"JINED THE ARMY."—H. J. Legard, the barber is accustomed to doing his work up slick. He keeps his shaving parlor neaty clean and respectable, and he shaves, cuts hair and sharpens razors "boss"; but he closed up shop one fine day last week and took a civic (?) holiday. It was whispered around that he was taking in a partner and was off having the writings drawn; and sure enough he had completed negotiations with Miss Annie Crowther, one of Holland Centre's fairest maidens, and on Wednesday they had the document legalized by the Rev. Mr. Husband, witnessed, signed, sealed and delivered, and now Mr. LeGard is a full fledged citizen. The STANDARD extends a welcome to Mrs. L. and congratulations and best wishes to the happy couple.

Eugenia, Aug. 26.

Fine dry warm harvest weather. Have had lots of rain the last week and all are satisfied that we have had enough.

Farmers are all busy at harvest. Peas are green on top and dry at the bottom, many of them are in bloom, they are hard to pull, but if secured without any more rain the green tops will add much to the value of the straw for fodder. Many fields of oats are being cut with the reaper in preference to cutting with the binder as the lower part of the straw is so green that if bound when cut there would be very little chance of them drying without damage.

Quite a number of our neighbors went to Winnipeg and the Northwest and have secured work at from $25 to $30 per month. As the harvest will soon be over the general feeling is that the C. P. Railroad company will get the cream in the shape of transportation money, and that many of those who went expecting to come home with full pockets will have little to boast of excepting the long ride and a good view of the country.

It is reported that two tramps with a dog took possession of our school house last night, but if they were tramps they acted decently, for the teacher reports everything in apple pie shape when he resumed his duties this morning.

If you have not been in our city lately, Mr. Editor, you will scarcely know it now, until lately we had only one store but now we have three and all very good indeed, our new hotel, is to be a commodious house, capable of accommodating our many visitors, and will be the means of inducing many more to spend a few days now and again in our picturesque and beautiful city. I dare say there is not any place which has had as great an addition to its handsome buildings in proportion to its size in Canada. At some future time we may give details, meantime we will only add that the buildings which are nearing completion are a credit to the builders and the owners, as well as an ornament to our village.

Why is This Thus?

Editor Standard:

In the minutes of Euphrasia council published in last week's Markdale STANDARD I notice that a bylaw has been passed to empower the reeve and treasurer to borrow one thousand dollars with which to meet the current expenses of the municipality until such times as the balance of the taxes for 1894 be collected. Now sir, to my mind this reveals a state of affairs which should not exist. The question naturally arises with every observing ratepayer, why has the taxes for 1894 not been all collected? It's almost time to commence collecting the rates for 1895, and there is evidently upwards of one thousand dollars of last year's rates not yet collected. To say the least there's a screw loose somewhere. A better system of management is surely wanted. I hope next week's paper will throw some light on the question.

A RATEPAYER.

Dr. Landerkin, M. P.

ONE OF THE BRIGHTEST AND CLEVEREST TALKERS ON THE LIBERAL SIDE OF THE HOUSE.

(Utica Globe, New York.)

Dr. Landerkin, M. P., for South Grey, is perhaps one of the cleverest talkers on the Liberal side of the House and is a great favorite with all members irrespective of party. His wit and ridicule is of that kind that makes everybody laugh. He is looked upon as the wit of the House and he deserves the title. His ridicule is sometimes very skillfully aimed and touches the weak spot in the armour of his adversaries much more effectually than the more vigorous tirades of some of his more aggressive confreres.

The light banter and chaff with which he so frequently amuses the house almost always has behind it a good point in the way of argument, of illustration or of principle. Dr. Landerkin is one of the old guard of 1872. For close on a quarter of a century he has shared the fortunes of the Liberal party. He certainly is one of the most assiduous representatives in the House in regard to attending strictly to his parliamentary duties. He is seldom or ever out of his seat and always on the alert to catch an opponent napping. His pointed questions and interjections during the speech of an opponent frequently have a very comical effect and are often more effective than a half dozen speeches.

Dr. Landerkin was born in Simcoe county in 1839. He taught school for one year in Wellington county. He began the study of medicine in 1859 and graduated in 1862. In 1863 he established himself in his profession in Hanover, Grey county, where he has lived ever since. Dr. Landerkin is a progressive Liberal and has done yeoman service for his party both in the House and on the stump. He is a very catchy platform prator and in great demand on the hustings throughout the province

Horse Racing at Agricultural Fairs.

(AN OFFICIAL LETTER.)

Several applications having been made to this department by various Agricultural Societies for an interpretation of section 29 of the Agricultural and Arts Acts, 1895, the following is given to the officers and directors for their guidance as being the evident intention of the legislature when passing the Act.

By sections 9 of the said Act, the object of such societies, as relating to live stock, is confined to two things, (a) the purchase or importation of valuable animals, (b) awarding premiums for excellence in the raising of stock, etc. Sub-section 3 declares that none of the funds shall be expended for any purpose inconsistent with the above.

The opinion of the Legislature, as expressed in section 29, was that horse racing as ordinarily conducted is inconsistent with the objects above set forth. It is presumed, therefore, in awarding premiums for light horses of any class, that form, soundness and style shall always be considered as well as speed, and that no horse shall be placed for speed alone. If in the judgement of the officers or judges it is deemed desirable to test the speed of the contesting horses, it is allowable under this clause to do so, but the prize must in every case be awarded on general excellence as seen in the above characteristics. It is not intended that purses shall be offered, made-up of deposits or entry fees from owners of contesting horses, but that premiums shall be offered in the ordinary way.

The operation of this clause will do away with the professional race horse at our agricultural shows, and tend to promote the developement and encourage the breeding of sound, stylish-right stepping horses, so much in demand in the great horsemarkets of the world.

It is hoped therefore that directors of Agricultural Societies will rigidly and cheerfully enforce the regulation as thus set forth.

JOHN DRYDEN,
Minister of Agriculture.

EXTRACT—THE AGRICULTURAL AND ARTS ACT, 1895.

Sec.-(1) It shall not be lawful to carry on any horse racing other than trials of speed under the control and regulation of the officers of the society during the days appointed for holding the exhibition or within five miles thereof.

(2) Any person who is guilty of a violation of this section shall be liable, upon summary conviction before a justice of the peace, to a fine not exceeding $50 or imprisonment in the common jail of the county for a period not exceeding thirty days.

THE correct place to get horse shoeing done is W. D. McLaren's, Markdale.
