TOWN AND COUNTY.

SPRING.

Sunshine streaming early,
Skies of deeper blue,
Crimson-budded woodlands,
Fields of greener hue,
Tell the winter-weary
Spring remains anew.

All is not forgotten,
As the wild birds sing,
Of the biting north blast—
Winter's numbing sting—
And of weary longing
For the joyous spring.

—LENT past.

—DAYS stretching out.

—THE crows hold high carnival these days.

—IT is coming in time to re-organize cricket, lacrosse and base ball clubs.

—THE Milton *News* calls the council of that village the "Town Parliament.

—ANGLERS now begin to look up their fishing tackle, in anticipation of the first of May.

—Mr. A. Campbell Black will give selections from the gems of Scottish Song.

—ELDER A. Anderson, of Hamilton, will (D.V.) preach in the Disciple Meeting House, Acton, next Sunday, 11th inst., at 11 o'clock a.m., and 6:30 p.m.

—AS a quorum could not be obtained on Monday evening last, the chairman of the Board of Education has called a meeting for this evening, at eight o'clock.

—ATTENTION is called to Messrs. John Worsfold & Co.'s advertisement. The firm have a full stock of furniture, and are prepared to supply the wants of all.

A GOOD ACCOUNT.

"To sum it up, six long years of bed-ridden misery, paid out over $1,000, all of which was lost, all three bottles of Hop Bitters taken by my wife, who has done her own housework for a year since, without the loss of a day, and I want everybody to know it for their benefit.

"JOHN WEEKS, Butler, N.Y."

—MR. John Turner has opened out a stock of Furniture in the shop recently occupied by the late H. J. Orr, on the corner of Mill and Main streets. He says he is in a position to supply any article of furniture required, at a reasonable price.

HORSE BILLS.—Owners of entire horses in want of route bills for this season would do well to give us a call before ordering their bills elsewhere. We have a large and well selected stock of cuts, and parties getting their bills printed at this office, can rely on getting a good job at a moderate figure.

SPRING WORK.—Now that spring is upon us with its balmy air, blue sky and warm sunshine, dispelling the frost, melting the snow, softening all nature, even the heart of the hardened old bachelor, there are a few things to attend to. Housekeepers should clean their own back yards and cellars, for it will be of little use to go through the usual house-cleaning to get rid of or to avoid flies if vermin are allowed to propagate in the yards and cellars.

PERSONAL.

Mr. S. W. Galbraith, formerly of the FREE PRESS, is now city editor of the Sunday *Democrat*, Flint, Michigan.

Mr. H. Jenner, of Toronto, now employed in the Canada Glove Works, has brought his family to Acton, and intends to make his home here.

From the *Mercury* we learn that Mr. J. Horace Pyper, formerly of this village, has been re-elected secretary of the Young People's Union of the Dublin St. Methodist Church, Guelph.

Messrs. W. T. and G. C. Smyth, left here on Saturday last, for St. Catharines, to commence courses in the High School in that city, at the opening of the session on Monday. We wish them success.

We are pleased to be able to state that our young friend, Mr. Alex Stafford, who has been confined to his bed with a serious attack of congestion of the lungs during the past two weeks, is now out of danger, and rapidly recovering.

—SPRING!

—ICE hum silenced.

—THE skating rink has closed for the season.

—MR. Black's concert in Temperance Hall on Monday evening next.

—NOW is a good time to see that the old rubbish and other accumulations in the back yard are cleaned away.

—Secure your ticket for Mr. A. C. Black's Concert on Monday evening, 12th inst. The Best of the Season.

—WE beg to remind our friends in the country that they would confer a favor by informing us of anything of interest that occurs in their neighborhood.

NEW STOCK.—Mr. John Speight has received his new spring stock of furniture, and has now in stock a well selected assortment which will be sold cheap.

—**Farmers, remember that Plow Castings of all kinds are kept on hand at the "Free Press" Office.**
R. W. KING.

