HALL'S
Vegetable Sicilian Hair Renewer
Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard, and to those who have never used it we can confidently say, that it is the only reliable and perfected preparation to restore GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken; the scalp, by its use, becomes white and clean; it removes all eruptions and dandruff, and by its tonic properties prevents the hair from falling out, as it stimulates and nourishes the hair glands. By its use the hair grows thicker and stronger. In baldness it restores the capillary glands to their normal vigor, and will create a new growth except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair that splendid glossy appearance so much admired by all. A. A. Hayes, M.D., State Assayer of Mass., says, "the constituents are pure and carefully selected for excellent quality, and I consider it the BEST PREPARATION for its intended purposes." We publish a treatise on the hair, which we send free by mail upon application, which contains commendatory notices from clergymen, physicians, the press, and others. We have made the study of the hair and its diseases a specialty for years, and know that we make the most effective preparation for the restoration and the preservation of the hair, extant, and so acknowledged by the best Medical and Chemical Authority.
Sold by all Druggists and Dealers in Medicine.

NATURAL
Wines of France.
QUETTON ST. GEORGE & CO., OF TORONTO
ARE importing into this country the Natural Wines of France without admixture, a fact which may be considered a boon to the public, and especially to invalids. These Wines are selected in France by Mr. St. George himself, an hereditary proprietor of extensive vineyards in that country. The high character of this Firm is a sufficient guarantee that these are not only bought, but sold in their native purity whilst they may be purchased at prices within reach of all. The celebrated Chemist, Professor Croft has further settled this question of purity, by his Analysis of them, a report of which has been published.
