National School Books.

NEW EDITIONS.

ARMOUR & RAMSAY,

THE Subscribers, in publishing new editions of the National Series, Books long been from their merit received universal favour in the liberal patronage which has been extended by all classes of the community to their publications. The rapidity with which the previous Editions were disposed of, evinces in the most satisfactory and decided manner, that the publishers did not overestimate, when they reckoned with the most positive confidence upon the intrinsic merits of these Books securing for themselves the approbation and love of the inhabitants of British America.

The Series consists of the following Books, all of which are printed on substantial paper, in a clear type, and strongly bound with linen:—

A, B C and Figures, on sheets to be hung up.
General Lessons, to hang up in schools.
The First Book of Lessons.
The Second Book of Lessons.
The Sequel to the Second Book.
The Third Book of Lessons.
The Fourth Book of Lessons.
The Fifth Book of Lessons, just published from new stereotype plates.
The Sixth Book of Arithmetic.
Key to ditto.
An English Grammar.
Key to ditto.
A Treatise on Book-Keeping.
Key to ditto.
A Treatise on Mensuration.
Appendix to the Mensuration for the use of Teachers.
An Introduction to Geography and History, by Professor Sullivan, with several Maps.
Elements of Geometry.
Lessons on the Truth of Christianity.

These Books form a complete system of education, and they who have been scarcely taught by them, may be considered as perfectly well qualified to enter upon the pursuits of active life, and to have acquired a fund of preliminary knowledge amply sufficient to enable them to prosecute the study of the most important branches of human knowledge with profit and ease. The Lessons contained in the reading Books, rise in importance, from the first to the last: and they possess a very distinguishing and characteristic merit, that, during the whole time the pupil is engaged in learning to read, he is at the same time acquiring a knowledge of sound moral principles, and of a vast number of important facts, in History, Literature, and Science. The Treatises on Arithmetic, Grammar, Book-Keeping, Geometry, Mensuration, Geography and History, are unequalled, certainly unsurpassed, in the English language. The rules which they contain, are so simple, yet so comprehensive; so clear, yet so profound; that the pupil who has once become thoroughly acquainted with them, can experience no difficulty, in applying to every case which can be presented to his notice. That this Series of School Books should be preferred to so many and such undoubted as are, if not unlearned, where it is considered, that it has emanated from no private, or disjointed body, as the National Board of Education of Ireland—a Board which numbers among its members, some of the highest names in which the British Empire can boast for a love and learning. In the Lessons which these Books contain, there is nothing sectarian, and hence, they have received the most unequivocal approbation, from men in every rank of society, and who maintain the most opposite and widely differing forms of belief. The late amiable Governor General, Lord Metcalfe, when the public Schools originally assumed their existence, lent them the influence of his authority and name, and they have been sanctioned by the Bishops of the Roman Catholic Church, by many influential Clergymen of the Church of England, by the Synod of the Church of Scotland, by Clergymen in connection with the Methodist, Baptist, Congregational, and other Churches, by the Municipal Councils of many Districts, by a great number of Teachers, by the Chief Superintendents of Education in Eastern and Western Canada, and so far as the Subscribers know yet have unknown, by all the District and Township Superintendents in the Western section of the Province, and they have been declared in the most emphatic manner, by the Edinburgh Review, "to be the very best books of the kind in the English language."

The National School Books are now so generally used and so universally known that little need be said respecting them. For the information, however, of such as from long use of other books, have not yet adopted these publications, the Publishers submit the following testimonials received from a great variety of others with which they were favoured when they commenced the publication.

Education Office, Dublin

Gentlemen,—Having laid before the Commissioners of National Education your letter of the 25th instant, enclosing Copies of various works published in lieu of the School Books published by the Board; with the favourable which they were much gratified, we are directed to inform you that you have the sanction and authority of the Commissioners for publishing for the use of Schools in Canada, copies of the Irish National School Books, as you may think fit.

We are to add, in reply to your inquiry, that these Books are not properly such National Schools of this country, but have a very extensive circulation in England and Ireland; they have been translated into several of the continental languages.

Messrs. Armour & Ramsay, Montreal. — Marcus Cleave, James Kelly, Secretaries.

I

Private Secretary's Office, Montreal.

Gentlemen,—I am commanded by the Governor General to acknowledge the receipt of your letter, and to inform you in reply, that His Excellency will be very glad to have his name so enrolled in the number you propose, with an expressing which he considers to be indeed a public benefit, and His Excellency also desires me to say, that it will give him pleasure to aid the work in which you are engaged, by any means in his power.

I have the honor to be, J. M. Higginson.
Messrs. Armour & Ramsay, Montreal.

The publishers were permitted to insert the following on the books:—

In behalf of the Roman Catholic Church "Approbatur ab Superiores Ecclesiasticos."

III

From the Synod of the Presbyterian Church in connexion with the Church of Scotland.