P. L. S.—Mr. James Warren, Provincial Land Surveyor, will be in Acton for a few days, and will attend to any order for surveying. Orders left at Acton post office will be promptly attended to.

HYMENIAL.—Mr. J. Townsend, of the *Durham Review*, was united in matrimony to Miss Minnie Stoddard, of that town, last week. We wish our friend of the *Review*, with his bride, a happy voyage down the stream of time.

—A PIECE of machinery actually depreciates more when idle than when in use, unless—mark this—it is carefully cleaned and oiled. We especially recommend this item to farmers who are less inclined to attend to it than a practical mechanic.

MARBLE WORKS.—Wellington Marble Works, Quebec St., Guelph. Messrs. McQuillan & Hamilton, proprietors, are direct importers of all kinds of Marble and Granite. Having a large stock on hand purchased previous to the late rise in prices of marble, they will continue to sell all kinds of Monuments, Head Stones, Mantles in Slate or Marble, at their usual low prices. Satisfaction guaranteed. 41-tf.

THE SALVE.—The Ailsacraig Salve, made by the old Irish lady there, has been reported to have reached the Nenagh Hospital, (Tipperary). As it is said never to fail in the curing of running sores, favorable reports of its wonderful effects in Old Ireland (as in every other place it has reached) may soon be expected. Rev. T. Atkinson, Ailsacraig, replies to all enquiries about it.

BEARDMORE'S TANNERY.—We understand that a Toronto firm have been examining Messrs. Beardmore & Co's. tannery in this village, with a view to re-opening it for the purpose of manufacturing light stock. They are awaiting an answer from the Village Council in reference to exemption from taxation on real estate and personal property for five years.

The Greatest Remedy Ever Discovered.

Quinine is could red the greatest remedy known, but we believe it has its equal, if not its peer, in the product of the Cod fish. Nothing has been discovered to equal Cod Liver Oil as a builder and a sanitary of the body. In Consumption and all Wasting Disorders, for its curative properties is required by its nutritive properties. In Scott's Emulsion of Pure Cod Liver Oil this objection to prior is overcome, and combined with the Hypophosphites of Lime and Soda it is the most valuable remedy ever discovered.

—Mr. C. Crawford, the Eminent Tenor, will sing the "Tempest," at the Temperance Hall, on Monday evening, 12th inst.

SPRING TRADE—Our merchants have been all alive during the past few days receiving their spring stocks. The great piles of goods which they have been opening out indicate that they are anticipating a brisk spring trade. The want of snow has militated against their business during the latter portion of the winter season and a lively spring opening will be all the more welcome. We trust that their anticipations will be fully realized.

A SHARP TRICK.—On Friday evening last Mr. Geo. McFarland, of Nassagaweya, came to town and left his horse tied in Campbell's shed, while he transacted his business. Returning in about half an hour he could not find the horse, and subsequently hired a livery to return home. On arriving home he found the horse standing in his own barnyard, with buggy and everything as they had been left at Campbell's shed. Some person had evidently untied the horse and driven him home, probably for a practical joke.

Exciting Scene.

A large staff of assistants are continuously employed in putting up Wilson's Compound Syrup of Wild Cherry, the most popular of all remedies for the cure of Coughs, Colds, Croup, Whooping Cough, Bronchitis, Catarrh, Loss of Voice, and all affections of the Throat, Lungs, and Bronchial Tubes.

The rapidity required by those constantly engaged in handling bottles is most astonishing, and to an unaccustomed chloroker the great wonder is that almost every bottle is not broken.

Wilson's Wild Cherry is always made under the direct supervision of Mr Wilson, a Chemist and Druggist of over sixteen years experience.

This great home medicine is sold by all leading druggists, and should be found in every house.

AN ORNAMENT—Many persons know it, but some do not, that a pretty and easily grown window plant may be obtained by soaking a round piece of coarse sponge in warm water until it is thoroughly expanded. After squeezing it about half dry, place in the openings, millet, red clover, barley, grass seed, rice and oats. Hang the sponge in a window where the sun shines a part of the day, and sprinkle it lightly with water every morning for a week. Soon the tender leaves will shoot out, and grow rapidly, forming a mass of living green. If regularly sprinkled, it will later be dotted with the blossoms of the clover.

