THE IDEAL WIFE

Shapes the Destiny of Men—The Influence of a Healthy Woman Cannot Be Overestimated.

Seven-eighths of the men in this world marry a woman because she is beautiful in their eyes—because she has the qualities which inspire admiration, respect and love.

There is a beauty in health which is more attractive to men than mere regularity of feature. The influence of women glorious in the possession of perfect physical health upon men and upon the civilization of the world could never be measured. Because of them men have attained the very heights of ambition; because of them even thrones have been established and destroyed.

What a disappointment, then, to see the fair young wife's beauty fading away before a year passes over her head! A sickly, half-dead-and-alive woman, especially when she is the mother of a family, is a damper to all joyousness in the home, and a drag upon her husband.

The cost of a wife's constant illness is a serious drain upon the funds of a household, and too often all the doctoring does no good.

If a woman finds her energies are flagging, and that everything tires her, dark shadows appear under her eyes, her sleep is disturbed by horrible dreams; if she has backache, headaches, bearing-down pains, nervousness, whites, irregularities, or despondency, she should take means to build her system up at once by a tonic with specific powers, such as Lydia E. Pinkham's Vegetable Compound.

This great remedy for women has done more in the way of restoring health to the women of America than all other medicines put together. It is the safeguard of woman's health.

Following we publish, by request, a letter from a young wife.

Mrs. Bessie Ainsley of 611 South 10th Street, Tacoma, Wash., writes:

Dear Mrs. Pinkham:—

"Ever since my child was born I have suffered, as I hope few women ever have, with inflammation, female weakness, bearing-down pains, backache and wretched headaches. It affected my stomach so that I could not enjoy my meals, and half my time was spent in bed.

Mrs. Bessie Ainsley

"Lydia E. Pinkham's Vegetable Compound made me a well woman, and I feel so grateful that I am glad to write and tell you of my marvelous recovery. It brought me health, new life and vitality."

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Ainsley it will do for every woman who is in poor health and ailing.

Its benefits begin when its use begins. It gives strength and vigor from the start, and surely makes sick women well and robust.

Remember Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of actual cures of woman's ills. This fact is attested to by the thousands of letters from grateful women which are on file in the Pinkham laboratory. Merit alone can produce such results.

Women should remember that a cure for all female diseases actually exists, and that cure is Lydia E. Pinkham's Vegetable Compound. Take no substitute.

If you have symptoms you don't understand write to Mrs. Pinkham, Lynn, Mass., for special advice—it is free and always helpful.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

Meaford High School.

Annual Re-Opening of this Popular Academy.

The 16th annual re-opening of the Meaford High School will take place on September 5th, 1905, when classes will be formed to meet the requirements of every student that attends. All parents having children to educate are asked to look carefully into the record and merits of this well-known High School before deciding where to send them. Note the following points:

1. A building, gymnasium and grounds that for beauty, equipment and convenience cannot be surpassed in the province.

2. A staff of teachers specially qualified to teach their respective departments.

3. A literary and debating society, and athletic association and field day, and an Old Boys' Day—all in a flourishing condition.

4. A long and honorable record as a school of training for teachers. In the last six years 81 junior teachers and 41 senior teachers have obtained their certificates. Of the former 13 spent only one year of their school life in a High School and that school was Meaford.

5. This school does every form of examination work done by the largest Collegiate Institute. Personal attention given to each pupil a prominent feature. Splendid medals, prizes and scholarships open to all. Public speaking, debating, singing and athletics strongly encouraged.

6. The high stand taken by pupils of this school at the Normals and Universities—third place in medicine at McGill; first place and medal in History and third place in Mathematics at Queen's; second place in Physics and third place in English and History at Toronto; besides many other first class and second class honors at McMaster and other colleges—and the growing demand for graduates of this school as public school teachers, all go to prove the efficiency of the work done.

Fees to all students not resident in Meaford, $10.00 per year. Board, $2.00 to $3.00 per week in private homes. The town easily reached by the G.T.R. or by any passenger boats plying between the ports of the Georgian Bay.

