Ayer's Cathartic Pills,
For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its compounder. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates, containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.
They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.
Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—
For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.
For **Liver Complaint** and its various symptoms: **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action, remove the obstructions which cause it.
For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.
For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear.
For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.
For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.
As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.
An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.
DR. J. C. AYER & CO., Practical Chemists,
LOWELL, MASS., U. S. A.

Ayer's Cherry Pectoral,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.
Probably never before in the whole history of medicine, has anything been so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.
Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.
Singers and Public Speakers find great protection from it.
Asthma is always relieved and often wholly cured by it.
Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.
So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,
For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.
As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.
Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.
For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.
For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.
Prepared by DR. J. C. AYER & CO., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
PRICE, $1.00 PER BOTTLE.

Who'll Take that Bet.
I AM prepared to bet one dozen of my best
SUGAR CURED HAMS,
That ten years after *annexation* by the States of Canada, Kingston, would double its present population. But, of course, not having any taxes "to pay" now, nor from present appearances, likely to have, we are better as we are. I will bet one barrel XXX Flour, 1 barrel Family Flour, 1 barrel Buckwheat Flour, 1 barrel Oatmeal, that if the business men of Kingston and the mechanics of Kingston would only speak their true sentiment, three-fourths would say, annex the United States to Canada, or Canada to the United States. But let it be done without any bluster or fighting, or disloyaltyism or Fenianism, or any other ism, but businessism and dollarism, and bearing in mind the mutually benefitingism of all parties concerned.
N. B.—Fifty barrels Snow Flake Flour received to-day at
M. MORRISON'S.
Kingston, Dec. 10th, 1870. 291

NICE STATE OF SOCIETY.

HORRIBLE TRAGEDY IN TEXAS.

Santa Fe, December 17.—The *Daily Post* of the 16th has full particulars of a horrible tragedy which took place at El Paso, Texas, on the 7th instant. It appears That Senator Fountain got into a dispute with B. F. Williams, a lawyer, who fired a revolver twice at him, severely but not dangerously wounding him. Williams then fled to his rooms, whither he was followed by Judge Gaylord, J. S. Clark, of the Twenty-fifth Texas District, and a posse of men, who attempted to arrest him. Williams seized a gun and rushed from his rooms and shot Judge Clark dead. Captain French, of the State police, returned the fire and killed Williams. Great excitement prevailed, but public sentiment was entirely against Williams. The funeral of Judge Clark was the most imposing affair ever witnessed in El Paso.

SENSIBLE RED MEN.—The New York *Commercial Advertiser* says, fourteen civilized tribes of Indians are now in council in the far West, debating the expediency of a republican organization for self government. It is proposed to form an Indian Republic, with complete executive, judicial, and legislative departments, in conformity with the various acts of Congress, but with a central authority strong enough to protect the weaker tribes against the stronger. This is a sensible proceeding, and promises better results than any other project relating to the Indians. Civilization has at least done its work among these fourteen tribes, and if their plan can be perfected it might be made very effective in stopping the outrages of the barbarous savages, who, it appears, cannot be quelled by the United States troops.

FALLACIES ABOUT WOMEN.

The cultivation of respect and courtesy toward our fair betrayers is to be most highly commended and enforced, but we claim in this article to assault certain feeble prejudices in favor of women which have their foundation upon romantic rigmarole. For instance, where is there a greater fallacy than in the belief that women weigh nothing? Yet in romance, even of this modern day, we read constantly of heroes magnanimously rushing off with fainting maidens from blazing houses, or more feloniously "crating" them on their shoulder for purposes of revengeful abduction. Let any one out of training, or under six feet of height, and with proportionate strength, attempt to run away with a fairly well-composed girl of eighteen or twenty, and gave us his opinion of the prowess of these vaunted knights. A womvn weighing one hundred and forty pounds weight of kicking womanhood is not to be carried at all. Even a slight girl will weigh a hundred pounds, and Rudolph or Horatio will stagger under her lovely but cumbersome figure if he break out of a staccato walk.

There are plenty of buxom girls who weigh up to a hundred and seventy pounds, and it is not given to every man to "hurry off" with such a baggage. When the victimized Squallina faints on the stage, the robust baritone takes care that the evanouissement shall be accomplished as close to the wing as possible. He knows what La Squallina weighs by the sad experience of rehearsals. Let any of our readers carry his sister up three flights of stairs without stopping, and forward to us his sentiments on the occasion. Women weigh a good many pounds now a-day, and their airiness of fabrication is a fallacy.

Another popular belief is that women eat nothing. It is, of course, conceded that they sustain life by the consumption of some article of nourishment, but eating in the wholesale acceptation of the word is supposed to be foreign to female nature. This fallacy is founded and sustained by women themselves, who, during the affected period of their lives, cultivate small appetites as being *comme il faut* and a sign of semi angelic construction. When this pernicious nonsense is conscientiously carried out, the results upon the would-be angels are squalor, red noses, certain loss of vigor, general limpidness, and some other unpleasant *sequelæ*. But, as a rule, the smallest appetites at the fashionable tables are exhibited by those shrewd girls whose natural and healthy wants have been thoroughly appeased by secret stuffing. Need we refer our readers to the historical poem concerning Violante in the pantry, knawing of a mutton bone, or remind them how she gnawed it, how she clawed it, when she found herself alone? All this is a direct deceit, however, practiced upon unsophisticated old bachelors, who, when they have made the dainty creatures theirs, find out by the butcher's book and the ocular proof what sturdy trencher-women they have married. Watch a healthy girl at supper, during the intervals of dancing; she consumes by instalments four times as much as her partner, and seems, and is, none the worse of it. Our experience tells us that women eat, in proportion to their weight, as much as men, and are no more fairies in this respect than in the matter of weight.

PLUM PITS.

BY JOSH BILLINGS.

I have always notised when an individual haint got the ability tew criticize judiciously he dams indiskriminately.

New York iz a fast place. If a man pulls out on a funeral procession, just as likely as not the whole procession, led by the herse too, will strike a 2:40 gait and leave him to take the dust.

Ambishun iz like hunger—it obeys no law but its own appetight.

There is no medicine like a good joke—it is a silver coated pill that frolicks and phisicks on the fun.

Beauty iz a morning dream which the breakfast bell puts and end to.

The man who never makes enny blunders will never rise in the esteem of the world abuy the reputashun ov a good gudeboard.

Making an entry ov charitys on our worldly ledge is a sure way tew have our whole account thrown out at the judgment day.

I don't want any better proof of a good hod-carryer than tew hear another hod-carryer say, "He is a cussed phool and don't understand his bizziness."

Poverty and ritches are mere imaginative distinshuns. The man who can eat his bread and be happy is certainly ritcher than he who kan't eat unless it is spread with butter.

Fortune is like a mirror, it dont's alter men, it only shows them just as they am.

Dandys are hybred, a cross between fashion plate and unpaid tailor's bill.

I never knew but one infidel in mi life, and he had no more courage than a half-drowned kitten pulled out of a swill barrel, and az afraid tew die as the devil would de if he was allowed tew visit this earth for a short season to recruit himself.

At the present advance ov intellektual refinement philosophy will prove faith to be a farce—Adam a relic—this world the work ov an earthquake—the Bible a tale of credulity—and the Almighty nothing