THE FASHIONABLE WEST END.—Mr. A. O. Bucham, Guelph, has just opened his spring stock of millinery, mantles and dress goods, and his extensive establishment now presents a very attractive appearance, and from the number of lady customers that may be seen at the counters at any hour during the day, we conclude that the Fashionable West End must be a very popular place with the ladies. Mr. Bucham extends a cordial invitation to the ladies of Acton to call and see the stock he is now exhibiting. We bespeak for Mr. Bucham a large trade this season.

—MR. A. Campbell Black will conduct the Psalmody on Sabbath morning and evening next in Knox Church, Acton.

FARMERS.—Send at once for the *Canadian Farmer*, the only Weekly Paper printed in the Dominion that is published entirely in the Farmers' interest. It gives full and reliable Market Reports, which are, alone, worth the money, send for special Club Rates. See advertisement in another column.

—Mr. A. Campbell Black will sing "Death of Nelson," at his Concert in the Temperance Hall, on Monday the 12th inst.

TOWN HALL.—The remark is often heard that Acton should have a town hall, as the public halls now available are too small, uncomfortable and inconvenient. The drill shed has been spoken of as a suitable site, and we believe that if it can be secured for the purpose, it could be plastered and otherwise fitted up at a very small cost, and would make an excellent hall. Will any of our enterprising citizens take an interest in the matter.

—ICE cutting operations are over for this season. The total amount cut and loaded from the water into the cars and shipped off per N. and H. & N. W., is 1993 car-loads, which, at 13 tons to a car, makes a weight of about 26,000 tons, and at 150 cakes to a car, 300,000 cakes. In addition to this there is stored in ice houses on the shores of the bay, 40,200 tons, which is at present being moved out at the rate of 35 cars a day. The area of ice removed from the bay, estimating the cakes at 2 feet square, is about 75 acres. If placed together in a line the cakes would extend nearly 290 miles.—*Barrie Advance.*

Remedy For Hard Times.

Stop spending so much on fine clothes, rich food and style. Buy good, healthy food, cheaper and better clothing; get more real and substantial things of life every way, and especially stop the foolish habit of running after expensive and quack doctors or using so much of the vile humbug medicine that does you only harm, and makes the proprietors rich, but put your trust in the greatest of all simple, pure remedies, Hop Bitters, that cures always at a trifling cost, and you will see better times and good health. Try it once. Read of it in another column.

—"Have you seen Moriarty?" if not, go and hear Mr. Kennedy, the Renowned Comic Vocalist' at the Temperance Hall on Monday evening, the 12th inst.

CHEAP PAPERS.—A friend sends us the following good joke about "cheap papers." He says:—Mr.——subscribed for a mean trashy concern published on the other side, because he got it for a dollar a year, with four chromos thrown in. The chromos were received and one copy of the paper, after which it stopped. Our friend concludes: "Just fancy a man introducing into his family such trashy stuff because *it is cheap*, instead of subscribing for a good journal, which would be worth to him and his family the subscription price twice over! Why, sir, the only cheap thing in this business is the subscriber, and he feels decided. It so!"

BAND STAND.—Last fall the Brass Band petitioned the village council to erect a public stand in some central situation where they could play during the summer months for the benefit of the citizens. The council signified their willingness to comply with the petition, but as the season when it would be warm enough for outdoor playing was almost over, they concluded not to erect it until spring opened. Now, spring, with its welcome accompaniments has come, and we would suggest that the council now proceed with the erection of the stand, that our people may have the pleasure of freely listening to the sweet music which our Band is willing to discourse for the benefit and pleasure of all.

