AMERICAN HOUSE,
HANOVER STREET, BOSTON,

THE undersigned having entirely Repaired and Enlarged the above ... establishment, containing in all about three hundred and fifty rooms, respectfully give notice that it is now ready for the reception and accommodation of the travelling community.

An extended notice of the unsurpassed appointments of this House is deemed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say that no expense has been spared to render any apartment perfect.

The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawing-rooms, will be found to be of the most beautiful and tasteful manufacture. The Dining-rooms are capacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

Every department will be conducted in an unexceptionable manner, and the Proprietors venture to hope the Travellers' Home shall be truly the Travellers' Home.

THE ONLY TRUE RESTORATIVE TO HEALTH.

DR. CORBETT'S HIGHLY CONCENTRATED SHAKER SYRUP OF SARSAPARILLA.

This singularly efficacious medicine, by its astonishing cures, is daily winning for itself the highest testimonials from the abject Pilgrimage and Cheasers in this country.

It is used by the Medical Faculty very generally, in their practice; and by persons of rank who have prescribed it with continued success, we publish the following statement of cure, so that those who are suffering may

READ, AND BE HEALED.

In the Autumn of 1848, I commenced taking "Corbett's Shaker Syrup of Sarsaparilla," having been previously much debilitated and reduced in health and strength, and left with a bad cough My blood was very much diseased, and I was troubled with a scrofulous affection. My limbs and joints were swollen and very lame. After taking six bottles, my health was restored. My cough, lameness and pain have been entirely removed, and I have gained twenty-three pounds since I commenced taking the Syrup.

I know this Syrup is the sole cause of my restoration, and that it is a most valuable medicine. I recommend it as a sovereign remedy for all impurities of the blood, &c.

The National School Books.
NEW EDITIONS.
ARMOUR & RAMSAY.

THE Subscribers, in publishing new editions of the National Series, feel they have to return their most grateful acknowledgements for the liberal patronage which has been extended by all classes of the Community to their publications. The rapidity with which the previous Editions were disposed of, evinces in the most satisfactory and decided manner, that the publishers did not miscalculate, when they reckoned with the most entire confidence upon the intrinsic merits of these Books securing for themselves the confidence and favor of the inhabitants of British America.

The Series consists of the following Books, all of which are printed on substantial paper, in a clear type, and strongly bound with linen:—

A, B, C and Figures, on sheets to be hung up.
General Lessons, to hang up in schools.
The First Book of Lessons.
The Second Book of Lessons.
The Sequel to the Second Book.
The Third Book of Lessons.
The Fourth Book of Lessons.
The Fifth Book of Lessons, just published from new stereotype plates.
The first Book of Arithmetic.

Key to ditto.
A Treatise on Mensuration.
Appendix to the Mensuration for the use of Teachers.
An Introduction to Geography and History, by Professor Sullivan, with several Maps.
Elements of Geometry.
Lessons on the Truth of Christianity.

These Books form a complete system of education, and they wonderfully have been generally taught by them, may be considered as perfectly well qualified to enter upon the pursuits of active life, and to have acquired a fund of preliminary knowledge amply sufficient to enable them to proceed to the study of the most important branches of human knowledge with profit and ease. The Lessons contained in the reading Books, are in superior style, from the first to the last; and they possess a very distinguishing and characteristic merit, that, during the whole time the pupil is engaged in learning to read, he is at the same time acquiring a knowledge of sound moral principles, and of a vast number of important facts, in History, Literature, and Science. The Primitive Arithmetic, Grammar, Book-Keeping, Geometry, Mensuration, Geography and History, are unequalled, certainly unsurpassed, in the English language. The rules which they contain, are simple, yet as comprehensive; so clear, yet so permanent; that the pupil who has once become thoroughly acquainted with them, can experience no difficulty, in applying to every case which can be presented to his notice. That this Series of School Books should be considered as many and such undoubted as we do, is not wonderful, when it is considered, that it has emanated from so learned and so dignified a body, as the National Board of Education of Ireland—a body which numbers among its members, some of the highest names of which the British Empire can boast for virtue and learning. In the Lessons which these Books contain, there is nothing sectarian, and hence, they have received the most unequivocal expressions of approbation, from men in every rank of society, and who maintain the most opposite and widely differing forms of belief. The late estimable Governor General, Lord Metcalfe, when the publishers originally issued their edition, lent them the influence of his authority and name, and they have been sanctioned by the Bishops of the Roman Catholic Church, by many influential Clergymen of the Church of England, by the Synod of the Church of Scotland, by Clergymen in connection with the Methodist, Baptist, Congregational, and other Churches, by the Municipal Councils of many Districts, by a great number of Teachers, by the Chief Superintendents of Education in Eastern and Western Canada, and so far as the Subscribers have yet been informed, by all the District and Township Superintendents in the Western section of the Province, and they have been declared in the most emphatic manner by the Edinburgh Review, to be the very best books of the kind in the English language.

The National School Books are now so generally used and so universally known that little need be said respecting them. For the information, however, of such as have long use of them have not yet adopted these publications, the Publishers submit the following recommendations selected from a great variety of others with which they were favored when they commenced the publication.

EDUCATION OFFICE, DUBLIN.

