The Perfection of Prepared Cocoa.
MARAVILLA
COCOA.
Sole Proprietors, - - - TAYLOR BROTHERS,
LONDON.
THE COCOA (or CACAO) of MARAVILLA is the true THEOBROMA OF LINNAEUS. Cocoa is indigenous to South America, of which Maravilla is a favoured portion. TAYLOR BROTHERS having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their estable principle and elaborate machinery, produced what is so undeniably the perfection of prepared Cocoas, that it has not only secured the preference of homœopaths and cocoa-drinkers generally, but many who had hitherto not found any preparation to suit them, have, after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.
"A Success Unprecedented."
[See following Extract from the Globe of May 14 1868.]
"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any through success had been achieved until Messrs. Taylor Brothers discovered the extraordinary qualities of 'Maravilla' Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Homœopaths and invalids we could not recommend a more agreeable or valuable beverage."
Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate.

FARMERS'
Favorite Labor Saving Implements.
The Best in the World may be had of the Subscriber.
PREMIUM GRAIN DRILLS WITH *GRASS SEED ATTACHMENT*
EXPERIENCE having demonstrated beyond a doubt the great advantage of sowing grain in drills over broad-cast sowing, and the fact has been clearly established that in dry or otherwise unfavorable seasons, all grains do much better when sown in drills, I have been induced to devote special attention to the INTRODUCTION OF THESE VALUABLE IMPLEMENTS. In our wet springs it is almost impossible to get the grain covered with a Harrow, so as to prevent injury from dry weather following. Aside from these reasons, the amount of SEED SAVED, and the increased crops raised by reason of having the grain evenly deposited in the ground, makes the GRAIN DRILL an indispensable requisite of every well regulated farm.
