Money! Money! Money!

WHY BE WITHOUT MONEY? when it is just as easy for any one to be around with a pocket full as not, if they only think so. I have got a new article, from which from five to twenty dollars a day can be made, either by male or female. It is highly respectable business, and an article which is wanted in every family in the United States. Enclose me two dollars by mail, at my risk, and I will forward by return mail a Circular, with full instructions in the art. The business is very easy. Try it, if you are out of employment, and you will never regret it; for it will be better for you to pay the above sum, and insure a good business, than to pay twenty-five cents for a spurious advertisement. This is no humbug. Try it! Try it! Try it! Address your letters to

DWIGHT MONROE, New York.

I sent one of my Circulars to an Editor in Georgia, and he gave a notice in his paper says the following:

"Mr Munroe sent me one his Circulars, and I will just say to my readers that whoever of you are out of employment that Mr Munroe's business is a good business, and money can be made out of it by any one who engages in it, for it is no humbug."

IMPORTANT TO DAGUERREOTYPISTS MARBLE DEALERS AND OTHERS

Monumental Daguerreotype Cases.

A METHOD has long been sought for, to insert in a durable manner, Daguerreotype Likenesses to Head Stones and Monuments. I have been manufacturing these Cases for the last two years, and can warrant them to secure the picture for a long number of years.

The outside case is made of Parian Marble, and the box which encloses the picture and keeps it, in a state of great preservation for a long number of years, is made of brass—a screw box. It makes a very neat job on a Head Stone or Monument. They are used in Greenwood Cemetery, Mount Auburn, Laurel Hill, and many other Cemeteries in the United States.

A liberal discount made to Marble Dealers and Daguerreotypists. Price from $2,25 each to $9,50. A circular of engravings will be sent to any address, free, with price list. Address,

Agent of Mausoleum Dag. Co.,

HUGH FRASER.

Kingston, 14th November, 1856.

MESSRS. STEARNS & MARVIN Nos. 144 and 146 Wall-St., N. Y. GENTS:—Our city was lastevening visited with the most destructive fire since its existence, and you may well think we felt interested and anxious to know the result of several safes of yours and others in the fire. We need hardly tell you yours came out of the fiery ordeal triumphant over all others. Immediately under Anderson's office was 50 or 60 tons of tallow, and of course made the hottest kind of fire; and in another Safe of yours, in the same building was $20,000 in Bank bills, checks, &c., all of which came out in perfect order, after lying in the ruins ten hours. All that have seen the effects of the fire on the different kinds of Safes, are satisfied of the superiority of your "Rich's improvement on Wilder's Patent Safe." Yours respectfully,

MORLEY & RAYNOLDS.

Cleveland, Oct. 28, 1854.

MESSRS. FRASER AND GEORGE have just received a fresh supply of the above valuable Safes, which they will sell at New York prices, with freight and duty added.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

IT HAS WORKED MIRACLES!

THAT ALL the bald and gray can be restored perfectly to original growth and color, so far as their locks are concerned, does not admit of doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions, even scald head, and in no possible case will it fail of curing, as if by magic, nervous or periodical headache, and if used twice a week by the young, regularly, it will preserve the color and keep the hair from falling to any imaginable age. Read and judge:

Logansport, Ia., June 1855.

Messrs. O. J. Wood & Co.,

GENTS: Yours of the 13th came duly to hand. Enclosed please find thirty eight dollars, being the amount for Hair Restorative. I have sold it all. * * * * If you choose you may send six dozen bottles Hair Restorative. I think I can sell it. It has worked miracles in this place. I sold a man six $1 bottles, that was bald, and it fetched new hair out all over his head.

Yours respectfully,

M. H. GRIDLEY.

C. R. R. Office, Vandalia, June 21, 1854.

PROFESSOR WOOD—

DEAR SIR: I take pleasure in bearing voluntary testimony to the excellence of your Hair Restorative. Three months ago my hair was very gray. It is now a dark brown, (the original color) smooth and glossy. The only application I have made to it has been the Hair Restorative, prepared by you, and which, from the result in my own case, I can most cordially recommend to others.

Respectfully, yours,

EDWARD WOLCOTT,

Vincennes, Ia., June 21, 1853.

PROF. O. J. WOOD: As you are about to manufacture and vend your recently discovered Hair Restorative, I will state for whomsoever it may concern, that I have used it, and known others to use it—that I have for several years been in the habit of using other Hair Restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head of dandruff, and with one month's proper use, will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance; and all this without discoloring the hands that apply it, or the dress on which it drops. I would therefore recommend its use to every one desirous of having a fine color and texture to the hair.

Respectfully yours,

WILSON KING.

St. Louis, June 29, 1853.

PROF. WOOD: As you are about to prepare and vend your recently discovered Hair Restorative, and as you requested my opinion of it, I will state that my hair was, a few months ago, very gray, but after using two bottles of your Hair Restorative, it resumed its original color; and since its application all dandruff has disappeared from my head, and I have been troubled with no disagreeable itching of the scalp. I am satisfied that those who use it will not regret it, as it gives the appearance of having been recently oiled. I am prepared, therefore, to recommend its use to all who are desirous of having a beautiful head of hair.

