Ward system stays ¹⁹⁷² y, Sept. 20, 1972

The ward system will be in operation for this year's municipal election in Iroquois Falls.

By a majority vote, Council agreed at its last regular meeting to continue the system.

Council had asked its solicitors what would have to be done

should the town decide to discontinue the system. They advised that an application would have to be made to the Ontario Municipal Board.

In December Iroquois Falls voters will elect a new council

This year, Golden Avenue Public School goes out June 7, 8 and 9 under vice-principal Mr. W. T. Wiwchar, Monteith-Shillington Public Schools, go June 9 to 16 inclusive, led by principals Mr. Gordon Phillips and Mr. Ed Pupich.

3 miles is something to think about

Iroquois Falls Council is thinking of taking over 8.8 miles of Highway 626 from Porquis to Monteith.

Council is thinking very hard about the matter. The road could be very expensive to maintain because of its bridges and culverts.

Municipal equipment is already ready overtaxed with road maintenance. Takeover of the road could mean the purchase of additional equipment.

Council decided to consult with its road superintendent, Mr. R. Scott, before making a decision.