Gentlemen,—Having laid before the Commissioners of National Education your letter of the 25th instant, enclosing "Copies of various Certificates in favor of the School Books published by the Board," with the perusal of which they were much gratified, we are directed to inform you that you have the sanction and authority of the Commissioners for printing for the use of Schools in Canada, such of the Irish National School Books as you may think fit.

We are to state further, that those books are in use not only with National Schools of this country, but have a very extensive circulation in England and Scotland—they have been besides translated into several of the Continental languages.

EDUCATIONAL OFFICE, C. W.

Gentlemen,—I Rejoice to learn that you have commenced reprinting for the use of Schools in Canada, the series of admirable School Books which the Government commissioners, headed by the Protestant and Roman Catholic Archbishops of Dublin have published for the National schools of Ireland. These books have been prepared under the auspices of men of great learning and experience, and are remarkable for elegance and simplicity, rhetorical correctness and comprehensiveness of definition and arrangement.

I have been informed by the Government to give my attention to the preparation and selection of books to be recommended for general use in the Common Schools of Canada West. I am glad that you are so far, so spontaneously, with and anticipated me, as to have already commenced the reprinting of a set of books both superior and cheaper than most of those used in our Common Schools. Nor am I certain that I shall be able to do better than recommend to general and permanent use in our Schools, some of the elementary books which you are reprinting.

Canada is already and is likely to be still more deeply indebted to your enterprise for an improved set of School Maps and Books. I wish you the most extensive success in your laudable endeavours to improve the most inefficient department of our Government—the Common Schools of Canada.

I have the honor to be, &c.,
EGERTON RYERSON.

From the Rev. Mr. Cable, Rector of the High School, Quebec.

I have long known the Books published for the use of the Irish National Schools under the superintendence of the Commissioners of Education, having seen them extensively used in England both in private families and in public institutions; and so well do they seem to be adapted to the purposes for which they were compiled, that I must consider any effort made to extend their circulation, as deserving of the patronage and encouragement of all classes of the community.

Rev. JOHN CABLE,
Rector of the High School, Quebec.

VII

From the Rev. Dr. W. Lyon Johnson, of Christ's Church, Montreal.

I am well acquainted with the Books published and used by the Commissioners of National Education in Ireland.

They have held the very highest place in my estimation since I witnessed the beneficial effects of their first introduction into Public Schools and private families, in that country.

I have used them in the instruction of my own children, and have repeatedly urged upon members of the Provincial Government the expediency of reprinting them for Educational purposes in Canada.

Messrs. Armour & Ramsay having undertaken to reproduce them in a form calculated for general circulation in this Province, I consider them as entitled to the generous support of every one who is desirous to spread abroad the blessings of Education, and as deserving of the sincerest gratitude of all who have the welfare of the Province at heart.

W. LYON JOHNSON,
Chaplain Legislative Council, Assistant Minister of Christ's Church.

VIII

From the Rev. Henry Wilkes, A. M., Montreal.

Gentlemen,—I rejoice to have of the information you have done me the favour to communicate that you are entertaining the idea of undertaking the reproduction of the Education Works of the Irish National Board, for the use of the Public Schools in Canada. It appears to me that the importance of having an uniform series of Elementary works of British authorship, for the training to be given in our Schools, cannot fail to strike every mind. The machinery necessary in public Education can be worked to better purpose, if it be understood precisely what works are employed for the purpose of training throughout all the Public Schools; while the test of inspection is thereby lessened, and its efficiency augmented. The frequent removal of the pupils with their parents, which, in a population like ours must continue to be a common occurrence, would not operate to disadvantage nearly to the progress of such pupils if the Books employed in Education were uniform.

In regard to the excellence of the Series in the press, I presume little can be. They have, well sustained the application of tests more than usually rigid, and they have unusedly rigid, and they have unusedly passed an unspeakable blessing to Ireland. Without being minutely acquainted with them all, but having somewhat carefully examined several of them, my opinion is, that their introduction into all our Public Schools could not fail to be a national benefit. Next to a sufficient supply of good Teachers, good books are a desideratum in the Country; it is matter for congratulation that you are about to supply the want.

Without being any way authorized to express the sentiments of the religious body with which I have the honor to be connected, yet I may be permitted to state that from my knowledge of the general sentiments of the Pastors, I have no doubt but that the Series will meet with an enlightened and cordial reception among them.

I am, Gentlemen, yours respectfully,
HENRY WILKES.
St. Antoine Street.

IX

From the Reverend J. M. Cramp, President of the Baptist College.

Gentlemen—It gives me great pleasure to learn that you are about to publish a selection from the Irish National School Lessons, for the use of Educational Institutions in Canada. I have been long acquainted with them in Ireland and value them much. They have been used in my own family which manifest advantage.

It is the peculiar excellence of this Series of Lessons, that it is a storehouse of facts and truths with which all ought to be acquainted. Formerly, children were taught words rather than things; these Lessons teach things rather than words. The information they contain is highly interesting and instructive, and the style in distinguished for perspicuity.

In addition to these commendations, it is to be observed that there is an entire freedom from all sectarian bias. Christians of every persuasion may place these volumes in the hands of their children without the slightest fear of mingling in the earliest state of society in Canada.

I earnestly hope that this enterprise will be attended with abundant success, and shall be happy to see it.

I am, gentlemen, your obedient servant,
J. M. CRAMP.
