FIRE SURROUNDED BY WATER AND NOT EXTINGUISHED!!

A. Wilkers' Patent Liq'd Heater for the use of Tanners, Hatters, Hotels, Farmers and others.

THIS is a New Invention, combining a great saving in fuel and labor, by which a barrel of water can be heated in the open air, or in the house as may be required, with a very small quantity of fuel, and little attention. It can be fitted to Tanners' Leachers or vats, in a fixed or portable form; and Hatters by its means will be enabled to do their boiling in a barrel or other portable vessel, and thereby be protected from heat while at work. It is admirably adapted for boiling sap in the bush, as it can be moved to any place with ease; also for heating water in Hotels, Baths, or any place where much warm water is required.

All orders addressed to the Subscriber will be thankfully received, and promptly attended to.

AMERICAN HOUSE,

HANOVER STREET, BOSTON.

THE undersigned having entirely REMODELED and ENLARGED the above extensive establishment, containing in all about three hundred and fifty rooms, would respectfully give notice that it is now ready for the reception and accommodation of the travelling community.

An extended notice of the unexampled convenience of this House is deemed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say that no expense has been spared to render any department perfect.

The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Dining-rooms, will be found to be of the most beautiful and tasteful manufacture. The Dining-rooms are capacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

Every department will be conducted in an unexceptionable manner, and the Proprietors believe himself that the American House shall be truly the Traveller's Home.
