THE 129 head of Ontario cattle exhibited at the World's Fair won $4,791 in prizes, and the horse prizes secured by the Province amounted to $800. 494 entries of sheep and 86 of swine have been made. This part of the show commences this week.

BUTTER MAKING.—The Travelling dairy meeting in Markdale on Monday last was very interesting and many interesting and valuable suggestions and good practical pointers were doubtless carried away. About one hundred and fifty were present, fully half of whom were ladies.

FAREWELL.—Christ Church was well attended on Sunday last. The interior of the church presented a handsome appearance in its harvest, thanksgiving attire. The Oddfellows attended the evening service in a body out of respect for the rector, who is a member of the order.

CONCERT.—A concert will be held in the Ebenezer Methodist church, 14th line Euphrasia, on Tuesday evening next, Oct. 3. The program promises to be something rare and rich. Miss Maud Rennie Davis, 1st soprano of the first Baptist church choir of Binghampton, N. Y., who is also a popular elocutionist, will both sing and recite. Mr. Ryerson Rennie, of Buffalo, N. Y., will also give some choice recitations. The Bush Family Orchestra will furnish instrumental music and the Walters Falls Methodist church choir will contribute in the musical line. The small sum of twenty-five cents will admit you to all.

LETTER WRITING.—A large percentage of the business of the civilized world to-day is transacted by letter, therefore how essential it is to understand a proper system and to practice neatness and legibility in writing. It is essential in private correspondence as well as business, as the impression received by the general get-up and tone of a letter has an influence favorable, as the case may be, much greater than we generally suppose. In this age of cheap writing materials and ample means of instruction there is no reasonable excuse for ignorance on these lines, and yet it is painful to realize the want of care and method practised by the majority even of business men. Mr. C. A. Fleming, principal of the Northern Business College at Owen Sound, has issued a revised and enlarged edition of his book "How to write a Business Letter" which is the best we have yet seen, and a copy of which should be in every family. The price is 75 cents.

THE REVISED VERSION. — Breathes there a man with soul so dead, who never to himself hath said, I will my local aper take, both for myself and family's sake? If such there be let him repent, and have the paper to him sent, and if he'll spend a happy winter, he in advance will pay the printer.

PRIZE WINNERS.—Fall Fair prize lists will occupy considerable space in the STANDARD now for some weeks. These are much more troublesome than ordinary matter, yet for the benefit of interested patrons they are inserted. Secretaries will greatly oblige by sending along the correct list as promptly as possible.

SYSTEM WANTED.—For the convenience of post-masters a uniform shape for folding newspapers might be adopted with advantage. As it is many papers are crushed into an unsightly shape in order to get them into some of the narrow post office pigeon holes. A uniform size of pigeonhole for such mail matter should also be adopted in post offices.

KEEP THE ROAD.—Several accidents have happened in Markdale owing to bicyclists running on the sidewalk. Most towns have a by-law prohibiting bicycle traffic on the sidewalk. The road is the proper place for them and if cyclists persist in occupying the place intended for pedestrains our council should pass a by-law prohibiting such.

THE STANDARD FOR WHEAT.—The Millers' Association of Canada has adopted the following table to govern the price of wheat: Sixty-two pounds or over pay two cents over standard price; sixty-one pounds pay one cent over standard price; sixty pounds pay standard price; fifty-nine pounds pay one cent below standard price; fifty-seven pounds pay five cents below standard price; fifty-five pounds pay twelve cents below standard price.

THE PREMIER COMING.—The Conservative Demonstration to be held in Markdale next Thursday, Oct. 5, promises to be the largest political gathering ever held in Grey. The distinguished visitors are to arrive from Owen Sound by special train at noon when a procession will be formed headed by several brass bands and march to the Rink Hall when a reception will be given and addresses presented. An open air meeting will be held at the premises of Dr. Sproule, M. P., or in the event of unfavorable weather, in the Rink Hall.

WILL NOT MAKE BICYCLES.—The Massey-Harris Company write The Globe as follows, under date of Sept. 22:—A false rumor is current which has, we believe, found its way into the public press, to the effect that it is the intention of this company to engage in the manufacture of bicycles. Such a move has never been considered by our directors for one moment, and we are entirely at a loss to discover a foundation for the rumor. It has caused us considerable annoyance, and we will be obliged if you will publish this statement.

