MARKDALE, JUNE 11, 1891.

SIR JOHN MACDONALD.

After eight days' struggle with the grim monster Sir John passed peacefully away at 10:15 on Saturday night, and the country is filled with sorrow and perplexity—with sorrow because a well-beloved man has fallen among us—with perplexity because his disappearance leaves the future a sealed book, the contents of which no one will venture to forecast. The Premier had passed the allotted span by six years, and it has been evident for some time that the weakness and exhaustion which came of hard work and advanced age would soon claim him. He continued with wonderful determination to manage the heaviest department in the Government, to supervise every administrative act in every other branch of the service; and to attend to all the intricacies of legislation and of party management to the last. A younger man might have shrunk from the labors, responsibilities, and worries which this vast amount of business involved. While in politics Sir John was a genius, he was in private life as gentle and kindly as a man can possibly be. Friend and foe alike must recognize that in his disappearance we lose a statesman whose name will be remembered when many of his contemporaries through lack of the opportunities to distinguish themselves will be forgotten—a man who with all his faults, and he often said they were many, was, according to his understanding of the policy that was best for the country, an earnest patriot.

THE FUNERAL.

The funeral was arranged to leave the House of Parliament at 1 p.m. Wednesday and proceed to Kingston by train where the body would remain in state until Thursday and there the remains interred.

HIS SUCCESSOR.

There has been much speculation as to who the new Premier would be, which is now however apparently settled, Mr. Meredith being the man.

Maxwell.

Since you last heard from us the earth has been clothed very heavily with greenness, and this is partly caused by the rain.

The frame work for Dr. Stott's stable is now up and Mr. Ross is busy boarding it in. Mr. Stocks is building the foundation for the house and the Phillips Bro.'s have been digging the well.

Mr. Wm. Kerton who has been sick for some time has recovered and is at work again.

Rev. H. A. Brown is attending Conference at Toronto this week.

Miss Aggie Gamey returned from Owen Sound lately where she was visiting friends.

The organist, Miss Sterling, has not yet returned consequently Miss Gamey took that position last Sunday morning.

Miss Lizzie Brown of Foversham has been at Mr. Hudson's for a time, but returned home on Tuesday.

Mr. McAteer, a Methodist student, who has been attending the college at Belleville for some time preached in the Methodist church here last Sunday morning.

Priceville.

We had a nice shower of rain on Monday evening, which made things appear fresher after the long drouth. The crops look backward for this time of year.

Mr. Hutton, barrister of Brampton, is visiting his brother, Dr. Hutton, for a few days.

We are glad to see that Mr. Wait is improving from his late illness. We hope he will soon be restored to his wonted health.

Mr. Colin McLeod is at home at present visiting his parents on the Durham Road. Colin has been in the Northwest for some time.

Mr. Painter McDowell was busy for a couple of weeks painting Mr. John McArthur's residence and the store. It appears ever so much better now than before.

There has been considerable sickness in this village for some time. Among those who are yet unwell are Regie Grier and Donald McLeod, son of Rev. Mr. McLeod, we hope these young lads will soon regain their former vigor.

The above received too late for last week.

HARKAWAY.

The social held here last week was well attended, $14 being realized.

Our school board have held several conferences of late. Urgent business. Other conferences are being held; decisions not made public.

Dr. McCullough, Walter's Falls, paid our school a professional call last week.

As master J. Mercer was hauling manure for J. Murdoch last Friday his horses became unmanageable and ran full speed to town line turning south they had all their own way as they thought, but Mr. James Lyons who was proceeding north dismounted and with his usual happy smile and strong arm intercepted and held the excited team until their owner arrived. The wagon was somewhat damaged.

Hunters from Berkeley and Markdale have been after a fox lately in the Lyon's district, but have not as yet bagged their game. By the number of hunters I would suppose it to belong to the silver gray species.

Mr. Ed. Steer has turned his canvassing faculty in another line of business and is endeavoring to be successful.

Mr. Williamson has a smart Gold Leaf colt; while J. McMicken and R. S. McLoughlin has a nice pair of Jefferson's.

Walter's Falls.

We had a nice shower of rain last week but the ground appears as dry as ever again.

Quite an excitement took place in the village last Sunday evening. About 5 p.m., smoke was seen issuing from Mr. Geo. King's stable. Had it not been for the timely arrival of most of the villagers much damage would have been done but as it was the above stable was all that was burned.

We were almost led to believe last Monday by the up-hoisting of a flag on a corner office, that it was nearing the 12th July instead of June, but on taking a closer observation of it, we saw that it had a funeral border and likely so placed to commemorate the death of the Premier. He is certainly worth hoisting a flag for, when he was clever enough to keep in office so long.

