A BEAUTIFUL HEAD
OF
RICH GLOSSY HAIR,
Completely Preserved
TO THE GREATEST AGE.

And who that is gray would not have it restored to former color; or bald, but would have the growth restored, or troubled with dandruff and itching but would have it removed, or troubled with scrofula, scald head, or other eruptions, but would be cured, or with sick head ache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this, see circular and the following.

Ann Arbor, November 5, 1856.

Prof. O. J. Wood—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack postrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the thousand and one loudly trumpeted quack remedies until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first by my good wife, whose hair had become very thin and entirely white, and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon, and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore, my skepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or gray [by reason of sickness or age,] to original color and beauty, and by all young persons who would have their hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

Friend Wood; I was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again very respectfully and truly yours,
SOLOMON MANN.

Carlyle, Ill., June 28, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its wonderful effects My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and have no doubt permanently so.

THIS COMPANY is established at South Quebec, for the purpose of connecting the Transit Commerce of the Port of Quebec, and the Grand Trunk Railway, with Ocean Steamers, and the important and increasing Ocean, Lake, and River steam traffic.

The Company provides deep water Wharves for Ocean Ships and Lake and River Craft, with suitable Storage for Flour, Grain, Ashes, Timber, Iron, Coals, Salt, &c., &c., in immediate communication with the Grand Trunk Railway Station at Point Levi.

The Establishment is situated between the Passenger and Goods Depot of the Railway, affording all the security of enclosed Docks and Warehouses.

The Company have four thousand feet of River frontage, with a Timber Cove capable of holding six millions feet in the Raft; where vessels of any class can moor in safety out of the influence of the strong tides, sheltered from the effects of those periodical easterly gales which so frequently cause damage to Shipping on the North side of the St. Lawrence.

Railway Turntables and sidings on the Company's property will enable Goods and Produce to be transferred direct from the Railway Cars and Shipping, and vice versa. Steam Elevators, Cranes, &c., &c., will also be provided for the expeditious and economical loading and unloading of the same.

The site is so commodious as to leave no reasonable doubt that the undertaking will yield a high remunerative return.
