Dying by Slow Degrees.

Although not always aware of it, yet thousans die by slow degrees of catarrh. It first attacks the nose or throat, then the lungs, and finally spredds all thru the system. Catarrhozone is the only remedy that will immediately prevent the spread of this awful disease. Every breath from the inhaler kills thousands of germs, cleans the throat and nose, aids expectoration and relieves the pain across the eyes. Catarrhozone eradicates every vestage of Catarrh from the system, and is highly recommended also for Bronchitis, Asthma, Deafness and Lung Trouble. Price $1.00; trial size, 25 cents, all druggists or Polson & Co., Kingston, Ont. Dr. Hamilton's Pills cure Billiousness.

Warning.

Notice is hereby given that legal proceedings will be taken against any person who in any way encourages or induces Philip H. Walter, a person of unsound mind, to leave or remain away from his home with the undersigned on lot 10, con. 20, Euphrasia. Dated this 30th day of March, 1902.

John T. Walter.

Grey Farmers' Institute was held in Baskett's Hall, Markdale, on Friday, June 6th. President R. D. Carruthers opened the meeting by a short address. The various reports required by the rules were read and adopted; the most important was the Treasurer's, which showed a balance on hand of $60.80.

The following were elected officers for the ensuing year: President, R. D. Carruthers; Vice-Pres., Wm. Inkster; Sec.-Treas., J. I. Graham; Directors, John Eaton, John Boland, A. Muir, D. W. Clinton, Wm. Hewgill, George Badger, John Hooey, R. Torrie, Wm. Hendry, J. H. Corbett. Regular meetings will be held at Flesherton and Thornbury; Supplementary meetings at Holland Centre, Kimberley, Feversham and Priceville.

Prof. Lougheed then addressed the meeting on Fungus Diseases. He said that a fungus was more than weather conditions; that rust is a fungus and a plant, but required a microscope to see it. They are produced by spores, which if blown upon a plant under favorable conditions—which is moisture and warmth—they take root and grow and live on the plants. He showed a branch of the outlawed Barberry showing how the spores are produced in a small sack and when they are given off are carried by the wind. It is the only plant so far as known that can produce rust. One peculiarity about it was that while it might give rust to an oat field, the oats could not in turn transmit it to a wheat field. If spores have been carried they will show within twelve days and can reproduce in that time. He explained what smut was; that it was never carried with the wind but was on the seed and grew up in the plant. Treating the seed with 1 pound of formaline to 10 gallons of water and sprinkled until all was wet, was a sure preventative.

Is Your Back Lame?

Does it hurt to stoop or bend down? Have you a heavy, dull pain at the base of the spine? If so, the best remedy is Nerviline; it will invigorate the tired, sore muscles, make them supple and strong. Nerviline will drive out the pain and make you well in no time. Nothing so good as Nerviline for stiff neck, rheumatism, neuralgia and sciatica. Buy a 25c. bottle of Polson's Nerviline to-day, and try it. Dr. Hamilton's Pills cure Constipation.

New Ontario.

The Temiscaming district in New Ontario is experiencing a rush of settlers necessitating the opening up of additional government roads immediately. Those who have settled in that promising district are its best advertisers. There is a conjestion of reight on the steamer line between Temiscaming village and New Liskeard. This latter is an important centre, where Rev. J. J. Sparling of this place, has been located. The conference saw in Mr. Sparling the elements of success for a fast developing point, and guarantees him a stipend of $900 a year.

Herding Cattle.

A correspondent in the Farmers' Advocate asks about people herding cattle along the highway, and especially along his side of the road, whou he objects. Let him remove his fences along the public highway, and others will scarcely undertake to pasture his side of the road. There is no statute requiring farmers to maintain such fences, and any municipal by-law giving cows and other stock permission to run a large is at variance with the farmer's rights to leave their lands adjacent to highway unfenced. All that the stock keeper has to do is to prevent his stock from entering upon his neighbor's land. Those who wish to use the highway as a pasture ground, or otherwise, must look after their stock and see that it does not trespass upon adjacent farms. Why should farmers be expected to fence against other people's stock that is allowed to run at large? It has cost us millions of money already and it is time we began to assert our rights in this regard. If we build no fences along highways we cannot be blamed for snow blockades.

Tenders Wanted.

Tenders will be received up to the last of July for the purchase of (1) a water power Roller Mill, about 25 barrels per day capacity, (2) a frame store with dwelling upstairs, (3) a small frame dwelling with ½ acre lot on which is a good orchard. All situated in Kimberley, Ont., 9 miles from Markdale. Address: D. Henderson, drawer 2, Markdale.

Osprey

Mr. J. C. Madden met with a serious accident last Saturday afternoon while crossing the beaver hills north of Maxwell and about half way down the hill the breast strap broke, when the horses became unmanageble and ran down the hill, upsetting the democrat at the bottom, when the old gentleman had his leg so badly shattered that amputation at the knee joint was found necessary. The operation was performed on Sunday by Drs. McFall, of Collingwood, and Scott, of Maxwell. The other occupants of the vehicle, Miss Nellie Madden and little Miss and Leila Moffat escaped with a few bruises. At last accounts Mr. Madden is doing as well as could be expected.
