWAY'S OINTMENT.

THE GRAND EXTERNAL REMEDY.

BY the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to every organ, inward part. Diseases of the kidneys, disorders of the liver, Affections of the Heart, Inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume, as the Ointment. Scurvy, Sore Heads, Scrofula, or Erysipelas, cannot long withstand its influence. The inventor has travelled over many parts of the globe, visiting many of the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

SORE LEGS, SORE BREASTS, WOUNDS AND ULCERS.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumors. Professor Holloway has despatched to the East, large shipments of this Ointment, to be used in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints even of 20 years standing.

PILES AND FISTULAS.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.
