WANTED — NEW MEN ..... AND WOMEN .....

Our greatest need in this machine age is not so much new political or new economic systems as new men and women to run them. This was the thought contained in Rev. A. G. Macpherson's sermon last Sunday. The human factor, not the machine, he said, holds the key to man's welfare and happiness. Man's ability to produce honest business, good governmnet, a just social order and a peaceful world, requires a radical change in his nature. In answer to the frequent question "Can human nature change?" the speaker reminded his hearers that only God can change human nature. "Except a man be born from above, he cannot see the Kingdom of God." Here lies our great hope. God not only can, but has changed men and women. Outstanding examples were given: Mary Magdalene, St. Paul, St. Frances of Assisi and Frederick Charrington, who was transformed from the self-centred heir of brewery millions to a self-denying Christian and servant of his fellowmen.

Mr. Macpherson's next sermon is "What counts most in being a Christian." The flowers gracing the front of the church were in loving memory of Mr. John Stewart, for many years a faithful worshipper and Elder of St. John's.

The Advance Staff Will Have Holiday Next Week

For one week after this issue has been placed in the mails, the editor and staff of The Advance will be taking some holidays. The Advance will not be publish- next week, but will be printed on September 6th, following our return from vacation.

We expect to visit the Haliburton country, and if possible, to call on Mr. and Mrs. Frank Taylor at their boys' camp, Ho-Ba-Chee at Hall's Lake. We have never seen that part of Ontario, which is considered as the Province's play-ground and are looking forward to the pleasure of seeing that area -- and also get in a bit of fishing on the side and enjoy a comfortable and easy vacation at the same time.

We hope that our absence of a week will not be too much of a hardship when your favorite paper does not make its appearance next week. We'll be with you again on Sept. 6th.

Durham Took Series From Flesherton Juniors

Durham made sure in no uncertain way of victory in the semi-final of the junior baseball series in the fourth game played here Monday night when they defeated our youngsters 19-6 in a weird ball game. In the first two innings Durham scored 16 runs and after that the locals tightened up and only allowed three runs, while gathering six, but the lead was too large to catch. They put up a plucky resistance and from the third inning it was a good game. It was a disappointment to many fans that they could not go further in the series, but they played well for the first year at the game. Their coaches Murray Juffs, at the start, and then Jack MacLean and Geo. Ralph, deserve a great deal of credit for the time they spent in teaching the boys some of the finer points of ball. Next season is another year and we hope to see them in there again. It is a pleasure to again have baseball being played locally.

Outside Mail Brought To Flesherton By Truck

The strike of Canadian railway workers took place at six a.m., on Tuesday morning, when all traffic on Canadian railways was halted. At present there is a stale-mate in negotiations and it is not known when the strike will end. One mail truck is arriving each day at noon from Toronto and the return trip is made about 3.45 p.m. Only first class mail is taken on the truck and any letters for, say, Dundalk go to Toronto and return the following day. The post office is refusing all but first class mail.

Many will be late in receiving his issue of The Advance but the rural routes from all centres will operate to pick up first class mail and deliver the mail as usual. We intend to take this issue of The Advance to Markdale and Proton Station, so that the subscribers will receive it on time. The remainder of the papers will be kept here until the trains are running again, or the trucks accept that class of mail.

Miss Jean McCracken is holidaying with relatives in Montreal, and also Miss Genevieve Milne, who is with a Verdun, Que., hospital staff.
