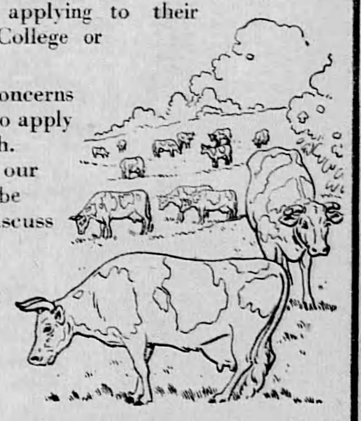
PROTECT YOUR HERD!

Canadian dairy farmers lose thousands of dollars annually through abortions caused by infection. Experimental Farms and Agricultural Colleges are working towards a solution of the problem.

One method which is being tried is the use of calf vaccine to build resistance to disease.

Interested farmers can obtain latest information about vaccine, and other methods of combating abortion, simply by applying to their nearest Agricultural College or Experimental Farm.



When your problem concerns money, we invite you to apply to our nearest branch. You will find that our friendly manager will be genuinely anxious to discuss a loan with you for herd improvement, or any other purpose that will enable you to farm more profitably.

...make your work easier, your life pleasanter.

How would *you* measure your telephone's true worth? Its endless convenience. Its life-saving speed in time of need. The steadily growing number of people it brings within your reach . . . All these things contribute to the sum-total of telephone value.

Yet in dollars-and-cents *cost*, your telephone remains one of the smallest items in your family budget; even a smaller part than it was before the war.

Today, as always, your telephone is *big* value.

THE BELL TELEPHONE COMPANY OF CANADA

IF YOU ARE WAITING FOR A TELEPHONE, or for a higher grade of service, you have our assurance that you will have it just as quickly as we can provide the necessary facilities. Our continuing goal is to provide the kind of service to all who want it, when and where they want it.