"The Committee reported that they had carefully examined the following School Books which Messrs. Armour & Ramsay proposed to reprint, viz.—

(Here followed a list of the Books.)

and that they considered the Books extremely well adapted to facilitate the various branches of Education to which they refer. Whereupon the Synod agreed heartily to recommend these School Books to the notice of Parents and Teachers, and all others who feel an interest in the mental improvement of the youth of this country, or who exercise an influence over their education."

Andrew Bell, Synod Clerk.

From the Superintendent of Education for Canada West.

Educational Office, C. W.

Gentlemen,—I believe to learn that you have commenced reprinting for the use of Schools in Canada, the series of admirable School Books which the Government commissioners—headed by the Protestant and Roman Catholic Archbishops of Dublin have published for the National schools of Ireland. These books have been prepared under the auspices of men of great learning and experience, and are remarkable for adaption and an simplicity, clearness and comprehensiveness of definition and arrangement.

I have been induced by the Government to give my attention to the preparation and selection of books to be recommended for general use in the Common Schools of Canada West. I am glad that you are so far co-operating with and anticipated me, as to have already commenced the reprinting of a set of books both so good and cheaper than most of those used in our Common Schools. Not am I certain that I shall be able to do better than recommend to general use in our Schools, some of the elementary books which you are reprinting.

Canada is already and is likely to be still more deeply indebted to your enterprise for an improved set of School Maps and Books. I wish you the most extensive success in your laudable endeavours to improve the most inefficient department of our Government—the Common Schools of Canada.

I have the honor to be, &c.,
Egerton Ryerson.

VI

From the Rev. Mr. Cockin, Rector of the High School, Quebec.

I have long known the Books published for the use of the Irish National Schools under the superintendence of the Commissioners of Education, having seen them extensively used in England both in private families and in public institutions; and as well as they seem to be adapted to the purposes for which they were compiled, that I must consider any effort made to extend their circulation, as deserving of the patronage and encouragement of all classes of the community.

Rev. John Cockin,
Rector of the High School, Quebec.

VII

From the Rev. Dr. W. Agar Adamson, of Christ's Church, Montreal.

I am well acquainted with the Books published and used by the Commissioners of National Education in Ireland.

They have held the very highest place in my estimation since I witnessed the beneficial effects of their first introduction into Public Schools and private families, in that country.

I have used them in the instruction of my own children, and have repeatedly urged upon members of the Provincial Government the expediency of reprinting them for Educational purposes in Canada.

Messrs. Armour & Ramsay having undertaken to carry the work in a form calculated for general circulation in this Province, I consider them as entitled to the generous support of every one who is desirous to spread abroad the blessings of Education, and as deserving of the sincerest gratitude of all who have the welfare of the Province at heart.

W. Agar Adamson,
Chaplain Legislative Council, Assistant Minister of Christ's Church.

VIII

From the Rev. Henry Wilkes, A. M., Montreal Gentlemen,—I rejoice to hear of the information you have done me the favour to communicate that you are reprinting books in regard to the question of the Education Works of the Irish National Board, for the use of the Public Schools in Canada. It appears to me that the importance of having an uniform series of Elementary works of British authorship, for the training to be given in our Schools, cannot fail to strike every mind. The machinery needful in public Education can be worked to better purpose if no understand necessarily what works are employed for the purpose of training throughout all the Public Schools, while the tool of inspection is thereby lessened, and its efficiency augmented. The frequent removal of the pupils with their parents, which, in a population like ours must continue to be a common occurrence, would not operate so disadvantageously to the progress of such pupils; if the Books employed in Education were uniform.

In regard to the excellence of the Series in the room, I presume little may be. They have well sustained the application of tests more than usually rigid, and they have assuredly rigid, and they have assuredly proved an unspeakable blessing to Ireland. Without being minutely acquainted with them all, but having somewhat carefully examined several of them, my opinion is, that their introduction into all our Public Schools would not fail to be a national benefit. Nor is a uniform supply of good Teachers, good books a disadvantage in the Colony; it is matter for congratulation that you are about to supply the want.

Without being any way authorized to speak in most sacred of the religious body with which I have the honor to be so nearly allied, yet I may be permitted to say that from my knowledge of the general sentiments of the Parents, I have no doubt but that the Series will meet with an enthusiastic and cordial reception among them.

I am, Gentlemen, Faithfully and respectfully,
St. Antoine Street. Henry Wilkes.

IX

From the Reverend J. M. Cramp, President of the Baptist College.

Gentlemen,—It gives me great pleasure to hear that you are about to publish a selection from the Irish National School Books for the use of Educational Establishments in Canada. I have been long acquainted with these books and value them much. They have been used in my own family which speaks advantage.

It is the greatest excellence of the Series of Lessons, that it is a collection of facts and truths with which all ought to be acquainted. Formerly children were taught words rather than things. Other lessons teach things rather than words. The information they contain is higher, more comprehensive and instructive, and the style is the most adapted for composition.

In addition to these considerations, it can be whispered that there is an entire freedom from all sectarian bias. Christians of every persuasion may share these volumes in the hands of their children without the slightest fear of mingling on the opening mind of infancy in Canada.

I sincerely hope that this enterprise will be attended with abundant success, and shall be happy I am, gentlemen, your obedient servant.