A MIRACULOUS ESCAPE.—On the Grand Trunk express train on Tuesday of last week, there was a family of ten in number, destined for Toronto. After the train had started from Acton, one of the family, a girl 15 years of age, fell asleep, soon after which she arose from her seat and walked towards the door. She opened it, and while yet in a state of somnambulism stepped off the train to the track. The cars were going at full speed, and in the efforts to stop them the bell cord was broken. Before the driver could be reached the distance of a mile had been travelled. When the train was backed, the girl was found comparatively unhurt, walking in the wrong direction, and wondering where she was and *what had happened.*

WELLINGTON MARBLE WORKS.—The other day, while in Guelph, we paid a visit to the Wellington Marble Works, carried on by Messrs. McQuillan & Hamilton, and found in the shop a large staff of workmen, busily engaged in dressing granite and marble, and the result of their labors we found in the show room and yard, where are exhibited every description of monuments and headstones, finished in the most tasteful and appropriate manner. We understand that this firm being direct importers, have on hand a larger and more assorted stock of granite and marble than any other firm west of Toronto. Mr. McQuillan of the above firm is now engaged buying stock at the granite quarries of the Bay of Fundy, and intends visiting the Vermont marble quarries for their annual supply of marble, before returning.

THE LION, GUELPH.—Messrs. Williamson & Co., of the Lion, Guelph, are now busy making a number of important improvements in their mammoth premises. The millinery and dressmaking show rooms are being removed from the old position to the side previously used as the book-keeper's and private offices, and the tailoring department will occupy the place vacated by the millinery show rooms. By this change the millinery show rooms will be on the same side as the dress goods and ladies wear generally, while the tailoring department will be in connection with the tweeds, gentlemen's furnishings, etc., making it much more convenient than formerly. This firm announce the arrival of their spring stock, for which they made contracts before the close of last year at old prices in the British markets. Their position enables them at all times to buy at close prices, and they can therefore give their customers sterling good value in each department of their business. Give them a call when you visit the city.

Notices Worth Attention.

CHEAP GOODS.—Christie, Henderson & Co., on the first Dec. last, placed an order for all the staple lines of Cotton Goods, anticipating a heavy advance, in sympathy with the advance in Raw Cottons—the wisdom of their action is now fully demonstrated,—as the goods have risen in price since then from 10 to 20 per cent. These goods are all marked at the same prices as sold last season—the consumer getting the full advantage of their foresight—they can therefore with confidence invite inspection and comparison of prices. Ducks, Denims, Tickings, Canadian, Grey and White Cottons, Jeans, etc., etc.—extra value. These goods will go off rapidly. No time should be lost in securing the season supply. A splendid lot of Tweeds just to hand—Prints in great variety—the choicest of the season. The famous 50 cent Tea, with all its purity and flavor, still sold at 50 cents. Sugars, 9 to 12 lbs. for $1.00—the latter rare value. Eggs wanted—will pay for eggs throughout the season the very highest price—and take all that offer. Immense stock of Boots and Shoes to arrive this week. Christie, Henderson & Co.

—A LARGE stock of fresh groceries just to hand at the Cash Store and will be disposed of cheap for cash.

HARDWARE.

SHAW & MURTON
GUELPH,

WOULD RESPECTFULLY ANNOUNCE that having placed their orders for imported and Canadian woolens for this spring's trade, early last fall, they are enabled notwithstanding the great rise that has taken place in all classes of goods during the last four months to take orders for clothing at old prices. They would most especially direct a portion to their Worsted Coatings and Scotch Tweed Suitings, which this season excel both in quality and design. Also to a new style of English hard felt Hat which is much finer in quality and lighter in weight than has been manufactured in Britain heretofore. In the furnishing department they have a new make of spring Kid Gloves equal in quality to the celebrated Dent's Gloves, and much cheaper. Also, French Cambric Shirts, the nicest ordered shirt ever introduced. A general assortment of Fine Furnishing Goods can always be obtained from

Yours Most Respectfully,
SHAW & MURTON
Acton, April 1st, 1880.

WHILE YOU LIVE, LIVE WELL.
