Miss Macphail, M.P., Writes from Ottawa

No one could charge that Parliament has not been busy. Committees sit morning and afternoon, the Commons morning, afternoon and evening, and even the Senate does two sittings a day. And the subjects before Parliament have been important: the Mortgage Bank, wheat and more wheat, acreage bonus, national defence, as well as many odds and ends.

But through it all there is a feeling of distraction; a sense of expectation. The King and Queen are coming! Ottawa is working day and night to make the Capital beautiful. Miraculously, full grown trees appear where none were. Street car lines are torn up, new pavements put down, unsightly buildings demolished or screened with evergreens, acres of new sod laid, public buildings richly decorated and the routes over which Their Majesties will travel made gay with bunting, flags and banners.

It is almost an impossibility to decorate buildings as immense and beautiful in themselves as the Parliament Buildings, but a valiant attempt has been made by hanging a reproduction of the Imperial Crown, seventeen feet high, above the main entrance and smaller copies of the King's Crown over the Senate entrance and of the Queen's Crown over the Commons, the jewels being colored lights, and all three flanked by the flags of the Empire.

With our six invitations to formal functions, with prescribed attire, it is personal decorations that worry some of the M.P.'s. The other day a knot of Liberals who sit in the "rump" - the overflow to the left of the Speaker - were chatting and laughing as I passed behind the curtain rear them. When I enquired what the joke was one of them said we have just been downtown to the milliner's buying Walter a silk hat to wear to the garden party. I said I would watch for him to see how he looked in it and they chorused: "That's why we are going."

A young Conservative M.P., rather shamefacedly said to me: "I got my first Prince Albert. I hope my county never hears of it." And a C.C.F'er said he couldn't go to the dinner, although he had fought with the King's forces for four years, because he hadn't "tuxedo" and didn't feel justified in buying them, with so much unemployment and misery to be alleviated. I suggested he rent a suit but he said he would never come to that. Another member of the C.C.F., who has been induced to order evening clothes for the dinner, says they make a fool of a man - the evening clothes.

Mrs. Black, who always dresses beautifully, is greatly concerned over the dress I am to wear to the most important function, the government dinner for the King and Queen. She had suggested that I go to Montreal on Saturday morning and when I came to my seat in the Commons that morning she called across Mr. Woodsworth, who sits between us: "Why didn't you go to get your dress?" "I couldn't," I said. National defence estimates on. Lunch at the Country Club with the Rt. Hon. George Ey. Graham, and this everlasting newspaper article to do." Whereat Mrs. Black shook her head sadly and said "You do take yourself seriously." Mr. Woodsworth pooh-poohed the idea of taking time off for such frivolity. But the question that haunts me is, what do I wear to the dinner?

But to get back to serious business. A central mortgage bank is to be set up, controlled entirely by the Dominion government, which will enable mortgage companies to reduce charges against farms, and homes in town and city not in excess of $7,000. It works something like this. If a mortgage company will agree to adjust interest rates to five per cent. to write off all arrears of interest in excess of two years and to adjust the principal downward to a point where it does not exceed eighty per cent of the fair value of the property mortgaged, the government through the central mortgage bank will reimburse such a company to the extent of one-half of the loss sustained. Unfortunately, it does not apply to individual mortgage holders.

Dr. Manion said he did not think that this protection should be given only to big mortgage companies and pointed out that it was a catastrophe for the individual to lose a substantial portion of a mortgage, as they had done under the Farmers' Creditors Arrangement Act, and he asked the government to consider further the position of the individual lender. This point will be stressed much more when the Bill comes in for second reading.

The whole problem of wheat, its price and the reimbursement of farmers in drought, grasshopper and rust stricken areas, again occupied most of the week. The initial price was raised from sixty to seventy cents, up to but not in excess of 5000 bushels, and very strong arguments were advanced by Western members from all sections of the House that the price be maintained at the level of last year, eighty cents for No. 1 Hard at the head of the Lakes. The majority of Liberal members making speeches condoned the government policy but four condemned it - Ward, Leader, Fleming and Motherwell, and these, with the addition of John Angus McMillan, voted against the government on the Bill.

