THURSDAY MORNING, AUG. 21, 1879.

To The Boys.

Complaints have been made to us against the conduct of some of the youths of this town in the matter of robbing orchards, and as we take a great interest in their welfare we would advise them to buy or beg the fruit, but not to steal it. Robbing orchards is not only an exceedingly bad thing of itself, but it may get the offenders into serious trouble. Being caught in a man trap is no joke, being collared by the indignant landlord is still less so, and worse is being handcuffed, brought before the magistrate and exhibited to the world as taking what did not belong to you. But worse than all these, is the moral injury which every person inflicts upon himself who commits an act under cover of the night which he would be afraid and ashamed to do in the light of day. So, boys, in view of these considerations, abstain from trespassing on your neighbor's property.

Prospects Brightening.

From all accounts, trade is really reviving in all parts of Canada and the United States, and perhaps better proof of increased prosperity cannot be found than in the fact that the volume of summer travel is greater this year than since those which immediately followed the conclusion of the war. The fashionable watering places are crowded. Niagara, Montreal and Quebec have troops of tourists crowding their hotels, and "mine hosts" are once more jubilant in the belief that a favorable reaction has now really set in. Canadian travel is also greater than it has been for years, and there are many indications that the worst is over, though it cannot truly be said that legislation has brought about the improvement. The Bank failures in Montreal have served to purify, rather than otherwise, the commercial atmosphere, and the prospect of an abundant harvest here, coincident with a failure of the crops in Europe has given a new life to business. There is every prospect that the fall will witness a revival of prosperity such as has not been experienced since the financial reaction in the States seriously interfered with the volume of Canadian trade in 1873 and succeeding years.

A Word to Young Men.

One of the meanest things a young man can do, and it is not at all an uncommon occurrence, is to monopolize the time and attention of a young lady for a year or more, without any definite object, and to the exclusion of others of the sex, who, supposing him to have matrimonial intentions, absent themselves from her society. This "dog in-the-manger" way of proceeding should be discountenanced and forbidden by all parents and guardians. It prevents the reception of eligible offers of marriage, and fastens on the young girl, when the acquaintance is finally dissolved, the unenviable appellation of "flirt." Let all your dealings with women, young man, be frank, honest and noble. That many whose education and position in life would warrant our looking for better things, are culpably criminal on these points, is no excuse for your shortcomings. That woman is often injured or wronged through her holiest feelings, adds but a blacker dye to your meanness. One rule is always safe. Treat every woman you meet as you would have another man treat your innocent, confiding sister.

Beautiful Pictures for all.

The Great Art Publishing House of George Stinson & Co., of Portland, Maine, moves steadily on the even tenor of its way, apparently not feeling the dull times. During the year 1878 they sold over four million pictures of all descriptions. They publish every description of fine pictures, and the prices range from ten cents upwards to twenty dollars per copy. Their correspondence for this large business is immense; they receive on an average, over one thousand letters per day. Messrs Stinson & Co. publish only the better class of pictures, and it is well known that anything coming from this reliable house is of standard merit. We have just received copies of four very fine steel engravings, which they have just brought out. The plates were engraved in London, at an expense of four thousand pounds sterling, or twenty thousand dollars, to which great sum must be added the customs duty of twenty-five per cent. on account of their being imported into the United States. These engravings are after paintings by great modern masters of art, and the artists who engraved the plates stand in the front ranks of the world's renowned engravers.

Stinson & Co. stand among the largest and most judicious advertisers in the country, and a short time since paid in a single day $24,000.00 in cash on a contract for advertising. They employ agents everywhere throughout the United Stated and Dominion of Canada, for the sale of their pictures by subscription; we call attention to their advertisement for agents in another column, those who need pleasant, profitable work, should correspond with them.

The agitation for a national currency has now begun in earnest. Several influential newspapers, both in Ontario and the Maritime provinces, are in favor of a move in that direction, and a meeting was held the other evening at St. Catharines in its advocacy. It will soon become the leading question of the day, and the sooner the better, for that a change is absolutely necessary is evident to the meanest comprehension.

TOWN AND COUNTY.

—Once upon a time, a young man residing not a thousand miles from Acton, feeling that a day or two spent in the free country air would invigorate his worn out spirits, proceeded to carry out this project. His means of transport was a handsome light bay attached to a new and stylish carriage. He left his native town and proceeded pleasantly along his route for about 12 or 13 miles, (his intended destination being about 30,) when his steed, all unexpectedly — balked — and would neither go forward nor return home, which proceeding made it necessary for our young friend to put up at the nearest farm house for the night. When morning came, undaunted by the performance of the previous evening, he concluded to make another start, but his horse was bound to go no further from his own stable. Being turned with face homewards, however, he brought his driver back a wiser man, that is, as far as horses are concerned.

