The Farmer's Favorite

To-day, more so than ever, enclosed gears guarantees clean and proper lubrication — more bearings give lighter draft—stronger, better-made frames, trussed and braced like a bridge, gives you a truer, easier-running Binder. Call us for your binder requirements. We have on hand 7-foot and 8-foot in new Binders, also several exceptionally good used binders in both Cockhutt and Massey-Harris from $75.00 to $245.00, in A1 condition.

The largest oil refinery in the British Commonwealth is at Sarnia, Ontario. It has a daily capacity of 53,000 barrels.

A California man was arrested for driving his car while nude. Perhaps he was afraid he would have to change a tire.

KNOW YOUR FERTILIZERS

Using the wrong fertilizer is like throwing money away, because increased yields—often quite substantial ones—can result from correct usage.

Each type of soil and each type of crop has different fertilizer requirements and the prolonged and costly studies of fertilizers made at Agricultural Colleges and Experimental Farms across Canada can be made to pay off for you. Their experience and knowledge can be yours for the asking.

You will find the nearest branch of our bank another source of useful, profitable information. We have been studying the financial problems of Canadian farmers for 95 years. Through sound financial advice and timely loans, we have helped many a responsible farmer along the road to prosperous security. The manager of our nearest branch is at your service. Why not use him?

1949 Co-operative Business Over One Billion Dollars

Co-operative business in Canada is getting bigger with the years, along with an increasing membership in co-operative organizations. Total business last year exceeded a record one billion dollars, an increase of $200,000,000 over 1948. Membership in co-operatives was up 60,668.

These are the highlights of the 18th annual summary of co-operative organizations in Canada, a study made each year by the Economics Division, Dept. of Agriculture, Ottawa. Mrs. J. E. O'Mera, who supervises the work, points out that although only 65 per cent of all known Canadian co-operatives reported their 1949 operations, the chief organizations were all included, and it is estimated that 90 per cent of the total business was reported.

Co-operative sales of farm products made up $783.3 million of the total; sales of merchandise, chiefly machinery, clothing and home furnishings, foods, coal and wool, amounted to 191.8 million; sales of fish and fish products amounted to $14 million; and sale of fisherman's supplies and merchandise totalled $2.7 million. Miscellaneous items made up the remainder of this one billion dollar business.

It is calculated that during the 12 months to July 31st, 1949, co-operatives marketed 32.9 per cent of the main farm products which were sold commercilaly. Of individual products, co-operatives sold 89.9 per cent of the tobacco; 79.9 per cent of the wool; 55.1 per cent of the grains; 27.5 per cent of the fruit and vegetables; 26.8 per cent of the maple products! 25.5 per cent of the dairy products; 18.4 per cent of the poultry and eggs 12.1 per cent of the honey.

A double chin develops when a couple of women meet.

Since 1830, the number of magazines and newspapers in the United States has increased almost 25 times.

A drunkard is a man who tries to pull himself out of trouble with a corkscrew.

As early as 300 B.C. India had a law providing a fine for adulteration of food.

It's funny families no longer keep family albums — and it was funnier when they did.

SCHOOL OPENING

The 41th Fall Term at the popular Canada Business College, Post Office Bldg., Oakwood and St. Clair, Toronto, opens on August 28th and September 5th.

Board and room in approved homes in return for light services after school. Free employment service. References of successful graduates from your own district cheerfully given.