Last Monday, the Dauntless boys of this place played a match at Markdale in which the boys of that place lost two goals; they getting none. During the first half of the game the home team played a strong game but in the latter half the visiting team had the better of them and succeeded in scoring twice. We hope to see them return the compliment soon.

Mrs. Hiram Bonnell is now visiting friends in Pickering.

Mrs. Walter Perry, of Toronto, is now visiting her friends here.

Ninth Line.

Looking over the STANDARD this week I noticed there was no Ninth Line correspondence. This is not as it should be. The Ninth Liners are of too much importance to be overlooked in this manner.

The crops are looking better just now on account of the recent rain, but the farmers are afraid there is going to be another dry spell which would prove destructive to the meadows.

Potato planting is over and the inhabitants are resting on their oars until haying commences.

Miss Birtha Shore has returned from Duluth where she spent the winter. She was very much missed among the young folks and her return was hailed with joy.

There was two barns raised in this vicinity lately, belonging to Mr. J. Pickering and Mr. W. Lewis.

The young people are looking forward with pleasure to a Sunday School picnic on the 18th of this month.

One of our young men built a new house on his farm lately and the front fence is adorned with a new white gate. this looks like business.

Lauriston.

The Traverston correspondent has been sitting on the fence chewing a sliver lately.

Miss Allie Dillon is visiting friends in Detroit.

Miss Isaac who has been visiting her sister Mrs. Baird, has returned to her home in Normanby.

Harry Bell has returned after spending a term at Owen Sound Business College.

The law does not allow swine to run on the public road. I think it would be much better if it did as they would not have so much time to undermine fences.

We are pleased to hear that Mrs. Jas. Bell is recovering after a severe illness.

Mr. George Walker has moved into his new house this week.

Mr. M. C. Black has gone to Normanby on a visit.

Mr. Foster, up your courage for a faint heart never won a fair lady. The Bell's sound in the Wright direction this week. Mr. —— look out for your green onions for we saw a Noble man trying to steel a Cargo.

A wedding is expected shortly in this vicinity.

Now the school boy is romping daily
Through the woodland and meadow gaily
Encountering every hornets nest,
Delapidating it with a zest.
But the hornet he's a hummer,
And will watch each evil comer.
And thrust his business like a lance
Rights through each urchins trowser plants.

BUSHWACKER.

TRAVERSTON.

Our mail-carrier hasn't had a good night's sleep this week. His better half is away on a visit, and the old gent feels lonesome.

They didn't send us a free ticket or we would have managed to have been there; but George Peart says that Miss Breen's picnic was a sweet treat and a happy affair.

"Just gladdens my heart to have her back for a while," said Mrs. Wm. McNally on Monday. Her daughter, Mrs. Wm. Pelton of Grand Rapids, Michigan, is spending a month at the old home.

"We farmers' wives cannot have things nice nor have we time to bother with flowers," said a grumbling granger's spouse the other day. "Oh, that's all swosh, just you go to see Mrs. Pat. Haley's glorious houseful of every kind of plants and you'll change your mind," was the quiet rejoinder.

"Yes sir-ee, I've got all the crop in and everything in good shape and it 'ill not be my fault, if I cannot get some little girl to say 'yes' before June is ended," sagely remarked Neil.

The Bachelors' meeting was postponed for two weeks to enable the committee of inquiry to ascertain whether it is true that Jim Gallagher has planted thirty bags of taties; whether Jim Anderson means business or not; if Will. Edwards has yet secured the license and to find out quietly if the story is true that a fellow from Holland is about to carry off one of our best girls.

On the banks of the Saugeen, not far from the village
In the dead of the night, when all was so still
The yell of a wild cat came down through the foliage,
That lifted the head gear of long-legged Bill.

Mr. Editor our inspiration has fled. We can't account for it unless it be that we've just ate three bunches of onions, drank eleven cups of butter milk and ate a half dish of cold rice. Rather guess our genius isn't developed yet.

ALL SORTS.

WHEN THE BREATH is tainted by catarrh it is an evidence that the disease has progressed to the throat, perhaps to the larynx, and the bronchial tubes. These are only stations on the road to the lungs. When catarrh has progressed and attacked the lungs, there can be only one result—consumption and death. Clark's Catarrh Cure will arrest the disease at any point before the lungs are seriously affected. It costs 50 cents of druggists, or sent to any address on receipt of price. Clark Chemical Co., Toronto, New York.

"Ah, my boy, you do not know the anguish of being cut by your best friend until you begin to shave yourself."

"Hush!" whispered a little girl to her classmates, who were laughing during prayer, "we should be polite to God."

WE CLAIM THE EARTH.

