No part of a local paper is perused with more general interest than the personal column, and yet it frequently falls short of what it might be if subscribers would take the trouble to hand in or send by mail personal items which they know of. All are invited to contribute to this department.

ON Wednesday of last week the boilers in the building of the Detroit Journal exploded, and wrecked the building. All the employees, including a number of girls in the bindery department were carried down into the ruins. It took several days to clear away the debris. Thirty-seven dead bodies were found besides several persons being seriously wounded.

BRIGHTEST BOYS READ NEWSPAPERS.—A newspaper is always printed in a rush. There is always something in it that should have been left out, something left out that should have been put in. It is sometimes too quick to act; but with all its faults and shortcomings there is more education in a bright, newsy paper, than there is in a novel. You will find the brightest boy on practical, sensible, everyday questions is the boy who reads the newspapers.

THEY ARE LOYAL.—No Markdale business man need send to Toronto or elsewhere for his printing in order to procure a good class of work, low prices, or despatch in having his order filled. They don't do it, either, because they have learned by experience that the STANDARD office is amply capable of giving entire satisfaction in all these respects. Our type and presses are the best that can be purchased and all in prime condition, and then we make it a point to use a high grade of both paper and ink, as well as to keep first class mechanics. Along with these a supreme desire to give satisfaction has convinced all that they can afford to be loyal to home enterprise.

MANITOBA WHEAT.—Stock fodder is decidedly scarce, but Angus Plewes of Markdale Victor Roller Mill is determined that there will be no famine for flour and has just received ten thousand bushels of Manitoba hard wheat, a train of sixteen cars. This is commendable enterprise.

THREE preachers met on the street in Shelburne not long ago and were discussing things in general. One remarked that he thought ministers ought to be humble and poor. ON the 16th of November 1838, fifty-seven years ago next Saturday, the battle of the wind mill (Mackenzie Rebellion) was fought near Prescott, and Mr. William Murphy, now a resident of Markdale, was in the engagement. The old gentleman is now in his 81st year, is hale and hearty, and full of his orical events which he delights in relating.

IT was remarkable co-incidence that the death of Mr. Alex. Beaton, of Glenelg, which happened on Saturday morning last, took place on the 42nd anniversary of his wedding day. Mr. Beaton was the first settler in the Pomona section, Mr. Neil Black follwing shortly afterwards, and through the vicissitudes of pioneering they remained staunch friends. The farm which the deceased first took up and upon which he lived to his last, is now regarded as one of the best in the township. The very largely attended funeral on Tuesday was evidence of the esteem in which Mr. Beaton and family are regarded.—Durham Chronicle.

## A Popular Weekly.

Among Canadian newspapers the commanding position occupied by The Toronto Globe is universally acknowledged. In enterprise it is unrivalled, as a news distributor it has no equal, as a leader of public opinion it exercises an influence that is felt from one end of the Dominion to the other. The Weekly Globe, with its varied departments—agricultural, commercial, serial stories, cable and general news, editorial and special articles—makes a most excellent home paper, and is deservedly popular in all parts of the country.

Mr. and Mrs. Robt. Smith of South Bentinck has for a few days been renewing old acquaintance around our burg. We would like to enlarge but must not trespass on West Berkeley.

## A Gossipy Week.

Markdale citizens have been furnished with abundance of food for gossip the past week. First came the decision of the school trustees re a staff of teachers for 1896. The pro's and con's of the decision were freely discussed, and of course every ratepayer knew much better how such questions should be settled than the people's representatives. Then came a case of

HORSE TRADING.

It appears that Jack Pilkey of Glenelg traded horses with Charlie Pickell, and when Charlie's father learned of it he had Pilkey arrested for trading with a minor and brought before a bench of magistrates who threw out the case, and now, we understand, Pilkey has entered a counter charge for defamation of character, placing damages at one thousand dollars. Then on Thursday a real sensation was experienced. A farmer named McNaughton, of St. Vincent, lost a heifer and traced it to Markdale, and after making enquiries found that Mr. Wm. Milson, a prominent farmer of Euphrasia, had disposed of beef in town, and the hide, (upon which he had his private brand) was found at the tannery, which had also been purchased same day from Mr. Milson, who had not yet left for home. He was at once interviewed, and claimed that he had lost a similar beast and supposed it was his own property, but promptly paid Mr. McNaughton for the animal.

## An Apology.

To R. JAMIESON,
Markdale.

DEAR SIR,—I regret that any words of mine spoken to you or any one else should have been considered by any to mean I made any charge of forgery against you. I certainly never intended to make any such charge or any charge which in any way reflects upon your character.

ANDREW WALKER.

The above is the written apology accepted by Mr. R. Jamieson from Mr. Andrew Walker in reference to certain charges alleged to have been made by Walker against Jamieson.

## Walter's Falls.

Mr. John Murray has just received an agency for most of the county of Grey to sell the Aergiant all steel, all galvanized wheel tower mills, also the double action force pump, for hand power and wind mill use, made by Anderson of Aylmer, Ont. Mr. Murray deserves to do well as he is an honest man and a man any person can depend on for upright dealing. These articles are well recommended by a large number of persons who have them in use.

Don't forget our monthly fair, it takes place Saturday the 16th inst. Bring out your cattle if you wish to sell them.

Mr. Samuel Marshall and Richard Quinton have just finished threshing for this season. Notwithstanding the light crops, they have done almost as big a business as other years. They have done more than any two machines in this neighborhood. This speaks well for them.

Mr. G. Leach our hotelkeeper, leaves our town for Owen Sound on Monday next.

Mr. Hiram Bonnell of the Dairy line was in town on business on Monday.

Joe is feeling jubilant at present. His wife presented him with a fine daughter one day last week.

Mr. Donald Cameron died last Thursday morning.

Mr. Wm. Conkey and family left for Guelph last Monday, where they will reside.

Mr. R. McGowan has rented Mr. Wm. Conkey's house and lot and will move his family shortly from Oakville.

Mr. Richard Parslow of Proton was visiting at his daughter's Mrs. W. J. Blakeston last week.

Last week a woman was around asking assistance, stating that her husband was in the hospital and had to have his leg taken off but was afterwards seen in the company of a man, who had been sitting around on the hills until the woman made the circuit of the village. He was seen by Mayor Scott and others and the Mayor thought it his duty to follow the parties for some time. He says they were suspicious looking characters and should be arrested for imposing on the public. The man ran across some vacant lots and jumped fences and other suspicious acts when he noticed that he was being followed.

Master Jas. Tryon went to Petroit last week to visit friends and to recruit after his long illness.