In regard to the acreage bonus, some substantial changes were made in committee. The first idea was that the bonus should apply only to drought stricken areas, but this later was changed to include crop failures from any cause other than hail, which is already covered by insurance, much like our fire insurance. The bonus is not paid on the basis of failure on an individual farm but, in the words of the Act, "When the average yield of wheat, as a result of anything but hail, is five bushels per acre or less in each of not less than 135 townships in any one province in the spring wheat area, such area may be declared to be a crop failure area." Part of the cost of the bonus is carried by a levy on all Western farmers.

An interesting debate on national defence is in progress, but cannot be dealt with until the Hansard is available.

AGNES C. MACPHAIL.

INSTRUCTIONS FOR ROYAL VISIT TO TORONTO MONDAY

To the Teachers.

Ladies and Gentlemen,

Public School Inspector Pentland sends the following as final instructions concerning the King's visit to Toronto. Please make sure that your boys and girls are familiar with the contents. All times given are Standard Time.

Those who go by car are recommended to follow this route to Toronto: By way road to Brampton, then directly east on No. 7 Highway to Yonge St., at Thornhill, then south on Yonge St. for 6.3 miles to Lawrence Ave. (a park on left side, and a yellow brick apartment house on right). At Lawrence Ave. turn left (east) for 3 blocks, (one-quarter mile), to Mt. Pleasant Road. Turn south here (right). on Mt. Pleasant Road for 1.6 miles to Millwood Road, then east (left) on Millwood Road. (This street after about a mile, swerves right, then sharp to left, then to right, and under a bridge). Follow it (to right) to Pape Ave., then turn left (south) to Don Mills Road, where you turn right (west) to Broadview Ave. Go south here to where Broadview crosses Danforth Ave., at the Viaduct. On the south side of Danforth there is a park, where all children who come by car will assemble. There are toilet facilities at this park.

Mr. Percy Pentland, of Hanover, will be at this park at ten o'clock, and promptly at 12 o'clock will take all the children to the reserved seats in the Riverdale Park. Percy will be dressed in a blue suit, and will have a red band on his hat. Look for him when you arrive.

Car drivers may not be able to drive all the way to this park, but, if they get to the city early they will have a better chance. If not able to drive all the way, they are advised to leave their cars (locked, of course); as near to this place as possible and walk with the children to the park on Danforth. The children will return here at 2.30 standard time.

Those who go on the Canadian Pacific lines—On the South Grey Special, will leave Hanover at 6.30 a.m., and this train goes directly to the Riverdale Park, and the children will leave the train a few yards from the area reserved for them. The train will leave the park to return at 6.45 p.m., and the Union Station at 7 p.m. Children who can do so are advised to take this train.

Out-of-town children who entrain at Hanover and Durham are warned to be sure to get the right station,—the Canadian Pacific, and all who go by train are advised to purchase their tickets on Saturday, May 20th, There will be at least 200 take the train at Hanover. Money will be refunded for any ticket not used.

All children, whether they go by train, truck, or car, are requested to wear a red band, four inches wide, around their right arm, midway between the elbow and shoulder. This should be firmly stitched to the sleeve. Small children also will be well-advised to have a card in their pockets containing names, home address, and home station. The children will occupy the area marked "G" on the grounds.

Children will bring two lunches, one to eat before arriving at Riverdale Park, and the other for supper.

On no account will adults be allowed in the enclosure at Riverdale reserved for the children, but teachers in charge of the party will be given special admission badges, and they will be with the children continuously. All teachers in charge will have red bands on their hats.

Adults are invited to occupy the space on the hillside, east, west, to Broadview Ave., where there is room for 100,000 people. The best place to view the procession is the lower edge of the slope.

The children from Markdale going by train will be taken to Priceville to get the South Grey Special on Monday morning and will return by the regular train to Markdale that night. Get tickets from C. R. McHugh at Markdale before going to Priceville.

Owing to extra demands on our advertising columns several contributed articles are held over until next week.

"It's all right—I see them coming along the road now!"

When you've got a telephone you can reassure people quickly. In the country, farm homes are far away from each other—it takes a lot of time to send somebody "next door"—but it takes no time at all when you've got a telephone. Then you are in touch with your neighbours, with the stores in the village—and if your grown up children are working in nearby towns—you can hear their voices too. Every farm home should have a telephone—because it costs so little.
