Poisoned With Canned Beef

Two families in Acton suffered somewhat seriously on Saturday from eating canned beef. A.W. Franklin-Benton and his mother, who reside on Church Street, partook of a small slice each of canned beef on Saturday for dinner and both were taken violently ill with vomiting and other symptoms of poisoning before noon. Mr. and Mrs. Neil McNabb and children had been from the same tin for dinner. They noticed it seemed peculiar and tasted it. Mr. McNabb went to a base-ball match in the afternoon and shortly after reaching the park was seized with cramps and was too ill to walk home. At the same time word was sent to him that Mrs. McNabb and children had taken very ill. Medical attendance was promptly called and in the evening improvement was noticed in the condition of the patients. By Monday they were able to be about again, but men were weak and in a bad sorts for several days. The poisoning was thought to be trouble. The beef was purchased at one of our grocery stores and on being notified of the character of the contents of the balance of the meat it was destroyed by the grocer.—Acton Free Press.