We claim the earth is round, and we know its true. We also claim that Hagyard's Yellow Oil cures sprains, bruises, burns, colds, croup, sore throat, rheumatism, neuralgia, and all painful or inflammatory diseases, and we know this is true. Yellow Oil is a true family remedy, for lameness or soreness in man or beast.

Little Girl (timidly)—"Please, Mr. Storekeeper, I want to get some shoestrings." Storekeeper—"How long do you want them?" Little Girl—"I want them to keep, sir, if you please."

BEFORE STARTING

On a journey place a bottle of Clark's Lightning Liniment in your satchel. A few drops in water will prevent sickness or pain from change of water. It is better than spirits or bitters as a stimulant. Miners and lumbermen should always be provided with it. All druggists sell it; price fifty cents. If the druggist has not got it, ask him to get it for you. It will pay you to wait. Clark Chemical Co., Toronto, New York.

A minister asked a little boy who had been converted, "Does not the devil tell you that you are not a Christian?" "Yes, sometimes." "Well, what do you say to him?" "I tell him that whether I am a Christian or not, it is none of his business."

SIT DOWN AND THINK.

Sit down and think; 1st, that dyspepsia is caused by wrong action of the stomach; 2nd, that Burdock Blood Bitters is designed to correct and regulate the stomach; 3rd, that it always cures dyspepsia and costs less than a cent a dose. Can you afford to be dyspeptic?

"Uncle John," said little Emily, "do you know that a baby that was fed on elephant's milk gained twenty pounds in a week?" "Nonsense!" exclaimed Uncle John, and then asked: "Whose baby was it?" "It was the elephant's baby," replied little Emily.

SUDDEN CHANGES.

A cold, or exposure, may cause the poisonous acids in the blood to clog its circulation. This is rheumatism. Clark's Lightning Liniment will stop the pain at once. It should be taken both internally and externally if the attack is severe, and it affords instant relief. If the pain appears again, it should be met with the same treatment, until a cure is affected. This wonderful preparation has worked some remarkable cures among rheumatic sufferers. Where once tried, it is always used after. Sold by all druggists; price fifty cents. Clark Chemical Co., Toronto, New York.

HAGYARD'S PECTORAL BALSAM.

Hagyard's Pectoral Balsam gives prompt relief in coughs, colds, horseness, whooping cough, croup, asthma, bronchitis. It is the most pleasant and a perfect throat and lung healer in the world for children or adults. Price 25c.

In a Southern Village.—Gentleman (who has engaged aged colored hackman to drive him from the station to the hotel)—"Say, uncle, what's your name?" Driver—"My name, sah, is George Washington." Gentleman—"George Washington! Why, that name seems familiar?" Driver—"I should think it ought to. Here I been drivin' to this station fo' about twenty years, sah."

20 MILES TO PROCURE MEDICINE.

Winfield, Ont.

W. H. COMSTOCK, Brockville.

DEAR SIR:—Am selling your "Dr. Morse's Indian Root Pills" in this locality. I have customers who come 20 miles for the sake of getting Morse's Pills. This speaks for itself as to their value. I used them in our family with "the most satisfactory results." My wife has been cured of *sick-headache* by their use. We could not do without them.

Yours, etc.,
A. KRAMPIEN.

IMPORTANT AND TRUE.

No better evidence of the fact that Burdock Blood Bitters is a certain remedy for all blood disorders can be asked than that of Mr. Geo. V. Thomas, druggist, of Hull, P. Q., whose wife was cured of cancer by B. B. B. The family doctor is certain that the disease was cancer and that it is now cured.

all blood humors and diseases, from a common pimple to the worst scrofulous sore, and combined with its unrivalled regulating, cleansing and purifying influence on the secretions of the liver, kidneys, bowels and skin; render it unequalled as a cure for all diseases of the

SKIN

From one to two bottles will cure blotches, pimples, blotches, nettle rash, scurf, tetter, and all the simple forms of skin diseases. From two to four bottles will cure salt rheum or eczema, shingles, erysipelas, ulcers, sores, running sores, and all skin eruptions. It is noticeable that sufferers from skin

DISEASES

are nearly always aggravated by intolerable itching, but this quickly subsides on the removal of the disease by B.B.B. Running on to graver yet prevalent diseases, such as scrofulous swellings, humors and

SCROFULA

We have undoubted proof that from three to six bottles used internally, and by outward application (diluted if the skin is broken) to the affected parts, will effect a cure. The great mission of B.B.B. is to regulate the liver, kidneys, bowels and blood, to correct sluggishness and wrong action of the stomach, and to open the sluice-ways of the system to carry off all clogged and impure secretions, allowing nature thus to aid recovery and remove without fail

BAD BLOOD

Live complaint, biliousness, dyspepsia, sick headache, dropsy, rheumatism, and every species of disease arising from disordered liver, kidneys, stomach, bowels and blood.