Send for a prospectus of 1905, which is a compendium of information about the beautiful town of Meaford, its High School and the latest revised educational regulations.

Grey County's BIGGEST and CHEAPEST Store

Eager For Business

Everybody around this big store is eager for business. The Summer Holidays are now a thing of the past. We've all had 'em—from the delivery boys to the heads of the firm. The consequence is we're all back feeling refreshed and eager for the fray, anticipating the biggest and busiest Fall and Winter season this store has ever seen.

Every Condition Warrants It

Times are good, crops are good, all kinds of farm produce are bringing big prices. For months past we have been planing for this Fall and Winter business—buying for spot cash in large quantities gives us the entrance to the best mills and manufacturers in the Dominion. Our Old Country importations are larger this season than ever before.

The Way We Save You Money

Years ago we formed a connection with some of the largest and best dry goods firms in the Old Country, among them being MESSRS. RYLANDS, SONS & CO., Limited, Manchester, England. This firm is claimed to be the largest Dry Goods concern in the world. They control a large number of mills in the British Isles; do their own bleaching, do their own dyeing, do their own printing, etc, in fact they employ year in and year out over 12,000 hands. Messrs. Rylands, Sons & Co., Limited, send a representative to Canada twice each year. We have control of their large range of samples for Markdale and it may interest you to know that their representative only calls on one other firm between Markdale and Toronto. Common sense will tell you that importing direct from a large concern like this we not only save all middlemen's profits, but CAN and DO BUY merchandise cheaper than the average store possibly can.

Our Direct Importations

We have been advised by our agents that our large importations from Manchester via steamship "Campania" have passed the port of entry and will be released from customs and forwarded on at the earliest possible moment.

LARGE ARRIVALS OF FALL GOODS

For weeks past both Canadian and imported goods have been arriving by dray loads, and we have been kept at our wits ends to find a place for all the new goods. Our store is large, but every available foot of room will be needed.

The New Fall and Winter Clothing is here.

The New Carpets, Linoleums and Floor Oil Cloth are now ready for your inspection.

The New Mantles are marked off and will be placed in the racks in a few days.

The Childrens' Ulsters and Reefers are now placed in stock.

Cases and parcels of New Millinery Goods have been arriving daily and waiting patiently the arrival of the head milliner.

The Staple Department has taken on a new dress and the shelves are groaning with their load of new Flannels, Flanelettes, Wrapperettes, Cottons, Linens, etc.

A large shipment of Mens Cloth Caps have arrived from a Canadian manufacturer.

The first shipment of Furs are now being examined and marked off.

One large shipment of Imported Dress Goods and Silks have been placed in stock.

Over 100 new Dress Skirts are here awaiting your inspection.

The Smallware section is now loaded with new novelties at bargain prices.

The Gents' Furnishing Department is crammed full of new up-to-date Ties, Collars, Shirts, Gloves, Underwear, etc.

The new Fall Tweeds, Serges and Worsteds are here. If you want a new suit it will pay you to take a look through our stock before the tailors get too busy.

Visit the basement. It is crowded full of new imported China, Glass and Porcelean Ware.

Case after case of new Boots have been placed in stock. Nothing but the best stock from the best makers.

Our Grocery Department is at all times well stocked with fresh, clean Groceries.

In fact the whole dress of the store is changing its appearance. The light, airy summer materials are being replaced by the richer winter colorings.

You Are Invited

We extend to all a wide, open invitation to make this store your headquarters—meet your friends here—rest here—use us in every way you can. A waiting room provided with mirrors, comb, brush, whisk, etc., is at your disposal our wash and toilet room is at your convenience. Make use of it.

KEEP ABREAST OF THE TIMES. We claim to have the most up-to-date store and up-to-date store methods in this county. We are trying continually to see what a thoroughly comfortable place we can make this big store to trade in. We want you to feel at home here. Examine the goods and compare values to your heart's content. Every department is now crowded with bright new fashionable goods, gathered together from the best markets of the world, bought at the lowest possible prices and marked at the lowest living profits and sold on this guarantee. "Your money back if not satisfied." We want your trade. We can save you money. Come in and take a look around. No need to buy unless you wish.