I am, Sir, yours, &c.,

H. L. STEWART.

PROF. WOOD—

DEAR SIR: My hair had, for several years, been becoming prematurely gray, accompanied by a harshness, which rendered the constant application of oil necessary in dressing it. When I commenced using Hair Restorative about two months ago, it was in that condition; and having continued its use till within the last three weeks, it has turned to its natural color, and assumed a softness and lustre greatly to be preferred to those produced by the application of oils or any other preparation I have ever used. I regard it as an indispensible article for every lady's toilet, whether to be used as a Hair Restorative, or for the simple purposes of dressing or beautifying the hair. You have permission to refer to me all who entertain any doubt of its performing all that is claimed for it.

MRS C. SYMONDS,

114 Third St.

Cincinnati, O., Feb. 10, 1854.

Watertown, Mass., May 1, 1854.

PROF. O. J. WOOD: Allow me to attest the virtues and magic powers of your Hair Restorative. Three months since, being exceedingly gray, I purchased and soon commenced to use two bottles; and it soon began to tell in restoring the silver locks to their native color, and the hair which was before dry and harsh, and falling off, now became soft and glossy, and it ceased falling; the dandruff disappeared and the scalp lost all the disagreeable itching, so annoying before, and now I not only look but feel young again.

Respectfully yours, &c.,

CHAS. WHITNEY.

JAMES SYDNEY CROCKER,

Manager for British North America.

The most Important Discovery of the Age.

THE Subscriber has the honor of introducing to the attention of the public the invaluable discovery in the art of cutting, of the celebrated Professor Klitt, of Paris, which has received the universal sanction and adoption of the first houses in Europe, England and America, and is admitted by the trade to excel any improvement or invention that has yet appeared, not excepting Oliver's recent patent.

The chief excellence of this philosophical system, which is based upon strictly Geometrical principles, consists in its combining unerring exactness and precision, with reference to fit, with the greatest possible ease and freedom, and the utmost conceivable gracefulness in style; possessing the invaluable merit that pertains to the triumphs of genius in whatever department; that of great simplicity in detail and application; only requiring the use of the tape measure, and consequently dispensing with the formal, tedious and incorrect adjuncts of Instrument strap, &c., thus producing, by actual measurement, an exact counterpart or model of the human figure, whether deformed or symmetrical, without even the semblance of a wrinkle on the garment, whether Coat, Vest or Pants.

The Subscriber having secured the exclusive use of this noted system for Kingston, is prepared to give practical instructions, accompanied with drafts, &c.

As all ordered work in his newly organized establishment will, for the future, be measured and cut according to this principle, he would beg to invite the sceptical, and all who can appreciate a model fitting garment, to afford it a personal test by favoring him with a call.

—NOW ON HAND—

A large stock of seasonable coths and clothing, of choice value and style, carefully and personally selected from the best Houses in the trade.—Among the many improvements the subscriber has recently effected in his Tailoring Establishment is, the important advantage of having a superior selection of mechanics at work on the premises, constantly under personal inspection, thereby securing the best possible workmanship.—Charges fully $50 per cent below the old standards still so generally adhered to by the Trade.

FARMER'S GUIDE.

GREAT REDUCTION IN THE PRICE OF LATTER PUBLICATION.

Leonard Scott & Co., New York, continue to re-publish the following leading British Periodicals, viz:—

1.
THE LONDON QUARTERLY, (Conservative.)
2.
THE EDINBURGH REVIEW, (Whig.)
3.
THE NORTH BRITISH REVIEW, (Free Church.)
4.
THE WESTMINSTER REVIEW, (Liberal.)
5.
BLACKWOOD'S EDINBURGH MAGAZINE, (Tory.)

The great and important events—Religious, Political, and Military—now agitating the nations of the Old World, give to these Publications an interest and value they never before possessed. They occupy a middle ground between the hastily written newspapers, crude speculations and flying rumors of the newspaper, and the ponderous tome of the historian written long after the living interest in the facts he records shall have passed away. The progress of the War in the East occupies a large space in their pages. Every movement is closely criticised whether of friend or foe, and all shortcomings fearlessly pointed out. The letters from the Crimea and from the Baltic in Blackwood's Magazine, from two of its most popular contributors, give a more intelligible and reliable account of the movements of the great belligerents than can elsewhere be found.

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical—but politics form only one feature of their character. As organs of the most profound Writers on Science, Literature, Morality and Religion, they stand as they have ever stood, unrivalled in the world of Letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES.

The receipt of Advance Sheets from the British publishers gives an additional value to these Reprints, especially during the present excited state of European affairs, inasmuch as they can now be placed in the hands of subscribers about as early as the original edition.

The Farmer's Guide to Scientific and practical Agriculture.

By Henry Stephens, F.R.S of Edinburgh, and the late J. P. Norton, Professor of Scientific Agriculture in Yale College, New Haven. Vols. Royal Octavo. 1600 pages, and numerous Wood and Steel Engravings.

This is, confessedly, the most complete work on Agriculture ever published, and in order to give it a wider circulation the publishers have resolved to reduce the price to Five Dollars for the two Volumes!! When sent by mail (post paid) to California and Oregon the price will be $7! To every other part of the Union and to Canada (post paid), $6. ☞ This work is not the old "Book of the Farm." Remittances for any of the above publications should always be addressed, post-paid, to the Publishers,
