THE ONLY TRUE RESTORATIVE TO HEALTH
DR. CORBETT'S HIGHLY CONCENTRATED SHAKER SYRUP OF SARSAPARILLA.

This singularly efficacious medicine, by its astonishing cures, is daily winning for itself the highest testimonials from the ablest Physicians and Chemists in this country.

It is used by the Medical Faculty very generally, in their practice; and by permission of one who has prescribed it with continued success, we publish the following statement of cure, so that those who are suffering may

READ, AND BE HEALED.

In the Autumn of 1848, I commenced taking "Corbett's Shaker Syrup of Sarsaparilla," having been previously much debilitated and reduced in health and strength, and left with a bad cough. My blood was very much diseased, and I was troubled with a scrofulous affection. My limbs and joints were swollen and very lame. After taking six bottles, my health was restored. My cough, lameness and pain have been entirely removed, and I have gained twenty-three pounds since I commenced taking the Syrup.

I know the Syrup is the sole cause of my restoration, and that it is the most valuable medicine I ever used it as a sovereign remedy for all equivocal diseases of the blood, &c.

The National School Books.
NEW EDITIONS.
ARMOUR & RAMSAY.

THE Subscribers, in publishing new editions of the National Series, Series, beg leave to return their most grateful acknowledgements for the liberal patronage which has been extended by all classes of the community to their publications. The rapidity with which the previous Editions were disposed of, evinces in the most satisfactory and decided manner, that the publishers did not miscalculate, when they reckoned with the most entire confidence upon the intrinsic merits of these Books securing for themselves the countenance and favor of the inhabitants of British America.

The Series consists of the following Books, all of which are printed on substantial paper, in a clear type, and strongly bound with linen:—

A. B. C. and Figures, on sheets to be hung up.
General Lessons, to hang up in schools.
The First Book of Lessons.
The Second Book of Lessons.
The Sequel to the Second Book.
The Third Book of Lessons.
The Fourth Book of Lessons.
The Fifth Book of Lessons, just published from new stereotype plates.
The first Book of Arithmetic.
Key to ditto.
An English Grammar.
Key to ditto.
A Treatise on Book-Keeping.
Key to ditto.
A Treatise on Mensuration.
Appendix to the Mensuration for the use of Teachers.
An Introduction to Geography and History, by Professor Sullivan, with several Maps.
Elements of Geometry.
Lessons on the Truth of Christianity.

These Books form a complete system of education, and they who have been scarcely taught by them, may be considered as perfectly well qualified to enter upon the pursuits of active life, and to have acquired a fund of preliminary knowledge amply sufficient to enable them to prosecute the study of the most important branches of human knowledge with profit and ease. The Lessons contained in the reading Books, rise in importance, from the first to the last; and they possess to a very distinguishing and characteristic mark, that, during the whole time the pupil is engaged in learning to read, he is at the same time acquiring a knowledge of sound moral principles, and of a vast number of important facts, in History, Literature, and Science. The Treatises on Arithmetic, Grammar, Book-Keeping, Geometry, Mensuration, Geography and History, are unequalled, certainly unsurpassed, in the English language. The rules which they contain, are so simple, yet so comprehensive; so clear, yet so profound; that the pupil who has once become thoroughly acquainted with them, can experience no difficulty, in applying to every case which can be presented to his notice. That the Series of School Books should be possessed of so many and such undoubted merits, is not wonderful, when it is considered, that it has emanated from an learned and so dignified a body, as the National Board of Education of Ireland—a body which numbers among its members, some of the highest names of which the British Empire can boast for virtue and learning. In the Lessons which these Books contain, there is nothing sectarian, and hence, they have received the most unequivocal expression of approbation, from men in every rank of society, and who maintain the most opposite and widely differing forms of belief. The late estimable Governor General, Lord Metcalfe, when the publishers originally issued their edition, lent them the influence of his authority and name, and they have been sanctioned by the Bishops of the Roman Catholic Church, by an equally influential Clergymen of the Church of England, by the Synod of the Church of Scotland, by Clergymen in connection with the Methodist, Baptist, Congregational, and other Churches, by the Municipal Councils of many Districts, by a great number of Teachers, by the Chief Superintendents of Education in Eastern and Western Canada, and so far as the Subscribers have yet been informed, by all the District and Township Superintendents in the Western section of the Province, and they have been declared in the most sympathic manner by the Edinburgh Review, "to be the very best books of the kind in the English language."

The National School Books are now so generally used and so universally known that little need be said respecting them. For the information, however, of such as from long use of others have not yet adopted these publications, the Publishers submit the following recommendations selected from a great variety of others with which they were favored when they commenced the publication.