Holland Centre Foot-Ball Club.

Editor Standard:

Sir, your report upon the foot-ball match between the Markdale and Centre clubs could not have been reported by one of your responsible reporters.

The facts are: one of our own men in a moment of excitement kicked the ball through the goal for Markdale The second innings Markdale took the goal. I may say here that "slugging" was commenced early in the game, for a man of the Markdale club gave evidence of a viscious disposition. Name is unnecessary but the stings of a guilty conscience should be sufficient.

I know your sense of fair play. We lost the second goal because a sham-battle was raised by the Markdale men derogatory to manly conduct.

Yours truly,
WM. SEAFORTH.

A Newspaper Sensation.

COLLINGWOOD, Sept. 25.—A big sensation was created in this vicinity a couple of weeks ago by the Collingwood Bulletin's account of the case of Mr. Valentine Fisher, who has been cured of sciatica of nearly thirteen years' standing, by Dodd's kidney pills. Everyone who talks with Mr. Fisher is speedily convinced that his was a marvellous cure. The general conclusion is, that there may be more like him, who are using remedies for rheumatism, sciatica, dropsy or other diseases, but fail to obtain relief, because they do not attack the seat of the disease, which is in many of such cases, the kidneys. Anyone who doubts the efficacy of Dodd's kidney pills may soon be convinced by writing to Mr. Fisher himself, or Wm. Williams Esq., Principal of the Collingwood Collegiate Institute. Capt. F. A. Bassett, or A. H. Johnston, Esq., all of whom are well acquainted with Mr. Fisher, and know the history of his illness.

Six Drowned at Collingwood.

COLLINGWOOD, Ont., Sept. 20.—This morning about 11 o'clock the news reached town that six persons had been drowned between here and Nottawasaga River during the night. The skiff left here about 7 o'clock Tuesday evening for the river with eight persons on board. They were Walter Morris, the owner of the boat, his father, Alfred Woods, his wife and mother, William Denby sr., James Denby, son of the former, and Constable Burrell.

A few hours after leaving here the boat was struck by a squall and overturned, drowning all except Wm. Denby and the lad Burrell, who managed to reach shore about five miles from here in an exhausted condition. Mr. Denby was badly bruised and cut. Mr. Young who arrived with the news this morning stated that the bodies of Woods and Denby had been found on the beach. Chief Lewis left for the scene of the disaster about noon to-day to render what assistance he could.

Hello!

Hello central!
Hello!
Give me Markdale please?
Hello, is that Markdale?
Yes.
I want to ask if you know that great pump maker there?
O yes, everybody knows Artley the pump maker for miles around here.
Is that the fellow who drives the mules?
Yes, he drives a span of mules so people will know him better. When they see the mules they say, there's the noted pump maker coming.
Exactly; we see him driving past here two or three times a week and would like to know where he takes them all to?
Well you see it is just this way, Artley's pumps have gained a wide reputation. Where one goes more is sure to follow. They are now scattered through the six townships viz: Euphrasia, Holland, Glenelg, Artemesia, Proton and Osprey, with a few even beyond that.
Well tell me why are his pumps so universally praised and admired?
O that is easily explained. You see Artley is a natural genius, as well as a practical mechanic, consequently his pumps are made in a superior workmanlike manner. Some people have an idea that any body can make a pump. So long as it will lift water. In a sense that may be true. You can make a pump by nailing a few boards together, but it is another thing to make a pump to work easy and be durable.
I notice in last's week's STANDARD that he has been making some improvements in his pumps. Can you tell me something about them.
Well, I haven't time to explain it all to you here. You will understand that the head and the cylinder are the two important parts in a pump. He has made some important improvements in the head which you should see for yourself. He now lines the cylinder of his wood pump with a brass shell, which makes them a great deal easier to work. They will also last much longer as the cylinder is generally the first part to give out in a pump. Is there anything more you want to ask?
No, that will do this time. Thanks. Good-bye.