INVALIDS.—Do you wish to gather flesh to acquire an appetite, to enjoy a regular habit of body, to obtain refreshing sleep, to feel and know that every fibre and tissue of your system is being brosed and renovated? If so, commence at once and use the quinine wine, prepared by Northrop & Lyman, of Toronto, and in a short time you will feel the whole system invigorated and strengthened. It is a well-known fact that Quinine has been acknowledged by the medical faculty for many years as the best appetizer and tonic known. And for general debility, this combination will be found superior to all other preparations. And combined as it is with fine sherry wine and choice aromatics, it is made an agreeable and pleasant invigorator to the whole system. The properties of Quinine are a febrifuge, tonic and antiperiodic. Small doses, frequently repeated, strengthen the pulse, increase muscular force, and invigorate the tone of the nerve system. The peculiar operation of this medicine in general debility and as an appetizer, has undergone long and close observation, and it is believed it will never fail, if properly and judiciously administered, unless other diseases predominate of a different character. Persons of weak constitution may take it without the least difficulty, as it strengthens the stomach and digestive organs, and seldom require more than one or two bottles to effect a decided benefit, as it contains nothing injurious to the most delicate constitution. Remember to ask for the "Quinine Wine prepared by Northrop & Lyman, Toronto," and we are sure you will be satisfied that you have full value for your money. Sold by G. E. Morrow, Acton, and all Medicine Dealers.

THE SUN FOR 1879.

THE SUN will be printed every day during the year to come. Its purpose and method will be the same as in the past: to present all the news in a readable shape, and to tell the truth though the heavens fall.

THE SUN has been, is, and will continue to be independent of everybody and everything save the Truth and its own convictions of duty. That is the only policy which has won for this newspaper the confidence and friendship of a wider constituency than was ever enjoyed by any other American Journal.

THE SUN is the newspaper for the people. It is not for the rich man against the poor man, or for the poor man against the rich man, but it seeks to do equal justice to all interests in the community. It is not the organ of any person, class, sect or party. There need be no mystery about its loves and hates. It is for the honest man against the rogues every time. It is for the honest Democrat as against the dishonest Republican, and for the honest Republican as against the dishonest Democrat. It does not take its cue from the utterance of any politician of political organization. It gives its support unreservedly when men or measures are in agreement with the Constitution and with the principles upon which this Republic was founded for the people. Whenever the Constitution and constitutional principles are violated—as in the outrageous conspiracy of 1876, by which a man not elected was placed in the President's office, where he still remains—it speaks out for the right. This is the SUN's idea of independence. In this respect there will be no change in its programme for 1879.

THE SUN has fairly earned the hearty hatred of rascals, frauds, and humbugs of all sorts and sizes. It hopes to deserve that hatred not less in the year 1879 than in 1878, 1877, or any year gone by. THE SUN will continue to shine on the wicked with unmitigated brightness.

While the lessons of the past should be constantly kept before the people THE SUN does not propose to make itself in 1879 a magazine of ancient history. It is printed for the men and women of to-day, whose concern is chiefly with the affairs of to-day. It has both the disposition and the ability to afford its readers the promptest, fullest, and most accurate intelligence of whatever in the wide world is worth attention. To this end the resources belonging to well-established prosperity will be liberally employed.

The present disjointed condition of parties in this country, and the uncertainty of the future, lend an extraordinary significance to the events of the coming year. The discussions of the press, the debates and acts of congress, and the movements of the leaders in every section of the Republic will have a direct bearing on the Presidential elections of 1880—an event which must be regarded with the most anxious interest by every patriotic American, whatever his political ideas or allegiance. To these elements of interest may be added the probability that the Democrats will control both houses of Congress, the increasing feebleness of the fraudulent Administration and the spread and strengthening everywhere of a wealthy abhorrence of fraud in any form. To present with accuracy and clearness the exact situation in each of its varying phases, and to expound, according to its well-known methods, the principles that should guide us through the labyrinth, will be an important part of THE SUN's work for 1879.

We have the means of making THE SUN, as a political, a literary and general newspaper, more entertaining and more useful than ever before; and we mean to apply them freely.

Our rates of subscription remain unchanged. For the DAILY SUN, a four page sheet of twenty-eight columns, the price by mail, postpaid, is 55 cents a month, or $6.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cts. a month, or $7.70 a year, postage paid.

The Sunday edition of THE SUN is also furnished separately at $1.10 a year, post paid.