J. M. Cramp.

LATIN CLASSICS.

Cheap Cabinet Editions for Colleges and Schools

THE success which attended the experiment to introduce and enable uniform the Books used in the Common Schools of Canada, as set forth in the ensuing advertisement, emboldened the Subscribers to undertake the publication of the Classical series now advanced for the use of Colleges, High Schools, Districts and Grammar Schools.

The numbers of the series consist of the following:

Excerpts from Cornelius Nepos 1s 6d.
The First Four Books of Cæsar. 1s 3d.
The Third and Fourth Books of Quintus Curtius 1s 3d.
Cicero de Amicitia. 1s.
Cicero de Senectute.
Tacitus Agricola. 9d.
The Georgics of Virgil. 1s 6d.
The Fasti of Ovid. 1s 6d.
The Odes of Horace. 1s. 3d.
The Three First Books of Æneid. 1s 6d.

On the above can be had handsomely bound in two vols., price 6s. 3d. for the Prose and 3s. 6d for the Poetry.

We rejoice at this noble attempt to facilitate the studies of the Classics in Canada by reducing the expense of procuring those portions of them which are used in the Schools. The cheapness, convenience and excellence of this series of Classical Texts cannot fail to secure their introduction and use in our Grammar Schools and Colleges. Messrs Armour & Ramsay have been the pioneer Publishers of our best series of Common School Books and they are now laying the country under additional obligations by these excellent reprints of Classical School Books. We hope to see the day when Canada will rejoice in its own printed Classicals, as not an general literature, as we now do to some extent, and we hope will to a much greater extent, in its own literary men.—Journal of Education, Toronto

Orders will be executed by the Booksellers throughout Canada, or by the Publishers.

BRITANNIA LIFE ASSURANCE COMPANY,

No. 1 Princes Street, Bank, London.

CAPITAL, ONE MILLION.

EMPOWERED BY SPECIAL ACT OF PARLIAMENT 4 Vic. Cap. 8.

THE great success of this Institution in Europe and the numerous Policies, issued by the different Agencies in Canada, evidently show that the advantages of Life Assurance are daily becoming more and more appreciated by those who feel the necessity of making some provision for their families, or securing the amount of debts due by or to them in case of premature death. The rates of the Britannia are the lowest which can be offered consistently, with security to the Assured, and the subscriber begs respectfully to invite the attention of the inhabitants of Kingston to the numerous Tables of Rates, specimens of which may be seen at his office.

The income of the Company, independently of the large subscribed Capital, is between Eighty and Ninety Thousand Pounds, Sterling, per Annum, and of this the greatest part is continually accumulating for the payment of losses.

A party effecting an Assurance with this Company, may do so for a fixed sum, payable at his or her death, without participating in the profits, and thereby secure an immediate fixture by not paying more than is absolutely required to provide for the risk—but if participation in profits is preferred by any party, there are "Mutual Tables" adopted by the Company, which offer an annual division of the Profits, and which being supported by the other Branch of the Institution, hold out a very safe and profitable inducement to the person wishing to Assure.

All claims payable within three months after proof of death. No proof of birth is required at the time a claim is made; the age of the Assured being, in every case, admitted in the Policy, unless, under any circumstances be afterwards called in question. Policies effected by parties on their own lives are not forfeited and in case of death by duelling or the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide Creditor, the sum assured will be paid without deduction; if the Policy be not assigned, the full amount of Premiums received thereon will be returned to the family of the Assured.

The necessary forms, and every requisite information, as to the mode of effecting Assurances, may be obtained either by letter or personal application to

THE CANADA LIFE ASSURANCE COMPANY,

Incorporated by Act of Parliament.

THIS COMPANY is prepared to grant Assurances on Lives, whether single or joint, to sell Annuities, to grant Endowments and to transact all business in which the risk of Life is concerned.

Tables have been expressly calculated from the most accurate data; and the Company's resources, from its small expenditure, and the high rate of interest that it is expected to realize in Canada, to offer terms of Assurance much more favorable than the usual rate of interest attainable on investment by British Companies and their generally large expenditure can with any regard to safety admit of.

An annual statement of its receipts and expenditure is annually published by the Company and forwarded to all who may be interested.

Of no other Life Assurance Company can it be said that it invests all its funds in Canada, and that it does not consequently contribute to the immense sum of money which is yearly sent out of the Province to pay British or Foreign Companies for that, to which (in this instance at least) neither Great Britain nor the neighboring States can fairly offer competition.

To parties who may at any time feel disinclined or unable to continue the payment of their premiums, this Company will grant Policies, payable at death, fairly representative of the value of such payments as they may have been made, & to further engages to purchase policies for an equitable consideration after five or more full premiums have been paid thereon.

Three-fourths of the profits realized in the Mutual Branch are yearly divided amongst the policy holders thus assured.

A peculiar feature of the Company is, that it is not desirous to make profits by lapsed Policies.

Tables of Rates, forms of proposal, and all other information may be obtained at the Head Office and Agencies.
