SCIENCE VS. IGNORANCE AND HOTTENTOTS.

Intelligent agents under pay from Dr. Radway are sent to the following countries to engage the most competent natives to gather and select the vegetable substances used in DR. RADWAY'S SARSAPARILLIAN RESOLVENT. To wit:

Brazil, S. A.
Jamaica, W. I.
British India,
Persia and
Japan.

(By correspondence.)

Some years since it was deemed necessary for the protection of the public against the importation of spurious roots and drugs, for Congress to pass a law establishing an Inspector of Drugs in every port of entry in the United States. But this wise precaution does not prevent the importation of spurious roots, and medical herbs. Nearly one half of the Sarsaparillas, Pereira Brava, Peruvian Bark, etc., brought into this country and Europe are spurious, and when prepared for medicinal purposes are, in fact, useless, and fail to produce the beneficial results that the chemist and physician expect to realize. Absent no such objection may exist, and the public may depend on securing the true roots in the Sarsaparillian Resolvent, Dr. Radway has adopted the plan of gathering the several roots, etc., used in his medicines, under the direct supervision of trusty and intelligent agents.

This is an enterprise never before attempted, and it is one long needed. The loose manner in which vegetable barks, roots, leaves, gums, and other medical substances are gathered by ignorant natives, half savages, Hottentots, &c., and the cupidity of these rascals of substituting spurious for the true, in selling these roots, &c., to traders, causes many mistakes, and often disappoints physicians in prescribing a root possessing known properties in not fulfilling their expectations.

Hence the wisdom and liberality of Dr. Radway in adopting a plan that will secure the true and genuine vegetable substances, and from their native soil, cultivated in gardens and attended with care.

In Brazil he obtains pareira brava; Jamaica, W. I., sarsaparillian; India, E. Il bemeoesmus indicus; Persia, the Persian oil, is expressed from the amygdale nut; Japan, three newly discovered roots are grown under contract by a distinguished horticulturist, and the only country where these roots are grown. These Japanese are held in high estimation by the Nobles, Kaimos and distinguished savons, are purifying agents, also in the cure of dyspepsia, indigestion, jaundice, and liver complaints, and are used as tea, after dinner beverages, and as tonic drinks, diet, mixed wine, &c.; also, possess the most astonishing virtues over skin diseases and impurities of the blood. RADWAY'S SARSAPARILLIAN RESOLVENT is therefore, the most perfect remedy in the world. No wonder the sarsaparillas of the shops are such poor, weak washes compared with Dr. RADWAY'S SARSAPARILLIAN. THE ROOT ITSELF differs from all sarsaparilla roots ever seen in this country. These working a pure, perfect remedy to cleanse the blood and system from all impurities, try DR. RADWAY'S SARSAPARILLIAN RESOLVENT.

Sold at 439 St. Paul Street, Montreal. Six bottles for $5 will be sent by express.

HALL'S

Vegetable Sicilian Hair Renewer

Has stood the test of seven years before the public; and no preparation for the hair has yet been discovered that will produce the same beneficial results. It is an entirely new scientific discovery, combining many of the most powerful and restorative agents in the VEGETABLE KINGDOM. *It restores* GRAY HAIR TO ITS ORIGINAL YOUTHFUL COLOR. *It makes the scalp white and clean; cures dandruff and humors, and falling out of the hair; and will make it grow upon bald heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft, and glossy, and is unsurpassed as a HAIR DRESSING. It is the cheapest preparation ever offered to the public, as one bottle will accomplish more and last longer than three bottles of any other preparation.*

It is recommended and used by the First Medical Authority.

The wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under various names; and, in order to induce the trade and the public to purchase their compounds, they have resorted to falsehood, by claiming they were former partners, or had some connection with our Mr. Hall, and their preparation was similar to ours. Do not be deceived by them. Purchase the original: it has never yet been equalled. Our Treatise on the Hair, with certificates, sent free by mail. See that each bottle has our private Revenue Stamp over the top of the bottle. All others are imitations.

The County Election.

To the Electors of the County of Frontenac:

GENTLEMEN,—The death of your late member, Sir Henry Smith, having rendered vacant the representation of the County of Frontenac in the Legislative Assembly of Ontario, I am induced to think that the offer of my services might be acceptable to the Electors. Long identified with the County Interests, and having, as an old member of the County Council, and a Warden, become thoroughly conversant with your local affairs, I am, I think, in a position to be of service to you in the Legislature. Many of you, too, have had knowledge of me in my business transactions, and you can thus in both respects form an opinion of my fitness for the honor which I seek at your hands.

Agriculture will have in me a warm and active friend, and I shall always be ready to lend my aid to all measures having its advancement in view.

The promotion of the settlement of the country I shall endeavor to further by seeking to have the Back Roads completed, by endeavoring to secure the passage of a generous Homestead Law, and the adoption of a more liberal policy with respect to Free Grants of Public Lands.

Education has been greatly fostered in Canada for many years past by grants of public money. I believe that most good can be done with such grants by adopting the channels which the various denominations of Christians among us have selected for the expenditure of their own means, and I will advocate the continuance of the Grants to the several Colleges in Ontario which they have hitherto received.

The present Government of Ontario has met the just expectations of the people in the economical administration of public affairs, and is entitled to my cordial support.

I will endeavor to see you as far as time will permit, between now and the Election, and will be ready to explain my views on all public questions.

D. D. CALVIN.

RUTTAN'S Ventilating Stoves!

FOR

HEALTH & ECONOMY.

[From the Building Committee.]

These may certify that the Board of School Trustees for the City of Toronto put up (December, 1867) in their new School-house, on Elizabeth Street, four of Ruttan's Air-Warming or Ventilating Stoves, say one in each School-room. These Stoves were in regular use during School hours until fires were discontinued, about the beginning of the month of May, and they have given full satisfaction in every respect. Although the weather was severe and prolonged, the "Ruttan" Stoves kept the School-rooms comfortably warm, without overheating them, while the ventilation was at the same time thoroughly good. These Stoves are also very economical in fuel, as is proved by the fact that the four in question consumed only two and a half cords of wood each during the period of time above mentioned.