The price of the WEEKLY SUN, eight pages, fifty-six columns, is $1 a year, postage paid. For clubs of ten sending $10 we will send an extra copy free. Address,

They are all bought for cash from first hands, and selling exceedingly cheap. The Black Grenadines and Black Dress Buntings are going off by wholesale, as the ladies are making a rush for them, the qualities are so very good, and the prices so very cheap. The Black Goods, but particularly the Black Lustres and Black Cashmeres are selling off exceedingly fast. Those SILK FINISHED BLACK LUSTRES AT 20, 25, 50 AND 87½ CENTS SUIT the ladies exactly—they are so beautifully brilliant, almost like silk. The Black Cashmeres from 50c. to $1.50 have an enormous sale. Those five, six, and seven York shilling and dollar Black Cashmeres are going very fast. They are the BEST QUALITIES of Merino Wool, and dyed by the most experienced Parisian dyers, who are the best in the world. The warps of the Blue Black Cashmeres being died with indigo, are perfectly fast colored and will look rich and glossy until they are worn out completely.

The Carpets have a Great Run. Brussels Tapestry, Two and Three-ply Kidder

And hemp are selling at old wholesale prices, and many of them which were marked down last winter are still being sold off at cost prices. Be sure to see the carpets. A large lot of ladies' Costumes selling off at one-half the actual cost prices. Be sure to examine the $1.25 pure linen Costumes, also the $1.00 Print Costumes. They astonish customers. An assortment of beautiful black Lace Shawls bought for cash from the manufacturers are selling off at less than half the first cost. About twelve dozen of Misses' Oxford and Cambridge Merino Hosiery selling off at far less than cost prices. Over 100 pairs of Lace Curtains are being sold off at 12½ per cent less than former prices. Every customer will have one eighth of the price of the curtains they buy taken off their bills. There are lots of the Millinery goods being sold at one half cost prices. All the Sun hats have been put down to York shilling each regardless of cost. The Pattern Hats and Bonnets have been reduced to less than half the cost. As WATKINS has left for Europe this week, to buy his Fall and Winter stocks, he determined to put goods to such prices as will make a regular clearance before his new goods arrive.

SCOTT'S EMULSION

PURE COD LIVER OIL

WITH

HYPOPHOSPHITES OF LIME AND SODA.

This preparation combines the two best remedies ever discovered for Consumption, Colds and Chronic Coughs, Scrofula, Rheumatism and Diseases of the Blood, General Debility, and all Wasting Diseases of Children. It not only contains the well known and highly esteemed virtues of Cod Liver Oil in a form that is perfectly tasteless and acceptable to the most delicate stomach, but in addition, the wonderful tonic and life-giving properties of the Hypophosphites, so incorporated that the remedial powers of both are largely increased. Physicians universally acknowledge the vastly superior virtues of this combined food and medicine in all the above diseases. It is not only better tolerated, but much more readily assimilated by the system than plain Cod Liver Oil, and a better agent in enriching and purifying the blood, allaying the irritation of the throat and lungs, restoring the impaired functions and giving strength and vigor to the whole body. It is sweet and palatable as the taste, never separates, deposits or spoils. Be sure and ask for Scott's Emulsion. For sale by all druggists at $1.00 per bottle.

A GOOD PLAN

Anybody can learn to make money rapidly operating in Stocks, by the "Two Unerring Rules for Success," in Messrs Lawrence & Co's new circular. The combination method, which this firm has made so successful, enables people with large or small means to reap all the benefits of largest capital and best skill. Thousands of orders, in various sums, are pooled into one vast amount and co-operated as a mighty whole, thus securing to each shareholder all the advantages of the largest operator. Immense profits are divided monthly. Any amount, from $5 to $5,000, or more, can be used successfully. HARPER'S WEEKLY, September 20th, 1878, says, "By the combination system $15 would take $5 or 5 per cent; $50 pays $250 or 8 per cent; $100 makes $1,000 or 10 per cent on the stock, during the month, according to the market." FRANK LESLIE'S ILLUSTRATED NEWSPAPER, June 28th: "The combination method of operating stocks is the most successful ever adopted." NEW YORK INDEPENDENT Sept 12th, "The combination system is founded upon correct business principles, and no person need be without an income while willing to be kept working by Messrs Lawrence & Co." BROOKLYN JOURNAL, April 29th, "Our editor made a net profit of $107.25 from $20 in one of Messrs. Lawrence & Co's combinations." New circular mailed free, explaining everything; Stocks and bonds wanted; Government bonds supplied; Lawrence & Co., Bankers, 57 Exchange Place, N. Y.
