The most Important Discovery of the Age.

THE Subscriber has the honor of introducing to the attention of the public the invaluable discovery in the art of cutting, of the celebrated Professor Klitt, of Paris, which has received the universal sanction and adoption of the first houses in Europe, England and America, and is admitted by the crafts to excel any improvement or invention that has yet appeared, not excepting Oliver's recent patent.

The superiorence of this philosophical system, which is based upon strictly Geometrical principles, consists in its combining unerring exactness and precision, with reference to fit, with the greatest possible ease and freedom, and the utmost conceivable gracefulness in style; possessing the invaluable merit that pertains to the productions of genius in whatever department of art; that of great simplicity in detail and application; only requiring the use of the tape measure, and consequently dispensing with the formal tedious and incorrect objects of instrument strap, &c., thus proclaiming, by actual measurement, a correct description or model of the human figure, whether deformed or symmetrical, without even the semblance of a wrinkle on the garment, whether Coat, Vest or Pants.

The Subscriber having secured the exclusive use of this noted system for Kingston, is prepared to give practical instructions, accompanied with drafts, &c.

As all ordered work in his newly organized establishment will, for the future, be measured and cut according to this principle, he would beg to invite the sceptical, and all who can appreciate a model fitting garment, to afford it a personal test by favoring him with a call.

—NOW ON HAND—

A large stock of seasonable cloths and cassimeres of choice value and style, carefully and personally selected from the best Houses in the trade.—Among the many improvements the subscriber has recently effected in his Tailoring Establishment is, the important advantage of having a superior selection of mechanics at work on the premises, constantly under personal inspection, thereby securing the best possible workmanship.—Charges fully $50 per cent below the old standards still so generally adhered to by the Trade.

REAPING & MOWING MACHINES,

R. & R. S. PATTERSON,

Manufacturers, Belleville.

THE Subscribers would respectfully inform the public, that they are engaged largely in the manufacture of Agricultural Implements, at the head of Main Street, Belleville, C. W., near the Railroad depot.

We would call particular attention to our Combined Reaping and Mowing Machines, which we confidently recommend to the public as possessing greater advantages for Farmers than any other machine yet introduced, among which we would enumerate, its perfect adaptation to uneven surfaces; its means of adjusting to various heights of cutting; Its freedom from side draft; the ease and facility of removing it from one field to another upon its own wheels, and changing it from a reaper to a mower. It is simple in construction, and not liable to get out of repair; is capable of cutting from 12 to 15 acres per day, and the grain is discharged in good shape for binding, entirely out of the way of the machinery—which admits of a whole field being cut without interruption. We use the very best of material—employ none but experienced workmen; and any person disposed to give them a trial, can depend upon having a durable machine, and one that will work to their entire satisfaction.

We are also manufacturing Thrashing Machines from one to eight horse power, with or without cleaners, either under or over shot, of the best description; and a general assortment of Agricultural Implements;—together with a complete assortment of and most other articles pertaining to a general Foundry business.

We keep a large stock constantly on hand, and intending purchasers will find it to their advantage to call and examine our implements and prices.

☞ All orders promptly attended to

GENTS:—Our city was last evening visited with the most destructive fire since its existence, and you may well think we felt interested and anxious to know the result of several sales of yours and others in the fire. We need hardly tell you yours came out of the fiery ordeal triumphant over all others. Immediately under Anderson's office was 50 or 60 tons of tallow, and of course made the hottest kind of fire; and in another Safe of yours, in the same building was $20,000 in Bank bills, checks, &c., all of which came out in perfect order, after lying in the ruins ten hours. All that have seen the effects of the fire on the different kinds of Safes, are satisfied of the superiority of your "Rich's improvement on Wilder's Patent Safe." Yours respectfully,

YOU DESERVE CREDIT FOR YOUR DISCOVERY!

PROFESSOR WOOD'S HAIR RESTORATIVE is, no doubt, the most wonderful discovery of this age of progress, for it will restore permanently, gray hair to its original color, cover the head of the bald with a most luxuriant growth, removes at once all dandruff and itching, cures all scrofula and other cutaneous eruptions, such as scald-head, &c. It will cure, and by magic, nervous or periodical headache; make the hair soft, glossy and wavy, and preserve the color perfectly, and the hair from falling to extreme old age.

The following is from a distinguished member of the medical profession:

St. Paul, January 1, 1855.

PROFESSOR O. J. WOOD—

DEAR SIR: Unsolicited, I send you this certificate. After being bald for a long time, and having tried all the hair restoratives extant, and having no faith in any, I was induced to give it a trial. I placed myself in the hands of a barber, and had my head rubbed with a good stiff brush, and the Restorative then applied and well rubbed in till the scalp was a glow. This I repeated every morning, and in three weeks the young hair appeared, and grew rapidly from August last till the present time, and is now thick, black and strong—soft and pleasant to the touch, whereas, before it was harsh and wiry, what little there was of it, and that little was disappearing very rapidly. I still use your Restorative twice a week, and shall soon have a good and perfect crop of hair. Now I had read of these things—and who has not? But have those seen hitherto any case where any person's hair was really benefited by any of the hair tonics, &c., of the day; and it really gives me pleasure to record the result of my experience. I have recommended your preparation to others and it already has a large and general sale throughout the Territory. The people here know its effects and have confidence in it. The supply you sent us, as wholesale agents for the Territory, is nearly exhausted, and daily inquiries are made for it. You deserve credit for your discovery; and I for one, return you my sincere thanks for the benefit received, and cheerfully recommend it to all suffering in any such result.

Yours, hastily,
J. W. BOND.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and Pastor of the Orthodox Church, at Brookfield, Mass. He is a gentleman of great influence and universally beloved.

WM. DYER.

Brookfield, January 12, 1855.

PROFESSOR WOOD:—

DEAR SIR: Having made trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching, with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly,
J. K. BRAGG.

114 Market St., St Louis, March 5 1855.

DEAR SIR: I am doing and extensive travel in the West and South-western States, as general agent for Adams' American Liniment, and would be glad if you would favor me with a consignment of Professor Wood's Restorative, as I feel assured that I can introduce it in many places where it is not known, as my head is a living testimony of its valuable properties, in restoring the hair to its natural color. I am forty years old, and my hair was a most white, but after using three half-pint bottles, my hair is as beautiful auburn as it was at sixteen, and much improved in appearance, and I would not be without a bottle on hand for the price often I should be very glad to hear from you soon,

Very respectfully,
WM. B. BROOME.

THE above Premiums will be paid for the three best Essays respectively on the origin, nature and habits, and the history of the progress from year to year and the ravages of the Weevil, Hessian Fly, Midge and such other insects as have made ravages on the wheat-crops in Canada, and on such diseases as the wheat crops have been subjected to, and on the best means of evading or guarding against them.
