PUBLIC NOTICE.

THE Committee on Fire, Water, and Gas taking into consideration the difficulty which the Fire Companies as well as the Public almost invariably experience in ascertaining precisely the locality in which a fire originates, have made the following regulations.

The City being divided into seven Wards the Committee for greater facility, have made each Ward a Fire District—these they have numbered as follows:

Cataraqui Ward ..... No. 1
St. Lawrence Ward ..... No. 2
Ontario Ward ..... No. 3
Sydenham Ward ..... No. 4
Victoria Ward ..... No. 5
Rideau Ward ..... No. 6
Frontenac Ward ..... No. 7

When a fire breaks out in any of these Wards or Fire Districts, the person or persons who will ring the Bells will observe the following:—

A general alarm such as has been hitherto given, will be rung for a period of about two minutes; then for a period of full ten minutes the bells will each ring out a number of strokes corresponding to the number of the Fire District in which the fire may be. If in Sydenham Ward the bell will strike four clear and distinct strokes—if in Frontenac seven, and so on. It is understood that a sufficient interval will elapse between each stroke of the number, so that they can be easily counted, and that a sufficient time will intervene between each number so that there can be no mistake as to the Ward in which the Fire is. After the expiration of the ten minutes the bells will resume the usual general alarm.

When practicable it is desired that the City Bell be first rung, and that the other Bells take the time from it.

These Regulations the Committee believe, if attended to on the part of those who usually ring the fire alarms, will be of considerable benefit; and they enjoin the Fire Companies and all others interested to observe and rigidly carry them out.

THIS COMPANY is established at South Quebec, for the purpose of connecting the Transit Commerce of the Port of Quebec, and the Grand Trunk Railway, with Ocean Steamers, and the important and increasing Ocean, Lake, and River steam traffic.

The Company provides deep water Wharves for Ocean Ships and Lake and River Craft, with suitable Storage for Flour, Grain, Ashes, Timber, Iron, Coals, Salt, &c., &c., in immediate communication with the Grand Trunk Railway Station at Point Levi.

The Establishment is situated between the Passenger and Goods Depot of the Railway, affording all the security of enclosed Docks and Warehouses.

The Company have four thousand feet of River frontage, with a Timber Cove capable of holding six millions feet in the Raft; where vessels of any class can moor in safety out of the influence of the strong tides, sheltered from the effects of those periodical easterly gales which so frequently cause damage to Shipping on the North side of the St. Lawrence.

Railway Turntables and sidings on the Company's property will enable Goods and Produce to be transferred direct from the Railway Cars and Shipping, and vice versa. Steam Elevators, Cranes, &c., &c., will also be provided for the expeditious and economical loading and unloading of the same.

The site is so commodious as to leave no reasonable doubt that the undertaking will yield a high remunerative return.

Detailed Prospectuses, and every requisite information may be obtained upon application at the Offices of the Company in QUEBEC, or at their Agencies in MONTREAL, TORONTO, CHICAGO, and here to
